SUBJECT INDEX

Veterinary Microbiology, volumes 1–25

Abortion

Direct diagnosis of herpesvirus in equine foetal organs by means of electron microscopy, 4 (1979) 317

Rapid detection of *Chlamydia psittaci* in vaginal swabs of aborted ewes and goats by enzyme linked immunosorbent assay (ELISA), 11 (1986) 251

Comparison of some ovine *Chlamydia psittaci* isolates by indirect immunofluorescence, 13 (1987) 69

Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies of *Chlamydia psittaci*, 24 (1990) 21

Acholeplasma laidlawii

Isolation of *Acholeplasma laidlawii* and *Mycoplasma equigenitalium* from stallion semen, 4 (1979) 177

Prevalence of *Mycoplasma* and *Chlamydia* in the basal flora of dairy calves, 7 (1982) 351

Acholeplasma oculi

Isolation of *Acholeplasma oculi* from diseased horses in Australia, 2 (1977) 253

***Acholeplasma* spp.**

Serological investigation of horse sera for antibodies against mycoplasmas and acholeplasmas, 7 (1982) 147

Isolation of acholeplasma from horse feces, 7 (1982) 273

In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs, 15 (1987) 65

Actinobacillus*—see also *Haemophilus

Actinobacillus pleuropneumoniae

Protective efficacy of capsule extracts of *Haemophilus pleuropneumoniae* in pigs and mice, 12 (1986) 229

Protection of mice against the lethal effect of an intraperitoneal infection with *Haemophilus (Actinobacillus) pleuropneumoniae* after vaccination with capsular proteins, 18 (1988) 335

Biochemical and serological properties of *Actinobacillus pleuropneumoniae* biotype 2 strains isolated from swine, 20 (1989) 173

Slide precipitation: a simple method to type *Actinobacillus (Haemophilus) pleuropneumoniae*, 24 (1990) 123

Identification and localization of surface sialylated glycoconjugates in *Actinobacillus pleuropneumoniae* by direct enzyme-colloidal gold cytochemistry, 25 (1990) 217

Grouping of *Actinobacillus pleuropneumoniae* strains of serotypes 1 through 12 on the basis of their virulence in mice, 25 (1990) 229

Actinobacillus seminis

Ovine contagious epididymites: a review, 7 (1982) 551

Rapid identification of *Haemophilus somnus*, *Histophilus ovis* and *Actinobacillus seminis* using the API ZYM system, 17 (1988) 75

***Actinomyces* spp.**

Morphological variants developing in L-form cultures of two strains of *Actinomyces* spp. of canine origin, 7 (1982) 587

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Actinomycin

Effect of actinomycin D on the cytopathology and replication of porcine enteroviruses, 2 (1977) 275

Adenovirus—general

Characterization of two strains of adenovirus isolated from New Zealand sheep, 2 (1977) 97

Protective effect of vaccination against experimental adenoviral pneumoenteritis in fattening lambs, 3 (1978/1979) 191

Experimental adenovirus infection of lambs, 6 (1981) 113

Experimental infection of lambs with an adenovirus followed by *Pasteurella haemolytica*, 7 (1982) 369

Studies on the antigenic relationship between bovine subgroup 2 and conventional mammalian adenoviruses using immunofluorescence, 8 (1983) 121

***Aeromonas* spp.**

Search for an antigenic relationship between aeromonads and *Brucella abortus*, 2 (1977) 357

Enterotoxigenicity, hemagglutination and cell-surface hydrophobicity in *Aeromonas hydrophila*, *A. sobria* and *A. salmonicida*, 8 (1983) 17

Biochemical and toxigenic characteristics of *Aeromonas* spp. isolated from diseased mammals, moribund and healthy fish, 18 (1988) 63

Aflatoxins

Effect of aflatoxin B1 on resistance induced by *Bordetella bronchiseptica* vaccine in rabbits, 25 (1990) 209

African horse sickness virus

Factors associated with improved haemagglutination by African horse sickness virus, 7 (1982) 177

African swine fever virus

Detection of African swine fever virus antigen and antibody by radioimmunoassay, 5 (1980) 169

Interactions of porcine alveolar macrophages and bone marrow cells with African swine fever virus and virus-infected cells, 8 (1983) 163

The virus of African swine fever: perspectives for a vaccine, 23 (1990) 129

Effect of macrophage-specific colony-stimulating factor (CSF-1) on swine monocyte/macrophage susceptibility to in vitro infection by African swine fever virus, 25 (1990) 153

Agglutination

Agglutination of *Brucella abortus* cells by sera from cattle experimentally infected with *Escherichia coli*, 5 (1980) 123

Akabane virus

Physicochemical properties of Akabane virus: a member of the Simbu arbovirus group of the family Bunyaviridae, 3 (1978) 45

Hemagglutination-inhibition test applied to the study of Akabane virus infection in domestic animals, 3 (1978) 89

Hemolytic activity of Akabane virus, 4 (1979) 261

Antibodies to Akabane virus in horses, sheep and goats in Japan, 5 (1980) 239

Akabane virus infection in the pregnant ewe. 1. Growth of virus in the foetus and the development of the foetal immune response, 6 (1981) 197

Akabane virus infection in the pregnant ewe. 2. Pathology of the foetus, 6 (1981) 209

Appearance of slow-reacting and complement-requiring neutralizing antibody in cattle infected with Akabane virus, 14 (1987) 183

Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan, 15 (1987) 243

Prevalence of neutralising antibodies to Akabane virus in the Arabian Peninsula, 17 (1988) 141

Detection of antibodies against Akabane virus in bovine sera by enzyme-linked immunosorbent assay, 20 (1989) 275

Cullicoides: biological vectors of Akabane virus, 21 (1989) 125

Alcaligenes faecalis

An evaluation of two methods of substrate alkalinization for the identification of *Bordetella avium* and other similar organisms, 11 (1986) 301

Aleutian disease virus

Mechanisms of anemia in Aleutian disease viral infection of mink, 4 (1979) 17

Alkalinization

An evaluation of two methods of substrate alkalinization for the identification of *Bordetella avium* and other similar organisms, 11 (1986) 301

Allografts

An attempt to protect calves against experimental bovine leukosis using allografts, 10 (1984/1985) 231

Amblyomma variegatum

A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks, 19 (1989) 151

Anaemia

Mechanisms of anemia in Aleutian disease viral infection of mink, 4 (1979) 17

Enzyme-linked immunosorbent assay for diagnosis of equine infectious anemia, 7 (1982) 307

Anaerobic bacteria—general

Recovery and identification of anaerobes in veterinary medicine: a 2-year experience, 2 (1977) 237

Anaplasma centrale

An enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to *Anaplasma centrale* and *Anaplasma marginale*, 25 (1990) 45

Anaplasma marginale

Comparison of rapid card agglutination test with the complement fixation test for diagnosis of *Anaplasma marginale* infection in cattle in Colombia, 2 (1977) 167

Serologic comparisons of 4 *Anaplasma* isolates as measured by the complement-fixation test, 9 (1984) 181

Comparison of a DNA probe, complement-fixation and indirect immunofluorescence tests for diagnosing *Anaplasma marginale* in suspected carrier cattle, 24 (1990) 381

Development of a recombinant *Anaplasma marginale* DNA probe, 24 (1990) 391

An enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to *Anaplasma centrale* and *Anaplasma marginale*, 25 (1990) 45

Antelope

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

Anti-inflammatory drugs

The effect of anti-inflammatory agents on the clinical expression of bovine ephemeral fever, 19 (1989) 99

Antibiotics

Susceptibility of *Pseudomonas pseudomallei* isolates of non-human origin to chemotherapeutic agents by the single disc sensitivity method, 6 (1981) 367

A comparison of the effect of tiamulin hydrogen fumarate and tylosin tartrate on mycoplasmas of ruminants and some animal ureaplasmas, 9 (1984) 147

Antimicrobial drug resistance in porcine enterotoxigenic *Escherichia coli* of 0-group 149 and non-enterotoxigenic *Escherichia coli*, 9 (1984) 467

Uptake of antibiotics in Gram-negative bacteria exposed to EDTA-Tris, 10 (1984) 57

Rhodococcus equi pneumonia in 48 foals: response to antimicrobial therapy, 14 (1987) 329

Reinfection of bovine mammary glands following dry-cow antibiotic therapy, 15 (1987) 191

Antigens—bacteria

Antigenic analysis of *Peptococcus indolicus* by crossed immunoelectrophoresis, 5 (1980) 35

Immunogenic properties of ribosomes isolated from *Brucella abortus*, 6 (1981) 95

Comparison of seven isolates of *Mycoplasma meleagridis*, 7 (1982) 61

Characterization of salt-extractable protein antigens from *Brucella abortus* by crossed immunoelectrophoresis and isoelectricfocusing, 9 (1984) 549

A protective antigen for turkey's purified from a type 1 strain of *Pasteurella multocida*, 10 (1984/1985) 43

Preparation, assessment and preservation of antigen from *Brucella abortus* strain 45/20 for use in the rough antigen complement fixation test, 10 (1984/1985) 87

Demonstration of a new intracellular antigen in porcine intestinal adenomatosis and hamster proliferative ileitis, 10 (1985) 303

Comparative antigenic analysis of extracellular proteins of *Bacteroides nodosus* isolated from virulent and benign ovine footrot, 12 (1986) 135

Detection of antigenic fractions from *Brucella abortus* S45/20 which bind to non-agglutinating antibodies using electroblotting and enzyme-linked antibody probes, 12 (1986) 353

Characterisation of the outer membrane protein antigens of British field isolates of *Moraxella bovis*, 15 (1987) 181

Purification and characterization of a 94-kDa *Pasteurella haemolytica* antigen, 21 (1989) 57

Antigens—rickettsia

DNA restriction endonuclease cleavage patterns and protein antigen profile of *Ehrlichia risticii*, 25 (1990) 29

Antigens—viruses

Isolation of a precipitating antigen associated with bovine leukosis, 1 (1976) 121

Study on the morphology of bovine leukemia virus and localization of the viral antigens, 1 (1976) 193

Immunodiffusion reactions among porcine enteroviruses and other picornaviruses, 2 (1977) 205

Ultrastructural changes and antigen localization in tissues from foot-and-mouth disease virus-infected guinea-pigs, 7 (1982) 391

The effect of some common inactivation procedures on the antigens of bovine herpesvirus 1, 9 (1984) 313

Cross-reactions of bovine herpesvirus 1 antigens with those of other cattle herpesviruses, 9 (1984) 329

Peptide mapping of the group-specific antigens from the Australian bluetongue virus (BTV-20) and serotypes from southern Africa and North America, 11 (1986) 13

Identification of major antigenic proteins of bovine herpesvirus 1 and their correlation with virus neutralizing activity, 16 (1988) 109

Characterization of biological and antigenic properties of raccoon dog and blue fox parvoviruses: a monoclonal antibody study, 16 (1988) 219

Antimicrobial drug resistance

Antimicrobial drug resistance in porcine enterotoxigenic *Escherichia coli* of 0-group 149 and non-enterotoxigenic *Escherichia coli*, 9 (1984) 467

Antimicrobial resistance of *Escherichia coli* isolated from chickens, 21 (1989) 189

Antimicrobial drugs—general

Inductive drug resistance among *Escherichia coli* isolated from clinically healthy domestic livestock, 5 (1980) 333

Comparing different isolates of *Pasteurella haemolytica* from beef calves using their in vitro antimicrobial sensitivity patterns, 20 (1989) 73

Antimicrobial susceptibility

Evaluation of a rapid inoculum standardization system for antimicrobial susceptibility testing of bacterial isolates from the bovine mammary gland, 12 (1986) 269

Antimicrobial susceptibility of *Edwardsiella tardia* from the United States and Taiwan, 12 (1986) 277

The sensitivity to antimicrobial agents of species of *Yersinia* isolated from cattle and pigs in Nigeria, 12 (1986) 383

Probable transmission between animals of a plasmid encoding aminoglycoside 3-N-acetyltransferase IV and dihydrofolate reductase I, 15 (1987) 97

Antimicrobial resistance of fecal coliforms from pigs in a herd not exposed to antimicrobial agents for 126 months, 18 (1988) 147

Arbovirus—general

Arboviruses recovered from sentinel livestock in northern Australia, 18 (1988) 109

Arboviruses recovered from sentinel cattle using several virus isolation methods, 18 (1988) 119

Investigations of bluetongue and other arboviruses in the blood and semen of naturally infected bulls, 20 (1989) 315

Arbovirus—Simbu group

Improved hemagglutination of Simbu group arboviruses with higher sodium chloride molarity diluent, 1 (1976) 449

Arthritis

Immunoglobulins IgM and IgM in synovial fluids of swine with erysipelothrix polyarthritis, 1 (1976) 467

Immunoprophylaxis of experimental *Mycoplasma bovis* arthritis in calves. Protective efficacy of live organisms and formalinized vaccines, 5 (1980) 113

Changes in plasma fibrinogen levels in experimental *Mycoplasma bovis* arthritis in calves, 5 (1980) 215

Comparison of some ovine *Chlamydia psittaci* isolates by indirect immunofluorescence, 13 (1987) 69

Experimental induction of arthritis in LEW rats and antibody response to four *Mycoplasma arthritidis* strains, 21 (1989) 41

Artificial insemination

Transmission of bovine virus diarrhoea virus (BVDV) by artificial insemination (AI) with semen from a persistently-infected bull, 17 (1988) 97

Aspergillus terreus

Humoral immunity in disseminated *Aspergillus terreus* infection in the dog, 16 (1988) 283

Atlantic salmon

Detection of infectious pancreatic necrosis virus (IPNV) RNA by hybridization with an oligonucleotide DNA probe, 23 (1990) 211

Atrophic rhinitis

A test in Vero cell monolayers for toxin production by strains of *Pasteurella multocida* isolated from pigs suspected of having atrophic rhinitis, 9 (1984) 503

Bordetella bronchiseptica and toxigenic type D *Pasteurella multocida* as agents of severe atrophic rhinitis of swine, 13 (1987) 179

Studies on the antigenic relationships of six adherent isolates of *Bordetella bronchiseptica*, 18 (1988) 327

Colonisation by *Pasteurella multocida* in atrophic rhinitis of pigs and immunity to the osteolytic toxin, 25 (1990) 253

Aujeszky's disease virus

In vitro markers to differentiate an avirulent from a virulent strain of Aujeszky's disease virus, 3 (1978) 65

In vitro stimulation of pig lymphocytes after infection and vaccination with Aujeszky's disease virus, 3 (1978/1979) 255

The evaluation of an experimental porcine herpesvirus 1 (Aujeszky's disease virus) subunit vaccine in mice, 5 (1980) 291

Genetic stability of the thermal, trypsin, rabbit and mouse markers of Aujeszky's disease (pseudorabies) virus in the pig, 6 (1981) 225

The porcine humoral response to detergent extracted Aujeszky's disease (pseudorabies) virus antigens, 7 (1982) 515

The evaluation of a lectin–agarose based subunit vaccine and complementary diagnostic antigen for Aujeszky's disease (pseudorabies) in the pig, 9 (1984) 35

Intranasal vaccination of pigs against Aujeszky's disease. 4. Comparison with one or two doses of an inactivated vaccine in pigs with moderate maternal antibody titres, 10 (1985) 401

The rapid detection of Aujeszky's disease virus in pigs by direct immunoperoxidase labelling, 10 (1985) 481

Evaluation of a diagnostic antigen for the detection of Aujeszky's disease virus-infected subunit-vaccinated pigs, 11 (1986) 25

Four-layer enzyme immunoassay (EIA) detection of differences in IgG, IgM and IgA

antibody response to Aujeszky's disease virus in infected and vaccinated pigs, 13 (1987) 121

Aujeszky's disease of sheep: experimental studies on the excretion and horizontal transmission of the virus, 13 (1987) 353

Effect of intratesticular inoculation with Aujeszky's disease virus on genital organs of boars, 14 (1987) 355

Relative rates of Aujeszky's disease virus attenuation, as assessed in mice, 15 (1987) 249

Studies of transplacental and perinatal infection with two clones of a single Aujeszky's disease (pseudorabies) virus isolate, 16 (1988) 243

Genetic variation between New Zealand and Western Samoan Isolates of Aujeszky's disease virus, 17 (1988) 335

Horizontal transmission of Aujeszky's disease virus from sheep to pigs, 19 (1989) 245

Aujeszky's disease ELISA: cross-reactions with other herpesvirus antisera, 20 (1989) 1

Iscom of viral envelope proteins protects against Aujeszky's disease, 20 (1989) 143

Extent and duration of virulent virus excretion upon challenge of pigs vaccinated with different glycoprotein-deleted Aujeszky's disease vaccines, 22 (1990) 107

Marker vaccines, virus protein-specific antibody assays and the control of Aujeszky's disease, 23 (1990) 85

Rapid detection of pseudorabies virus genomic sequences in biological samples from infected pigs using polymerase chain reaction DNA amplification, 23 (1990) 317

Antibodies to Aujeszky's disease virus in pigs immunized with purified virus glycoproteins, 24 (1990) 1

A complement-dependent neutralizing monoclonal antibody against glycoprotein II of pseudorabies virus, 24 (1990) 193

Dectection of latent pseudorabies virus in swine using in situ hybridization, 24 (1990) 273

Polymerase chain reaction amplification of pseudorabies virus DNA from acutely and latently infected cells, 24 (1990) 281

***Autographa californica* nuclear polyhedrosis virus**

The expression of the *Autographa californica* nuclear polyhedrosis virus genome in insect cells, 23 (1990) 73

Avian encephalomyelitis virus

Physico-chemical and morphological characteristics of avian encephalomyelitis virus, 5 (1980) 87

Avian infectious bronchitis virus

Comparison of serological tests for the measurement of the primary immune response to avian infectious bronchitis virus vaccines, 2 (1977) 289

Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens, 15 (1987) 31

Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA, 24 (1990) 261

Avian influenza virus

Intracerebral pathogenicity for chickens of avian influenza viruses isolated from free-living waterfowl in Japan, 18 (1988) 357

Bacillus piliformis

Cultivation of *Bacillus piliformis* (Tyzzer) in mouse fibroblasts (3T3 cells), 22 (1990) 291

Bacterins

Efficacy of a bacterin prepared from *Chlamydia psittaci* grown in cell culture for experimental immunization of ewes, 7 (1982) 493

Bacteroides nodosus

Characteristics of *Bacteroides nodosus* isolated from cattle, 3 (1978/1979) 269

Analysis of the outer membrane proteins of *Bacteroides nodosus*, the causal organism of ovine footrot, 9 (1984) 155

Phagocytosis of *Bacteroides nodosus* by ovine peripheral blood leucocytes, 9 (1984) 169

The thermostability of proteases from virulent and benign strains of *Bacteroides nodosus*, 9 (1984) 227

Reactivity of sera from sheep immunised with individual outer membrane proteins of *Bacteroides nodosus* against heterologous bacterial strains, 9 (1984) 453

Motility in relation to virulence of *Bacteroides nodosus*, 10 (1984/1985) 107

Comparative antigenic analysis of extracellular proteins of *Bacteroides nodosus* isolated from virulent and benign ovine footrot, 12 (1986) 135

Identification and genetic mapping of proteins encoded in the fimbrial subunit region of *Bacteroides nodosus*, 22 (1990) 53

Measurement of protease thermostability, twitching motility and colony size of *Bacteroides nodosus*, 22 (1990) 353

Bacteroides ruminicola

Bacteroides ruminicola as a possible cause of "lumpy-jaw" in Bennett's wallabies, 2 (1977) 179

***Bacteroides* spp.**

Isolation and characterisation of bacteria from pyothorax (empyaemia) in cats, 7 (1982) 455

Bacteroides species from the oral cavity and oral-associated disease of cats, 19 (1989) 275

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Bacteroides vulgatus

Location of *Treponema hyodysenteriae* and synergistic anaerobic bacteria in colonic lesions of gnotobiotic pigs, 6 (1981) 69

Bat

The rabies viruses of bats, 23 (1990) 165

Benzidine

Factors affecting the consecutive and simultaneous coupling with bis-diazotized benzidine of protein antigen to sheep red blood cells, 9 (1984) 193

Berne virus

Antibodies to Berne virus in horses and other animals, 9 (1984) 523

Resistance of Berne virus to physical and chemical treatment, 11 (1986) 41

Betapropiolactone

Immunogenicity of equine herpesvirus type 1 (EHV1) and equine rhinovirus type 1 (ERhV1) following inactivation by betapropiolactone (BPL) and ultraviolet (UV) light, 7 (1982) 535

Biochemical features

Biochemical features of bovine leukemia virus, 1 (1976) 129

Studies on a phosphodiesterase activity associated with Newcastle disease virus, 2 (1977) 213

Occurrence and some properties of neuraminidases in *Haemophilus avium* and *Haemophilus paragallinarum*, 2 (1977) 303

Structural proteins of porcine enteroviruses, 3 (1978) 23

Comparison between strains of infectious bovine rhinotracheitis virus (*Bovid herpesvirus 1*), from respiratory and genital origins, using polyacrylamide gel electrophoresis of structural proteins, 5 (1980) 187

Properties of a coronavirus isolated from a cow with epizootic diarrhea, 5 (1980) 265

Mouse scrapie and polyadenylated RNA metabolism in L cells, 6 (1981) 375

Biochemical characterization of staphylococci isolated from goats, 7 (1982) 463

Identification of envelope and nucleocapsid proteins of infectious bovine rhinotracheitis virus by SDS-polyacrylamide gel electrophoresis, 8 (1983) 57

Lysogeny and other characteristics of *Staphylococcus hyicus* isolated from chickens, 8 (1983) 411

Comparison of the viral proteins of canine parvovirus-2, mink enteritis virus and feline panleukopenia virus, 8 (1983) 423

Analysis of the outer membrane proteins of *Bacteroides nodosus*, the causal organism of ovine footrot, 9 (1984) 155

The thermostability of proteases from virulent and benign strains of *Bacteroides nodosus*, 9 (1984) 227

A study of antigenic variants of foot-and-mouth disease virus by polyacrylamide gel electrophoresis of their structural polypeptides, 10 (1985) 347

Biochemical and serological identification of strains of *Haemophilus pleuropneumoniae*, 10 (1985) 393

Variation in foot-and-mouth disease virus isolates in Kenya: an examination of field isolates by T1 oligonucleotide fingerprinting, 10 (1985) 409

Pasteurella haemolytica: purification of saline-extractable proteins by isoelectrofocusing, 10 (1985) 465

Studies on the pathogenesis of bovine ephemeral fever in sentinel cattle. II. Haematological and biochemical data, 10 (1985) 505

Host cell modulation of foot-and-mouth disease virus procapsid synthesis, 12 (1986) 329

Structural proteins of bovine parainfluenza-3 virus, 13 (1987) 205

Effects of smooth and rough *Pasteurella haemolytica* lipopolysaccharides on plasma cyclic-nucleotides and free fatty acids in calves, 15 (1987) 279

Preparation and characterisation of envelope proteins from *Haemophilus pleuropneumoniae*, 15 (1987) 303

Biological and biochemical comparison of bovid herpesvirus-4 strains, 16 (1988) 339

Biochemical and toxigenic characteristics of *Aeromonas* spp. isolated from diseased mammals, moribund and healthy fish, 18 (1988) 63

Further biological, serological and biochemical characterization of North American, European and Southeast Asian strains of bovine herpesvirus 1 compared with other Alphaherpesvirinae members, 18 (1988) 219

Chemical composition of lipopolysaccharide from *Moraxella bovis*, 20 (1989) 165

Biochemical and serological properties of *Actinobacillus pleuropneumoniae* biotype 2 strains isolated from swine, 20 (1989) 173

Selective extraction of outer-membrane proteins from membrane complexes of *Pseudomonas maltophila* by chloroform–methanol, 22 (1990) 69

Immunochemical studies of oligosaccharides obtained from the lipopolysaccharide of *Brucella ovis*, 22 (1990) 329

Molecular biology of transmissible gastroenteritis virus, 23 (1990) 147

Morbillivirus group: genome organisation and proteins, 23 (1990) 155

Contribution of molecular biology to the study of the porcine interferon system, 23 (1990) 245

Pathogenesis of mucosal disease and molecular aspects of bovine virus diarrhoea virus, 23 (1990) 371

DNA restriction endonuclease cleavage patterns and protein antigen profile of *Ehrlichia risticii*, 25 (1990) 29

Identification and localization of surface sialylated glycoconjugates in *Actinobacillus pleuropneumoniae* by direct enzyme-colloidal gold cytochemistry, 25 (1990) 217

Bivens Arm virus

Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to Tibrogargan virus of Australia, 19 (1989) 141

***Blastocystis* sp.**

Blastocystis sp. infections in pigs, 3 (1978/1979) 227

Bluetongue virus

Antigenic relationship of Ibaraki, bluetongue, and epizootic hemorrhagic disease viruses, 3 (1978) 15

Use of the indirect fluorescent antibody technique for the detection of Bluetongue virus antigen in tissue smears from *Culicoides*

variipennis (Diptera, Ceratopogonidae), 5 (1980) 13

Bluetongue and related viruses in Nigeria: Experimental infection of West African dwarf sheep with Nigeria strains of the viruses of epizootic haemorrhagic disease of deer and bluetongue, 5 (1980) 177

A serological comparison of the Australian isolate of bluetongue virus type 20 (CSIRO 19) with bluetongue group viruses, 6 (1981) 9

Serological studies of two additional Australian bluetongue virus isolates CSIRO 154 and CSIRO 156, 6 (1981) 233

Bluetongue virus serotypes 20 and 17 infections in sheep: comparison of clinical and serological responses, 7 (1982) 189

Recovery of dual serotypes of bluetongue virus from infected sheep and cattle, 7 (1982) 197

Electrophoretic comparison of the genomes of North American bluetongue viruses, one Australian bluetongue virus, and three other related orbiviruses, 7 (1982) 285

Comparative studies on the growth of Australian bluetongue virus serotypes in continuous cell lines and embryonated chicken eggs, 7 (1982) 401

Serological studies of Australian and Papua New Guinean cattle and Australian sheep for the presence of antibodies against bluetongue group viruses, 8 (1983) 147

Immunodiffusion test antigen from bluetongue virus-infected newborn mouse brains, 8 (1983) 363

Rapid methods for comparing the double-stranded RNA genome profiles of bluetongue virus, 8 (1983) 543

Virological, clinical and serological responses of sheep infected with tissue culture adapted bluetongue virus serotypes 10, 11, 13 and 17, 10 (1984/1985) 179

Peptide mapping of the group-specific antigens from the Australian bluetongue virus (BTV-20) and serotypes from southern Africa and North America, 11 (1986) 13

Genetic reassortment of bluetongue virus Serotype 11 strains in the bovine, 15 (1987) 11

Growth of bluetongue and epizootic hemorrhagic disease of deer viruses in poikilothermic cell systems, 16 (1988) 15

Temporal development of bluetongue virus protein-specific antibody in sheep following natural infection, 16 (1988) 231

Studies with enzyme-linked immunosorbent assays for the serodiagnosis of bluetongue and epizootic haemorrhagic disease of deer, 16 (1988) 323

The vector potential of British *Culicoides* species for bluetongue virus, 17 (1988) 1

Comparison of virologic and serologic responses of lambs and calves infected with bluetongue virus Serotype 10, 18 (1988) 233

Cross-neutralization of genetic reassortants of bluetongue virus Serotypes 20 and 21, 19 (1989) 37

Oligonucleotide fingerprint analysis of the genomes of two variants of bluetongue virus Serotype 2 isolated in the U.S.A., 20 (1989) 369

Effects of proteolytic enzymes on the infectivity, haemagglutinating activity and protein composition of bluetongue virus type 20, 22 (1990) 137

Dot immunobinding assay in comparison with enzyme-linked immunosorbent assay for the detection of bluetongue virus antibodies in sheep, 22 (1990) 365

Border disease virus

Congenital infections with nonarbo togaviruses, 8 (1983) 321

Antigenic differentiation of pestivirus strains with monoclonal antibodies against hog cholera virus, 21 (1989) 9

Alterations in lymphocyte subpopulations in peripheral blood of sheep persistently infected with border disease virus, 22 (1990) 153

Bordetella avium

An evaluation of two methods of substrate alkalinization for the identification of *Bordetella avium* and other similar organisms, 11 (1986) 301

Bordetella bronchiseptica

An evaluation of two methods of substrate alkalinization for the identification of *Bordetella avium* and other similar organisms, 11 (1986) 301

Bordetella bronchiseptica and toxigenic type D *Pasteurella multocida* as agents of severe atrophic rhinitis of swine, 13 (1987) 179

The pathogenesis of turbinate atrophy in pigs caused by *Bordetella bronchiseptica*, 18 (1988) 135

Studies on the antigenic relationships of six adherent isolates of *Bordetella bronchiseptica*, 18 (1988) 327

Virulence and lienotoxicity of *Bordetella bronchiseptica* in mice, 25 (1990) 199

Effect of aflatoxin B1 on resistance induced by *Bordetella bronchiseptica* vaccine in rabbits, 25 (1990) 209

Borrelia anserina

Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina*, 19 (1989) 361

Borrelia burgdorferi

Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina*, 19 (1989) 361

Bovine adenovirus—general

Studies on the cytopathology of bovine adenoviruses in calf testis and calf kidney cell cultures, 3 (1978/1979) 241

A heteroploid permanent cell line originating from embryonic calf thyroid supporting the replication of all known bovine adenovirus serotypes, 19 (1989) 317

Bovine adenovirus 2

In utero adenoviral infection of sheep, 12 (1986) 87

Bovine adenovirus 3

The cultivation of bovine adenovirus type 3 in cultures of suspended MDBK cells, 2 (1977) 283

Cultivation of bovine adenovirus type 3 in tracheal organ cultures, 3 (1978) 3

Serological studies of parainfluenza type 3 virus, bovine adenovirus type 3 and bovine respiratory syncytial virus infection in beef calves, 9 (1984) 587

Enzyme linked immunosorbent assay used to monitor serum antibodies to bovine respiratory disease viruses, 11 (1986) 309

Bovine astrovirus 2

Cultivation and partial characterization of bovine astrovirus, 19 (1989) 113

Bovine coronavirus

Detection of coronavirus in calf faeces with a haemadsorption-elution-haemagglutination assay (HEHA), 3 (1978/1979) 205

Epizootic diarrhoea of adult cattle associated with a coronavirus-like agent, 5 (1980) 151

Properties of a coronavirus isolated from a cow with epizootic diarrhea, 5 (1980) 265

Inhibitors of bovine parvovirus, coronavirus and rotavirus in precolostral and fetal bovine sera, 6 (1981) 143

Coronavirus infection of the bovine respiratory tract, 9 (1984) 425

Development of protein A—gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells, 19 (1989) 217

A longitudinal study of bovine coronavirus enteric and respiratory infections in dairy calves in two herds in Ohio, 22 (1990) 187

Bovine enteric coronavirus

Characterization of monoclonal and polyclonal antibodies to bovine enteric coronavirus: establishment of an efficient ELISA for antigen detection in feces, 20 (1989) 111

Bovine enterovirus

Blocking enzyme-linked immunosorbent assay for detection of antibodies against bovine enterovirus, 21 (1989) 275

Bovine ephemeral fever virus

An experimental inactivated virus vaccine against bovine ephemeral fever. 1. Studies of the virus, 4 (1979) 183

An experimental inactivated virus vaccine against bovine ephemeral fever. 2. Do neutralizing antibodies protect against infection?, 4 (1979) 197

Transmission of virus from serosal fluids and demonstration of antigen in neutrophils and mesothelial cells of cattle infected with bovine ephemeral fever virus, 10 (1984/1985) 199

Studies on the pathogenesis of bovine ephemeral fever in sentinel cattle. I. Virology and serology, 10 (1985) 493

Studies on the pathogenesis of bovine ephemeral fever in sentinel cattle. II. Haematological and biochemical data, 10 (1985) 505

Hemagglutination with rhabdoviruses related to bovine ephemeral fever virus, 11 (1986) 1

Homologous and heterologous antibody reactions in sera from cattle naturally infected with bovine ephemeral fever group viruses, 13 (1987) 1

The effect of anti-inflammatory agents on the clinical expression of bovine ephemeral fever, 19 (1989) 99

Bovine herpesvirus 1

Effects of some components of the humoral immune response on the replication of bovine herpesvirus type I in tracheal organ cultures, 6 (1981) 129

Effect of lymphocytes and broncho-alveolar washing cells on the replication of bovine herpesvirus type 1 in tracheal organ cultures, 7 (1982) 241

Attempted reactivation of latent bovine herpesvirus 1 infection in calves by infection with ruminant pestiviruses, 8 (1983) 563

The DNA of an IPV strain of bovid herpesvirus 1 in sacral ganglia during latency after intravaginal infection, 9 (1984) 53

The effect of some common inactivation procedures on the antigens of bovine herpesvirus 1, 9 (1984) 313

Cross-reactions of bovine herpesvirus 1 antigens with those of other cattle herpesviruses, 9 (1984) 329

A single dilution enzyme-linked immunosorbent assay for the quantitative detection of antibodies to bovine herpesvirus type 1, 10 (1984/1985) 133

Ovarian lesions in heifers exposed to infectious bovine rhinotracheitis virus by non-genital routes on the day after breeding, 10 (1984/1985) 155

Excretion and reexcretion of thermosensitive and wild-type strains of infectious bovine rhinotracheitis virus after co-infection or two successive infections, 10 (1985) 371

Hemagglutinating activity associated with bovine herpesvirus type 1, 10 (1985) 517

Development of specific antibodies mediating antibody-dependent cell-mediated cytotoxity following experimental infection of cattle with bovine herpesvirus 1 and subsequent viral reactivation, 11 (1986) 51

Identification of bovine herpesvirus-1 polypeptides involved in serum neutralization, 11 (1986) 213

Enzyme linked immunosorbent assay used to monitor serum antibodies to bovine respiratory disease viruses, 11 (1986) 309

Hemagglutination inhibition and virus neutralizing response of rabbits inoculated with bovine herpesvirus 1 subunit vaccine, 13 (1987) 107

Highly sensitive antigen detection procedures for the diagnosis of infectious bovine rhinotracheitis: amplified ELISA and reverse passive haemagglutination, 13 (1987) 135

Isolation of infectious bovine rhinotracheitis virus from a latently infected feral pig, 14 (1987) 191

Evaluation of an antigen-capture ELISA for the detection of bovine herpesvirus Type 1 shedding from feedlot cattle, 16 (1988) 101

Identification of major antigenic proteins of bovine herpesvirus 1 and their correlation with virus neutralizing activity, 16 (1988) 109

Further biological, serological and biochemical characterization of North American, European and Southeast Asian strains of bovine herpesvirus 1 compared with other

Alphaherpesvirinae members, 18 (1988) 219

Effects of bovine respiratory disease viruses and isoprinosine on bovine leukocyte function in vitro, 20 (1989) 307

Identification of the gene homologous to HSV major DNA binding protein in the BHV-1 genome, 22 (1990) 203

A study of the predominant genotypes of bovid herpesvirus 1 found in the U.K., 22 (1990) 213

Bovine herpesvirus 2

Production of interferon by bovine peripheral blood monocytes infected with bovid herpesvirus 2, 8 (1983) 69

Bovine herpesvirus 3

Isolation of bovine Herpesvirus III from diarrheic feces, 3 (1978/1979) 199

Immunological relationships between malignant catarrhal fever virus (alcelaphine herpesvirus 1) and bovine cytomegalovirus (bovine herpesvirus 3), 16 (1988) 211

Bovine herpesvirus 4

Experimental infection of rabbits with bovine herpesvirus-4: acute and persistent infection, 7 (1982) 503

Detection of antibodies to bovid herpesvirus 4 by ELISA, 10 (1984/1985) 149

Biological and biochemical comparison of bovid herpesvirus-4 strains, 16 (1988) 339

Production and characterization of monoclonal antibodies to bovid herpesvirus-4, 19 (1989) 305

Experimental infection of bulls with a genital isolate of bovine herpesvirus-4 and reactivation of latent virus with dexamethasone, 21 (1989) 97

Bovine leukemia virus

Special Issue "Virology, Diagnostic Procedures, Epizootiology and Transmission of Bovine Leucosis", 1 (1976) 93–411

A microculture syncytia assay for bovine leukemia virus, 3 (1978) 77

Bovine leukosis virus in sheep, lymphocyte modification and surface-immunoglobulin-bearing cell numbers, 5 (1980) 1

An improved immunodiffusion test for antibodies to bovine leukemia virus antigens, 5 (1980) 195

Antibody titers in cattle clinically and subclinically infected with bovine leukemia virus, 6 (1981) 167

Enzootic bovine leukosis: preparation of an antigen for the agar gel immunodiffusion test and statistical comparison with other antigens, 6 (1981) 247

Role of the spleen in the pathogenesis of experimentally induced bovine leukemia virus infection, 7 (1982) 411

Studies of foetuses from cows clinically affected with bovine leucosis, 8 (1983) 505

An attempt to protect calves against experimental bovine leukosis using allografts, 10 (1984/1985) 231

A rapid method for the large scale preparation of bovine leukemia virus antigen, 17 (1988) 107

Bovine leukemia: facts and hypotheses derived from the study of an infectious cancer, 17 (1988) 197

Detection of antibodies to bovine leukemia virus in bovine milk samples with an ELISA involving two monoclonal antibodies, 18 (1988) 89

Serological detection of multiple retroviral infections in cattle: bovine leukemia virus, bovine syncytial virus and bovine visna virus, 20 (1989) 247

Bovine leukaemia proviral DNA detection in cattle using the polymerase chain reaction, 25 (1990) 117

Suppression of immunological responses in rabbits experimentally infected with bovine leukemia virus, 25 (1990) 131

Bovine parainfluenza virus 3

The effect of some inactivating agents and a deprived ionic environment on the haemagglutinin and neuraminidase activities of bovine parainfluenza-3 virus (PIV-3), 1 (1976) 427

Enzyme linked immunosorbent assay used to

monitor serum antibodies to bovine respiratory disease viruses, 11 (1986) 309

Structural proteins of bovine parainfluenza-3 virus, 13 (1987) 205

Effects of bovine respiratory disease viruses and isoprinosine on bovine leukocyte function in vitro, 20 (1989) 307

Bovine parvovirus

Inhibitors of bovine parvovirus, coronavirus and rotavirus in precolostral and fetal bovine sera, 6 (1981) 143

Studies on the replication of a bovine parvovirus, 10 (1984/1985) 165

Properties of an Australian isolate of bovine parvovirus type 1, 10 (1985) 335

Bovine respiratory syncytial virus

Serological studies of parainfluenza type 3 virus, bovine adenovirus type 3 and bovine respiratory syncytial virus infection in beef calves, 9 (1984) 587

Enzyme linked immunosorbent assay used to monitor serum antibodies to bovine respiratory disease viruses, 11 (1986) 309

Differences in fluorescent antibody staining of bovine respiratory syncytial virus-infected cells by ovine and bovine sera, 13 (1987) 87

Pathogenesis of bovine respiratory syncytial virus in experimentally infected lambs, 23 (1990) 267

Bovine rhinotracheitis virus

Evaluation of the critical parameters of a sensitive ELISA test using purified infectious bovine rhinotracheitis virus antigens, 6 (1981) 265

Bovine rotavirus

Bovine rotavirus diagnosis: comparison of various antigens and serological tests, 3 (1978) 115

Detection of rotavirus infection by immunodiffusion, 6 (1981) 31

Inhibitors of bovine parvovirus, coronavirus and rotavirus in precolostral and fetal bovine sera, 6 (1981) 143

Neutralizing anitbody to bovine rotavirus in various animal species, 6 (1981) 259

Comparison of bovine rotavirus strains by plaque assay, 6 (1981) 379

Primary isolation of cytopathic bovine rotaviruses on fetal rhesus monkey kidney cells, 8 (1983) 135

Sequential isolation of rotavirus from individual calves, 11 (1986) 177

Prolonged excretion and failure of cross-protection between distinct serotypes of bovine rotavirus, 12 (1986) 7

Comparison by plaque assay of bovine rotavirus and a bovine enterovirus-like agent, 12 (1986) 189

A comparison of three rapid diagnositc methods for the detection of rotavirus infection in calves, 13 (1987) 19

A sensitive plaque assay for bovine rotavirus in cultures of the bovine cell line GBK, 13 (1987) 383

Influence of immunomodulatory agents on bovine humoral and cellular immune responses to parenteral inoculation with bovine rotavirus vaccines, 17 (1988) 323

Monoclonal antibodies to Quebec strain (Q_{17}) of bovine rotavirus, 23 (1990) 283

Prevalence of antibodies to four bovine rotavirus strains in different age groups of cattle, 25 (1990) 143

Bovine spongiform encephalopathy

Bovine spongiform encephalopathy: detection and quantitation of fibrils, fibril protein (PeP) and vacuolation in brain, 23 (1990) 295

Bovine spumavirus

Epidemiological studies of bovine spumavirus, 16 (1988) 25

Detection of immunological tolerance to bovine spumavirus (BSV) with evidence for salivary excretion and spread of BSV from the tolerant animal, 16 (1988) 35

Bovine syncytial virus

Serological detection of multiple retroviral infections in cattle: bovine leukemia virus,

bovine syncytial virus and bovine visna virus, 20 (1989) 247

Bovine viral diarrhoea–mucosal disease virus

The effects of bovine viral diarrhoea–mucosal disease (BVD) virus on the ovine foetus, 4 (1979) 279

Pathogenesis of bovine viral diarrhoea-mucosal disease (BVD-MD) virus infection in tracheal organ cultures, 5 (1980) 257

Bovine viral diarrhoea virus

Congenital infections with nonarbo togaviruses, 8 (1983) 321

Enzyme-linked immunosorbent assay for the detection of antibodies to bovine viral diarrhea virus in bovine sera, 10 (1985) 325

An enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to bovine viral diarrhoea virus (BVDV) in cattle sera, 10 (1985) 359

Preliminary serological characterization of bovine viral diarrhoea virus strains using monoclonal antibodies, 12 (1986) 195

Detection of bovine virus diarrhea virus in cell culture using an immunoperoxidase technique, 13 (1987) 153

Comparison by the neutralisation assay of pairs of non-cytopathogenic and cytopathogenic strains of bovine virus diarrhoea virus isolated from cases of mucosal disease, 13 (1987) 361

Bovine viral diarrhea virus proteins: heterogeneity of cytopathogenic and non-cytopathogenic strains and evidence of a 53K glycoprotein neutralization epitope, 16 (1988) 303

Transmission of bovine virus diarrhoea virus (BVDV) by artificial insemination (AI) with semen from a persistently-infected bull, 17 (1988) 97

A rapid, quantitative assay for titration of bovine virus diarrhoea—mucosal disease virus, 18 (1988) 209

Serological characterization of viruses isolated from experimental mucosal disease, 19 (1989) 13

Protection against respiratory infection with bovine virus diarrhoea virus by passively acquired antibody, 19 (1989) 195

Effects of bovine respiratory disease viruses and isoprinosine on bovine leukocyte function in vitro, 20 (1989) 307

Antigenic differentiation of pestivirus strains with monoclonal antibodies against hog cholera virus, 21 (1989) 9

Effect of host cell on the in vitro characteristics expressed by two bovine viral diarrhea virus strains, 21 (1989) 319

An enzyme-linked immunosorbent assay (ELISA) for antibodies to bovine viral diarrhea virus, 22 (1990) 1

In vitro production of antibodies to bovine virus diarrhoea virus by peripheral blood mononuclear cells from cattle immunized by infection, 22 (1990) 161

ELISA detection of bovine viral diarrhoea virus specific antibodies using recombinant antigen and monoclonal antibodies, 23 (1990) 193

Immunohistological detection of bovine viral diarrhoea virus antigen in the central nervous system of persistently infected cattle using monoclonal antibodies, 23 (1990) 203

Pathogenesis of mucosal disease and molecular aspects of bovine virus diarrhoea virus, 23 (1990) 371

Detection of bovine viral diarrhea virus in serum from cattle by dot blot hybridization assay, 24 (1990) 297

Bovine visna virus

Serological detection of multiple retroviral infections in cattle: bovine leukemia virus, bovine syncytial virus and bovine visna virus, 20 (1989) 247

Breda agent

Studies with an unclassified virus isolated from diarrheic calves, 7 (1982) 221

Breda virus

Studies on bovine Breda virus, 15 (1987) 261

Seroepidemiology of Breda virus in cattle using ELISA, 19 (1989) 233

Breed susceptibility

Breed susceptibility to ovine progressive pneumonia (maeda/visna) virus, 12 (1986) 283

Brucella abortus

Search for an antigenic relationship between aeromonads and *Brucella abortus*, 2 (1977) 357

Agglutination of *Brucella abortus* cells by sera from cattle experimentally infected with *Escherichia coli*, 5 (1980) 123

A comparison of counter-immunoelectrophoresis with the rose bengal and the serum tube agglutination tests in the diagnosis of brucellosis in sheep, 5 (1980) 223

Studies on the use of *Yersinia enterocolitica* 09 antigens in rapid quantitative plate tests for the differentiation of Brucella and Yersinia infections in cattle and the diagnosis of bovine brucellosis, 5 (1980) 323

Immunogenic properties of ribosomes isolated from *Brucella abortus*, 6 (1981) 95

Serological response of cattle after vaccination and challenge with *Brucella abortus*, 7 (1982) 165

The anamnestic response to *Brucella abortus*-infected and vaccinated cattle, 8 (1983) 405

Analysis and in vivo assay of *B. abortus* agglutinating and non-agglutinating antibodies, 9 (1984) 391

Characterization of salt-extractable protein antigens from *Brucella abortus* by crossed immunoelectrophoresis and isoelectricfocusing, 9 (1984) 549

A comparative study of ELISA and other methods for the detection of *Brucella* antibodies in bovine sera, 10 (1984/1985) 13

Evaluation of the enzyme-linked immunosorbent assay in the detection of cattle infected with *Brucella abortus*, 10 (1984/1985) 23

Preparation, assessment and preservation of antigen from *Brucella abortus* strain 45/20 for use in the rough antigen complement fixation test, 10 (1984/1985) 87

Production of *Brucella abortus*-specific Protein A-reactive antibodies (IgG_2) in infected and vaccinated cattle, 12 (1986) 43

Comparison of an enzyme-linked immunosorbent assay using monoclonal antibodies and a complement fixation test for cattle vaccinated and infected with *Brucella abortus*, 12 (1986) 55

Detection of antigenic fractions from *Brucella abortus* S45/20 which bind to non-agglutinating antibodies using electroblotting and enzyme-linked antibody probes, 12 (1986) 353

Role of milk immunoglobulins in the *Brucella* milk ring test, 12 (1986) 359

Kinetic analysis of cattle anti-*Brucella abortus* S45/20 non-agglutinating antibodies in antibody-dependent cell-mediated cytotoxicity, 13 (1987) 273

Experimental *Brucella abortus* infection in pigs, 14 (1987) 365

Effect of bovine non-agglutinating antibodies on the blood clearance of ^{131}I-labelled *Brucella abortus* strain 45/20, 15 (1987) 121

Vaccination of cattle with chemically modified and unmodified salt-extractable proteins from *Brucella abortus*, 15 (1987) 325

Conservation of antigenicity in a 31-kDa *Brucella* protein, 18 (1988) 313

Immunogenicity of *Brucella abortus* salt-extractable proteins, 20 (1989) 49

Comparison of the dot-immunobinding assay with the complement fixation test for the detection of *Brucella* antibodies in sheep, 20 (1989) 281

An evaluation of the delayed-type hypersensitivity test for diagnosing brucellosis in individual cattle: a field study, 22 (1990) 241

Brucella canis

Serological responses of dogs to cell wall and internal antigens of *Brucella canis* (*B. canis*), 7 (1982) 35

Characterization of *Brucella canis* protein antigens and polypeptide antibody responses of infected dogs, 19 (1989) 373

Brucella melitensis

Immunization with *Brucella melitensis* Rev 1 against *Brucella ovis* infection of rams, 14 (1987) 381

Discrimination between sheep antibodies to *Brucella melitensis* and to *Brucella ovis*, 20 (1989) 339

Brucella ovis

Ovine contagious epididymites: a review, 7 (1982) 551

Immunization with *Brucella melitensis* Rev 1 against *Brucella ovis* infection of rams, 14 (1987) 381

Characterization of *Brucella ovis* surface antigens, 18 (1988) 349

Discrimination between sheep antibodies to *Brucella melitensis* and to *Brucella ovis*, 20 (1989) 339

Immunochemical studies of oligosaccharides obtained from the lipopolysaccharide of *Brucella ovis*, 22 (1990) 329

***Brucella* spp.**

Restriction endonuclease analysis of *Brucella ovis* and other *Brucella* species, 10 (1985) 425

Use of hydrophobic cloths as antibody adsorbents for enzyme immunoassay: detection of *Brucella* antigens, 20 (1989) 155

Diagnosis of bovine brucellosis by enzyme immunoassay of milk, 24 (1990) 73

Buffalo

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

Cache Valley virus

Isolations of Cache Valley virus in Texas, 1981, 13 (1987) 11

Evidence that Cache Valley virus induces congenital malformations in sheep, 21 (1989) 297

Calf diarrhoea coronavirus

Physico-chemical properties of calf diarrhoea coronavirus, 2 (1977) 73

Hemagglutination by calf diarrhea coronavirus, 2 (1977) 83

Campylobacter fetus

Experimental infections with *Campylobacter fetus* in bulls of different ages, 2 (1977) 13

An examination of *Campylobacter fetus* subsp. *fetus* by restriction endonuclease analysis and serology, 14 (1987) 53

Campylobacter mucosalis

Infection of established cell lines with *Campylobacter mucosalis*, 17 (1988) 179

***Campylobacter* spp.**

Demonstration of a new intracellular antigen in porcine intestinal adenomatosis and hamster proliferative ileitis, 10 (1985) 303

Lectin agglutination of thermophilic *Campylobacter* species, 15 (1987) 163

Possible relationship of proliferative enteritis in pigs and hamsters, 15 (1987) 293

Species-specific DNA probes for *Campylobacter* species isolated from pigs with proliferative enteritis, 24 (1990) 367

Campylobacter sputorum

The experimental infection of neonatal pigs with *Campylobacter sputorum* subspecies *mucosalis* with special reference to the oral cavity, 5 (1980) 249

Canine adenovirus 1

Monoclonal antibodies to canine adenoviruses 1 and 2 that are type-specific by virus neutralization and immunofluorescence, 16 (1988) 1

Canine coronavirus

Differentiation of canine coronavirus and porcine transmissible gastroenteritis virus by neutralization with canine, porcine and feline sera, 5 (1980) 283

Canine distemper virus

Natural infection with canine distemper virus in a Japanese monkey (*Macaca fuscata*), 20 (1989) 193

Pathological findings indicative of distemper in European seals, 23 (1990) 331

Mass mortality in seals caused by a newly discovered virus-like morbillivirus, 23 (1990) 343

Canine parvovirus

Canine parvovirus infections in a colony of dogs, 7 (1982) 317

Comparison of the viral proteins of canine parvovirus-2, mink enteritis virus and feline panleukopenia virus, 8 (1983) 423

An improved hemagglutination test for study of canine parvovirus, 12 (1986) 1

Repeated suppression of lymphocyte blastogenesis following vaccinations of CPV-immune dogs with modified-live CPV vaccines, 12 (1986) 201

A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples, 15 (1987) 1

Characterization of biological and antigenic properties of raccoon dog and blue fox parvoviruses: a monoclonal antibody study, 16 (1988) 219

Caprine arthritis-encephalitis virus

Caprine arthritis-encephalitis (CAE) and maedi–visna viruses detected by the polymerase chain reaction (PCR), 23 (1990) 329

Caprine syncytial retrovirus

Preparation and evaluation of antigens used in serological tests for caprine syncytial retrovirus antibody in sheep and goat sera, 9 (1984) 581

Carrageenan

Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae*, 15 (1987) 341

Cat

Tyzzer's disease in cats experimentally infected with feline leukaemia virus, 2 (1977) 49

Cross-protection studies between feline infectious peritonitis and porcine transmissible gastroenteritis viruses, 4 (1979) 11

Differentiation of canine coronavirus and porcine transmissible gastroenteritis virus by neutralization with canine, porcine and feline sera, 5 (1980) 283

Studies of enteric coronaviruses in a feline cell line, 7 (1982) 427

Isolation and characterisation of bacteria from pyothorax (empyaemia) in cats, 7 (1982) 455

Identification and characterization of staphylococci isolated from cats, 9 (1984) 279

Recovery of viral agents from the central nervous system of cats, 9 (1984) 355

Variable sensitivity of a feline embryo cell line and of three kitten kidney cell cultures to feline herpes- and caliciviruses, 11 (1986) 173

Latent infection with feline syncytial virus of cell cultures prepared from the kidneys of newborn kittens, 16 (1988) 9

Feline panleucopenia—in vivo infectivity studies, 16 (1988) 137

Clinical and immunologic aspects of FeLV-induced immunosuppression, 17 (1988) 287

The sites of early viral replication in feline infectious peritonitis, 18 (1988) 259

Bacteroides species from the oral cavity and oral-associated disease of cats, 19 (1989) 275

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Feline retroviruses: a brief review, 23 (1990) 131

Catalase activity

Decrease in catalase activity of cultured cells by *Mycoplasma gallisepticum* infection, 13 (1987) 343

Cattle—*Acholeplasma laidlawaii*

Prevalence of *Mycoplasma* and *Chlamydia* in the basal flora of dairy calves, 7 (1982) 351

Cattle—Akabane virus

Appearance of slow-reacting and complement-requiring neutralizing antibody in

cattle infected with Akabane virus, 14 (1987) 183

Detection of antibodies against Akabane virus in bovine sera by enzyme-linked immunosorbent assay, 20 (1989) 275

Cattle—*Anaplasma marginale*

Comparison of rapid card agglutination test with the complement fixation test for diagnosis of *Anaplasma marginale* infection in cattle in Colombia, 2 (1977) 167

Comparison of a DNA probe, complement-fixation and indirect immunofluorescence tests for diagnosing *Anaplasma marginale* in suspected carrier cattle, 24 (1990) 381

Cattle—arbovirus, general

Arboviruses recovered from sentinel cattle using several virus isolation methods, 18 (1988) 119

Investigations of bluetongue and other arboviruses in the blood and semen of naturally infected bulls, 20 (1989) 315

Cattle—arthropod-borne viruses, general

A survey of antibodies to arthropod-borne viruses in Japanese cattle, 5 (1980) 277

Cattle—*Bacteroides nodosus*

Characteristics of *Bacteroides nodosus* isolated from cattle, 3 (1978/1979) 269

Cattle—bluetongue virus

Serological studies of two additional Australian bluetongue virus isolates CSIRO 154 and CSIRO 156, 6 (1981) 233

Recovery of dual serotypes of bluetongue virus from infected sheep and cattle, 7 (1982) 197

Serological studies of Australian and Papua New Guinean cattle and Australian sheep for the presence of antibodies against bluetongue group viruses, 8 (1983) 147

Genetic reassortment of bluetongue virus Serotype 11 strains in the bovine, 15 (1987) 11

Comparison of virologic and serologic responses of lambs and calves infected with bluetongue virus Serotype 10, 18 (1988) 233

Cattle—bovine adenovirus

Cultivation of bovine adenovirus type 3 in tracheal organ cultures, 3 (1978) 3

Studies on the cytopathology of bovine adenoviruses in calf testis and calf kidney cell cultures, 3 (1978/1979) 241

Serological studies of parainfluenza type 3 virus, bovine adenovirus type 3 and bovine respiratory syncytial virus infection in beef calves, 9 (1984) 587

Cattle—bovine astrovirus

Cultivation and partial characterization of bovine astrovirus, 19 (1989) 113

Cattle—bovine coronavirus

Replication of a bovine coronavirus in organ cultures of foetal trachea, 1 (1976) 65

Detection of coronavirus in calf faeces with a haemadsorption-elution-haemagglutination assay (HEHA), 3 (1978/1979) 205

Epizootic diarrhoea of adult cattle associated with a coronavirus-like agent, 5 (1980) 151

Properties of a coronavirus isolated from a cow with epizootic diarrhea, 5 (1980) 265

Coronavirus infection of the bovine respiratory tract, 9 (1984) 425

Development of protein A—gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells, 19 (1989) 217

A longitudinal study of bovine coronavirus enteric and respiratory infections in dairy calves in two herds in Ohio, 22 (1990) 187

Cattle—bovine enterovirus

Blocking enzyme-linked immunosorbent assay for detection of antibodies against bovine enterovirus, 21 (1989) 275

Cattle—bovine ephemeral fever virus

An experimental inactivated virus vaccine against bovine ephemeral fever. 1. Studies of the virus, 4 (1979) 183

An experimental inactivated virus vaccine against bovine ephemeral fever. 2. Do neutralizing antibodies protect against infection?, 4 (1979) 197

The isolation and preliminary characterization of a rhabdovirus in Australia related to bovine ephemeral fever virus, 8 (1983) 221

Transmission of virus from serosal fluids and demonstration of antigen in neutrophils and mesothelial cells of cattle infected with bovine ephemeral fever virus, 10 (1984/1985) 199

Studies on the pathogenesis of bovine ephemeral fever in sentinel cattle. I. Virology and serology, 10 (1985) 493

Studies on the pathogenesis of bovine ephemeral fever in sentinel cattle. II. Haematological and biochemical data, 10 (1985) 505

Homologous and heterologous antibody reactions in sera from cattle naturally infected with bovine ephemeral fever group viruses, 13 (1987) 1

The effect of anti-inflammatory agents on the clinical expression of bovine ephemeral fever, 19 (1989) 99

Cattle—bovine herpesvirus

Isolation of bovine Herpesvirus III from diarrheic feces, 3 (1978/1979) 199

Effects of some components of the humoral immune response on the replication of bovine herpesvirus type I in tracheal organ cultures, 6 (1981) 129

Effect of lymphocytes and broncho-alveolar washing cells on the replication of bovine herpesvirus type 1 in tracheal organ cultures, 7 (1982) 241

Experimental infection of rabbits with bovine herpesvirus-4: acute and persistent infection, 7 (1982) 503

Production of interferon by bovine peripheral blood monocytes infected with bovid herpesvirus 2, 8 (1983) 69

Attempted reactivation of latent bovine herpesvirus 1 infection in calves by infection with ruminant pestiviruses, 8 (1983) 563

The DNA of an IPV strain of bovid herpesvirus 1 in sacral ganglia during latency after intravaginal infection, 9 (1984) 53

The effect of some common inactivation procedures on the antigens of bovine herpesvirus 1, 9 (1984) 313

A single dilution enzyme-linked immunosorbent assay for the quantitative detection of antibodies to bovine herpesvirus type 1, 10 (1984/1985) 133

Detection of antibodies to bovid herpesvirus 4 by ELISA, 10 (1984/1985) 149

Ovarian lesions in heifers exposed to infectious bovine rhinotracheitis virus by nongenital routes on the day after breeding, 10 (1984/1985) 155

Excretion and reexcretion of thermosensitive and wild-type strains of infectious bovine rhinotracheitis virus after co-infection or two successive infections, 10 (1985) 371

Hemagglutinating activity associated with bovine herpesvirus type 1, 10 (1985) 517

Development of specific antibodies mediating antibody-dependent cell-mediated cytotoxity following experimental infection of cattle with bovine herpesvirus 1 and subsequent viral reactivation, 11 (1986) 51

Identification of bovine herpesvirus-1 polypeptides involved in serum neutralization, 11 (1986) 213

Highly sensitive antigen detection procedures for the diagnosis of infectious bovine rhinotracheitis: amplified ELISA and reverse passive haemagglutination, 13 (1987) 135

Evaluation of an antigen-capture ELISA for the detection of bovine herpesvirus Type 1 shedding from feedlot cattle, 16 (1988) 101

Identification of major antigenic proteins of bovine herpesvirus 1 and their correlation with virus neutralizing activity, 16 (1988) 109

Biological and biochemical comparison of bovid herpesvirus-4 strains, 16 (1988) 339

Production and characterization of monoclonal antibodies to bovid herpesvirus-4, 19 (1989) 305

Experimental infection of bulls with a genital isolate of bovine herpesvirus-4 and reactivation of latent virus with dexamethasone, 21 (1989) 97

Cattle—bovine leukemia virus

Special Issue "Virology, Diagnostic Procedures, Epizootiology and Transmission of Bovine Leucosis", 1 (1976) 93–411

A microculture syncytia assay for bovine leukemia virus, 3 (1978) 77

Antibody titers in cattle clinically and subclinically infected with bovine leukemia virus, 6 (1981) 167

Enzootic bovine leukosis: preparation of an antigen for the agar gel immunodiffusion test and statistical comparison with other antigens, 6 (1981) 247

Role of the spleen in the pathogenesis of experimentally induced bovine leukemia virus infection, 7 (1982) 411

Studies of foetuses from cows clinically affected with bovine leucosis, 8 (1983) 505

Suppression of natural cytotoxic activity of lymphocytes from cattle and sheep during the progress of bovine leukosis, 9 (1984) 105

An attempt to protect calves against experimental bovine leukosis using allografts, 10 (1984/1985) 231

Detection of antibodies to bovine leukemia virus in bovine milk samples with an ELISA involving two monoclonal antibodies, 18 (1988) 89

Bovine leukaemia proviral DNA detection in cattle using the polymerase chain reaction, 25 (1990) 117

Cattle—bovine parvovirus

Properties of an Australian isolate of bovine parvovirus type 1, 10 (1985) 335

Cattle—bovine respiratory syncytial virus

Serological studies of parainfluenza type 3 virus, bovine adenovirus type 3 and bovine respiratory syncytial virus infection in beef calves, 9 (1984) 587

Differences in fluorescent antibody staining of bovine respiratory syncytial virus-infected cells by ovine and bovine sera, 13 (1987) 87

Cattle—bovine retrovirus

Serological detection of multiple retroviral infections in cattle: bovine leukemia virus, bovine syncytial virus and bovine visna virus, 20 (1989) 247

Cattle—bovine rotavirus

Bovine rotavirus diagnosis: comparison of various antigens and serological tests, 3 (1978) 115

Detection of rotavirus infection by immunodiffusion, 6 (1981) 31

Neutralizing anitbody to bovine rotavirus in various animal species, 6 (1981) 259

Comparison of bovine rotavirus strains by plaque assay, 6 (1981) 379

Primary isolation of cytopathic bovine rotaviruses on fetal rhesus monkey kidney cells, 8 (1983) 135

Sequential isolation of rotavirus from individual calves, 11 (1986) 177

Prolonged excretion and failure of cross-protection between distinct serotypes of bovine rotavirus, 12 (1986) 7

Comparison by plaque assay of bovine rotavirus and a bovine enterovirus-like agent, 12 (1986) 189

A comparison of three rapid diagnositc methods for the detection of rotavirus infection in calves, 13 (1987) 19

Influence of immunomodulatory agents on bovine humoral and cellular immune responses to parenteral inoculation with bovine rotavirus vaccines, 17 (1988) 323

Prevalence of antibodies to four bovine rotavirus strains in different age groups of cattle, 25 (1990) 143

Cattle—bovine spongiform encephalopathy

Bovine spongiform encephalopathy: detection and quantitation of fibrils, fibril protein (PeP) and vacuolation in brain, 23 (1990) 295

Cattle—bovine spumavirus

Epidemiological studies of bovine spumavirus, 16 (1988) 25

Detection of immunological tolerance to bovine spumavirus (BSV) with evidence for salivary excretion and spread of BSV from the tolerant animal, 16 (1988) 35

Cattle—bovine viral diarrhoea-mucosal disease virus

Pathogenesis of bovine viral diarrhoea-mucosal disease (BVD-MD) virus infection in tracheal organ cultures, 5 (1980) 257

Cattle—bovine viral diarrhoea virus

Attempted reactivation of latent bovine herpesvirus 1 infection in calves by infection with ruminant pestiviruses, 8 (1983) 563

Enzyme-linked immunosorbent assay for the detection of antibodies to bovine viral diarrhea virus in bovine sera, 10 (1985) 325

Comparison by the neutralisation assay of pairs of non-cytopathogenic and cytopathogenic strains of bovine virus diarrhoea virus isolated from cases of mucosal disease, 13 (1987) 361

Transmission of bovine virus diarrhoea virus (BVDV) by artificial insemination (AI) with semen from a persistently-infected bull, 17 (1988) 97

Serological characterization of viruses isolated from experimental mucosal disease, 19 (1989) 13

An enzyme-linked immunosorbent assay (ELISA) for antibodies to bovine viral diarrhea virus, 22 (1990) 1

In vitro production of antibodies to bovine virus diarrhoea virus by peripheral blood mononuclear cells from cattle immunized by infection, 22 (1990) 161

Immunohistological detection of bovine viral diarrhoea virus antigen in the central nervous system of persistently infected cattle using monoclonal antibodies, 23 (1990) 203

Pathogenesis of mucosal disease and molecular aspects of bovine virus diarrhoea virus, 23 (1990) 371

Detection of bovine viral diarrhea virus in serum from cattle by dot blot hybridization assay, 24 (1990) 297

Cattle—Breda virus

Studies on bovine Breda virus, 15 (1987) 261

Seroepidemiology of Breda virus in cattle using ELISA, 19 (1989) 233

Cattle—*Brucella abortus*

Agglutination of *Brucella abortus* cells by sera from cattle experimentally infected with *Escherichia coli*, 5 (1980) 123

Studies on the use of *Yersinia enterocolitica* 09 antigens in rapid quantitative plate tests for the differentiation of Brucella and Yersinia infections in cattle and the diagnosis of bovine brucellosis, 5 (1980) 323

Serological response of cattle after vaccination and challenge with *Brucella abortus*, 7 (1982) 165

The anamnestic response to *Brucella abortus*-infected and vaccinated cattle, 8 (1983) 405

Analysis and in vivo assay of *B. abortus* agglutinating and non-agglutinating antibodies, 9 (1984) 391

A comparative study of ELISA and other methods for the detection of *Brucella* antibodies in bovine sera, 10 (1984/1985) 13

Evaluation of the enzyme-linked immunosorbent assay in the detection of cattle infected with *Brucella abortus*, 10 (1984/1985) 23

Effects of challenge dose on the clinical and immune responses of cattle vaccinated with reduced doses of *Brucella abortus* strain 19, 10 (1985) 561

Production of *Brucella abortus*-specific Protein A-reactive antibodies (IgG_2) in infected and vaccinated cattle, 12 (1986) 43

Comparison of an enzyme-linked immunosorbent assay using monoclonal antibodies and a complement fixation test for cattle vaccinated and infected with *Brucella abortus*, 12 (1986) 55

Role of milk immunoglobulins in the *Brucella* milk ring test, 12 (1986) 359

Kinetic analysis of cattle anti-*Brucella abortus* S45/20 non-agglutinating antibodies in antibody-dependent cell-mediated cytotoxicity, 13 (1987) 273

Effect of bovine non-agglutinating antibodies on the blood clearance of ^{131}I-labelled *Brucella abortus* strain 45/20, 15 (1987) 121

Vaccination of cattle with chemically modified and unmodified salt-extractable proteins from *Brucella abortus*, 15 (1987) 325

An evaluation of the delayed-type hypersensitivity test for diagnosing brucellosis in individual cattle: a field study, 22 (1990) 241

Cattle—*Brucella* sp.

Diagnosis of bovine brucellosis by enzyme immunoassay of milk, 24 (1990) 73

Cattle—Cache Valley virus

Isolations of Cache Valley virus in Texas, 1981, 13 (1987) 11

Cattle—calf diarrhoea coronavirus

Physico-chemical properties of calf diarrhoea coronavirus, 2 (1977) 73

Hemagglutination by calf diarrhea coronavirus, 2 (1977) 83

Cattle—*Campylobacter fetus*

Experimental infections with *Campylobacter fetus* in bulls of different ages, 2 (1977) 13

Cattle—*Clostridium perfringens*

Toxin-types of *Clostridium perfringens* strains isolated from sheep, cattle and paddock soils in Nigeria, 12 (1986) 93

Cattle—coronavirus, general

Isolation of coronaviruses from neonatal calf diarrhoea in Great Britain and Denmark, 3 (1978) 101

Cattle—*Corynebacterium* spp.

Quantitation of antibodies to *Corynebacterium pyogenes* in sera from cows. Methods and applications, 4 (1979) 235

Adhesion of *Corynebacterium renale* and *Corynebacterium pilosum* to the epithelial cells of various parts of the bovine urinary tract from the renal pelvis to vulva, 10 (1984/1985) 287

Cattle—*Escherichia coli*

The role of lysozyme in killing and lysis of coliform bacteria in the bovine animal. 1. Serum and milk concentrations of lysozyme and susceptibility of coliform strains to its action, 4 (1979) 61

The role of lysozyme in killing and lysis of coliform bacteria in the bovine animal. 2. Effect of absorbing serum with bentonite or bacteria, 4 (1979) 73

Agglutination of *Brucella abortus* cells by sera from cattle experimentally infected with *Escherichia coli*, 5 (1980) 123

Intestinal changes associated with rotavirus and enterotoxigenic *Escherichia coli* infection in calves, 8 (1983) 35

An examination of *Escherichia coli* strains isolated from cases of bovine mastitis for possible virulence determinants, 8 (1983) 141

The opsonic activity of bovine milk whey for the phagocytosis and killing by neutrophils of encapsulated and non-encapsulated *Escherichia coli*, 8 (1983) 293

Isolation and characterization of the heat stable enterotoxin from a pathogenic bovine strain of *Escherichia coli*, 9 (1984) 399

Bacteriostasis of *Escherichia coli* by bovine lactoferrin, transferrin and immunoglobulins (IgG1, IgG2, IgM) acting alone or in combination, 11 (1986) 103

Septicaemic *Escherichia coli* and experimental infection of calves, 12 (1986) 109

Dysentery in calves caused by an atypical strain of *Escherichia coli* (S102-9), 12 (1986) 241

Bacteriostatic activity of bovine lactoferrin in mastitic milk, 13 (1987) 159

Cross-reactive antibody in immunity to colisepticemia in calves, 13 (1987) 259

Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions, 15 (1987) 129

Cytotoxins in non-enterotoxigenic strains of *Escherichia coli* isolated from feces of diarrheic calves, 15 (1987) 137

Adhesion of *Staphylococcus aureus* and *Escherichia coli* to bovine udder epithelial cells, 16 (1988) 77

Production of toxins by *Escherichia* coli strains isolated from calves with diarrhoea in Galicia (North-western Spain), 18 (1988) 297

The virulence characteristics of strains of *Escherichia coli* isolated from cases of bovine

mastitis in England and Wales, 20 (1989) 35

Effects of endotoxin infusion on circulating levels of eicosanoids, progesterone, cortisol, glucose and lactic acid, and abortion in pregnant cows, 21 (1989) 211

DNA probes for the detection of toxin genes in *Escherichia coli* isolated from diarrhoeal disease in cattle and pigs, 22 (1990) 277

Cattle—foot-and-mouth disease virus

Single dilution ELISA for detection of serum antibody to foot-and-mouse disease virus in cattle, 18 (1988) 273

Evaluation of techniques to demonstrate foot-and-mouth disease virus in bovine tongue epithelium: comparison of the sensitivity of cattle, mice, primary cell cultures, cryopreserved cell cultures and established cell lines, 20 (1989) 99

Cattle—general

Measurement of immunoglobulins in reproductive tract fluids of bulls, 2 (1977) 1

Cattle—*Haemophilus somnus*

Haemophilus somnus–induced interference with bovine neutrophil functions, 12 (1986) 77

Cattle—herpesvirus, general

Cross-reactions of bovine herpesvirus 1 antigens with those of other cattle herpesviruses, 9 (1984) 329

Cattle—Ibaraki virus

Antigenic relationship of Ibaraki, bluetongue, and epizootic hemorrhagic disease viruses, 3 (1978) 15

Cattle—infectious bovine rhinotracheitis virus

Effect of repeated treatment with dexamethasone on the re-excretion pattern of infectious bovine rhinotracheitis virus and humoral immune response, 4 (1979) 149

Comparison between strains of infectious bovine rhinotracheitis virus (*Bovid herpesvirus 1*), from respiratory and genital origins, using polyacrylamide gel electrophoresis of structural proteins, 5 (1980) 187

A comparison of the virulence of three strains of infectious bovine rhinotracheitis virus, 8 (1983) 129

Cattle—*Legionella pneumophila*

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

Cattle—*Leptospira interrogans*

Experimental infection with a *Leptospira hardjo* strain isolated from cattle of the eastern plains of Colombia, 7 (1982) 545

Bovine IgM and IgG response to *Leptospira interrogans* serovar *hardjo* as measured by enzyme immunoassay, 7 (1982) 577

The use of enzyme-linked immunosorbent assay (ELISA) to detect the IgM and IgG antibody response to *Leptospira interrogans* serovars *hardjo*, *pomona* and *tarassovi* in cattle, 10 (1985) 439

Bovine leptospirosis: experimental serovar *hardjo* infection, 11 (1986) 293

Evaluation of an ELISA for the diagnosis of experimentally induced and naturally occurring *Leptospira hardjo* infections in cattle, 21 (1989) 255

Cattle—malignant catarrhal fever virus

The development of antibodies in rabbits and cattle infected experimentally with an African strain of malignant catarrhal fever virus, 2 (1977) 57

Immune complexes associated with infection of cattle by the herpesvirus of malignant catarrhal fever, 7 (1982) 335

Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus), 19 (1989) 205

Cattle—mastitis bacteria, general

Heifer mastitis and dry-cow mastitis: a bacteriological survey in Sweden, 3 (1978/1979) 213

IgG antibody response to *Corynebacterium pyogenes*, *Peptococcus indolicus* and microaerophilic cocci in natural and experimental mastitis, 5 (1980) 19

Bacteriostatic activity of bovine milk lactoferrin against mastitic bacteria, 11 (1986) 387

Evaluation of a rapid inoculum standardization system for antimicrobial susceptibility testing of bacterial isolates from the bovine mammary gland, 12 (1986) 269

The detection of obligate anaerobic bacteria in udder secretions of dry cattle with mastitis during summer: a comparison between gas–liquid chromatography and bacteriological culturing methods, 14 (1987) 173

Etiological agents of bovine mastitis, 16 (1988) 41

Teat skin normal flora and colonization with mastitis pathogen inhibitors, 17 (1988) 357

Endotoxin levels in milk and plasma of mastitis-affected cows measured with a chromogenic limulus test, 20 (1989) 267

Bacterial growth in mastitic whey in relation to bacterial association with mastitis, 21 (1989) 155

Summer mastitis in heifers: a bacteriological examination of secretions from clinical cases of summer mastitis in Denmark, 22 (1990) 319

Cattle—*Mycobacterium* spp.

Comparison of fluorescent antibody tests for tuberculosis and paratuberculosis with antigens coupled to insoluble spheres or taken up by macrophages, 2 (1977) 39

Development of a whole blood lymphocyte stimulation assay for detecting hypersensitivity to PPD in cattle experimentally infected with *Mycobacterium bovis*, 2 (1977) 261

Onset, kinetics and duration of in vivo and in vitro delayed hypersensitivity responses of neonatal calves sensitized with mycobacterial components, 4 (1979) 169

Mycobacterium bovis infection in the brushtailed possum (*Trichosurus vulpecula*): II. Comparison of experimental infections with an Australian cattle strain and a New Zealand possum strain, 6 (1981) 351

Antibodies to mycobacteria in cattle not infected with *Mycobacterium bovis*, 18 (1988) 51

An evaluation of 1-hexadecylpyridinium chloride as a decontaminant in the primary isolation of *Mycobacterium bovis* from bovine lesions, 18 (1988) 127

Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture, 19 (1989) 183

The specificity of antibody response in experimental and natural bovine paratuberculosis studied by crossed immunoelectrophoresis with intermediate gel, 21 (1989) 67

The sensitivity and specificity of a modified ELISA for the diagnosis of Johne's disease from a field trial in cattle, 25 (1990) 193

Cattle—*Mycoplasma* spp.

Induction of immunity in calves to *Mycoplasma bovis* infection of the respiratory tract, 2 (1977) 29

Immunologic and pathologic response of cows to naturally occurring *Mycoplasma bovis* mastitis, 2 (1977) 325

Bovine mycoplasma mastitis from intramammary inoculation of small numbers of *Mycoplasma bovis*. I. Microbiology and pathology, 2 (1977) 341

Immunoprophylaxis of experimental *Mycoplasma bovis* arthritis in calves. Protective efficacy of live organisms and formalinized vaccines, 5 (1980) 113

Changes in plasma fibrinogen levels in experimental *Mycoplasma bovis* arthritis in calves, 5 (1980) 215

Prevalence of *Mycoplasma* and *Chlamydia* in the basal flora of dairy calves, 7 (1982) 351

Immune response of calves following the inoculation of *Mycoplasma dispar* and *Mycoplasma bovis*, 8 (1983) 45

Identification of Mycoplasmatales in pneumonic calf lungs, 11 (1986) 79

Antibody response in calves experimentally or naturally exposed to *Mycoplasma bovoculi*, 11 (1986) 93

The effect of *Mycoplasma bovis* on fertilization processes in vitro with bull spermatozoa and zona-free hamster oocytes, 21 (1989) 329

Cattle—parainfluenza virus

Serological studies of parainfluenza type 3 virus, bovine adenovirus type 3 and bovine respiratory syncytial virus infection in beef calves, 9 (1984) 587

Cattle—parapox virus

A parapoxvirus isolated from nasal secretion of a calf with respiratory disease, 4 (1979) 85

Cattle—parvovirus, general

Unusual characteristics of a parvovirus isolated from a clinically ill steer, 11 (1986) 61

Cattle—*Pasteurella haemolytica*

Susceptibility of *Pasteurella haemolytica* to the bactericidal effects of serum, nasal secretions and bronchoalveolar washings from cattle, 8 (1983) 585

Isolation of *Pasteurella haemolytica* and correlation with serum antibody response in clinically normal beef calves, 8 (1983) 601

Pasteurella haemolytica cytotoxin: relative susceptibility of bovine leucocytes, 13 (1987) 321

The immune response to experimental *Pasteurella haemolytica* infection in calves, 14 (1987) 75

Effects of smooth and rough *Pasteurella haemolytica* lipopolysaccharides on plasma cyclic-nucleotides and free fatty acids in calves, 15 (1987) 279

Comparing different isolates of *Pasteurella haemolytica* from beef calves using their in vitro antimicrobial sensitivity patterns, 20 (1989) 73

Cattle—*Pasteurella multocida*

Efficacy of a live *Pasteurella multocida* vaccine for the prevention of experimentally induced bovine pneumonia pasteurellosis, 21 (1989) 147

Cattle—*Peptococcus indolicus*

Antigenic analysis of *Peptococcus indolicus* by crossed immunoelectrophoresis, 5 (1980) 35

Crossed immunoelectrophoretic analysis of the antibody response in heifers and dry cows to *Peptococcus indolicus* in experimental and natural heifer mastitis and dry cow mastitis, 5 (1980) 57

Cattle—polyomavirus, general

The isolation of a virus resembling a polyomavirus from normal calves, 15 (1987) 175

Cattle—*Prototheca zopfii*

Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk, 15 (1987) 315

Cattle—respiratory disease viruses, general

Enzyme linked immunosorbent assay used to monitor serum antibodies to bovine respiratory disease viruses, 11 (1986) 309

Cattle—rhabdovirus, general

The isolation and preliminary characterization of a rhabdovirus in Australia related to bovine ephemeral fever virus, 8 (1983) 221

Hemagglutination with rhabdoviruses related to bovine ephemeral fever virus, 11 (1986) 1

Cattle—rinderpest virus

Antibody response of cattle to rinderpest vaccine, 10 (1984/1985) 189

The serological response to a thermostable Vero cell-adapted rinderpest vaccine under field conditions in Niger, 22 (1990) 119

Cattle—rotavirus, general

Interaction of rotavirus and enterotoxigenic *Escherichia coli* in conventionally-reared dairy calves, 7 (1982) 51

Characterisation of rotavirus isolates from sub-clinically infected calves by genome profile analysis, 13 (1987) 27

Cattle—*Salmonella* spp.

Diffusion in gel-enzyme linked immunosorbent assay (DIG-ELISA) to record the immunoglobulin response of calves vaccinated with *Salmonella*, 10 (1984/1985) 71

Chemiluminescence of bovine alveolar macrophages as an indicator of developing immunity in calves vaccinated with aromatic-dependent *Salmonella*, 10 (1985) 451

The detection of salmonella infection in calves by the fluorescent antibody test, 19 (1989) 85

Cattle—*Staphylococcus* spp.

A comparison of the STAPH-Ident and STAPH-Trac systems to conventional methods in the identification of staphylococci isolated from bovine udders, 12 (1986) 179

The expression of capsule in serum-soft agar by *Staphylococcus aureus* isolated from bovine mastitis, 13 (1987) 225

Reinfection of bovine mammary glands following dry-cow antibiotic therapy, 15 (1987) 191

Interaction of sub-epithelial connective tissue components with *Staphylococcus aureus* and coagulase-negative staphylococci from bovine mastitis, 18 (1988) 163

Cattle—stomatitis papulosa virus

Comparisons between two isolates of stomatitis papulosa virus, 7 (1982) 109

Cattle—*Streptococcus agalactiae*

Ingestion and killing of *Streptococcus agalactiae* by bovine granulocytes in the presence of natural opsonins, 18 (1988) 41

Cattle—*Streptococcus* spp.

Group G type X: a new antigen combination in streptococci isolated from cases of bovine mastitis in Israel, 6 (1981) 383

A case study of *Streptococcus* group G infection in a dairy herd, 9 (1984) 571

Cattle—*Ureaplasma* spp.

Identification of Mycoplasmatales in pneumonic calf lungs, 11 (1986) 79

Cattle—*Yersinia* spp.

Studies on the use of *Yersinia enterocolitica* 09 antigens in rapid quantitative plate tests for the differentiation of Brucella and Yersinia infections in cattle and the diagnosis of bovine brucellosis, 5 (1980) 323

Significance of milk as a possible source of infection for human yersiniosis. I. Incidence of *Yersinia* organisms in raw milk in Shimane Prefecture, Japan, 9 (1984) 139

Suppression of heat-stable enterotoxin production by *Yersinia* spp. in milk, 11 (1986) 163

The sensitivity to antimicrobial agents of species of *Yersinia* isolated from cattle and pigs in Nigeria, 12 (1986) 383

Cell-surface hydrophobicity

Enterotoxigenicity, hemagglutination and cell-surface hydrophobicity in *Aeromonas hydrophila*, *A. sobria* and *A. salmonicida*, 8 (1983) 17

Central nervous system

Recovery of viral agents from the central nervous system of cats, 9 (1984) 355

Immunohistological detection of bovine viral diarrhoea virus antigen in the central nervous system of persistently infected cattle using monoclonal antibodies, 23 (1990) 203

Bovine spongiform encephalopathy: detection and quantitation of fibrils, fibril protein (PeP) and vacuolation in brain, 23 (1990) 295

Cephalosporin

A case study of *Streptococcus* group G infection in a dairy herd, 9 (1984) 571

Chicken

Local immunity in the respiratory tract of the chicken. II. The secretory immune response to Newcastle disease virus and the role of IgA, 2 (1977) 143

Some properties of lentogenic Australian Newcastle disease virus, 3 (1978) 129

Percloacal infection of chickens with *Salmonella typhimurium*, 3 (1978) 155

Infection of the chicken with a virulent or avirulent strain of *Mycoplasma gallisepticum* alone and together with Newcastle disease virus or *E. coli* or both, 4 (1979) 35

Relationships of influenza A viruses with avian subtype 1 hemagglutinin including the fowl plague viruses, 4 (1979) 101

The pathogenicity of three Australian fowl plague viruses for chickens, turkeys and ducks, 4 (1979) 223

Physico-chemical and morphological characteristics of avian encephalomyelitis virus, 5 (1980) 87

Further characterization of *Haemophilus paragallinarum* and *Haemophilus avium*, 7 (1982) 359

Humoral and cell-mediated immune responses in chickens with infectious bursal disease, 7 (1982) 383

Staphylococcus aureus isolated from poultry in Australia. I. Phage typing and cultural characteristics, 7 (1982) 471

Staphylococcus aureus isolated from poultry in Australia. II. Epidemiology of strains associated with tenosynovitis, 7 (1982) 485

Lysogeny and other characteristics of *Staphylococcus hyicus* isolated from chickens, 8 (1983) 411

Pathogenicity of Australian isolates of *Haemophilus paragallinarum* and *Haemophilus avium* in chickens, 9 (1984) 77

Influence of reticuloendotheliosis virus on the severity of *Eimeria tenella* infection in broiler chickens, 9 (1984) 121

Resistance of chickens immunized against *Mycoplasma gallisepticum* is mediated by bursal dependent lymphoid cells, 9 (1984) 509

Clinical effects, virological and serological responses in chickens following in-ovo oculation of reticuloendotheliosis virus, 14 (1987) 411

Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens, 15 (1987) 31

Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection, 15 (1987) 41

The non-specific stimulation of avian peripheral blood lymphocytes from uninfected chickens by paramyxoviruses and influenza viruses, 16 (1988) 181

Serological response of chickens to oral vaccination with Newcastle disease virus, 16 (1988) 255

The effect of halofuginone on the excretion of *Salmonella typhimurium* by experimentally infected chickens, 17 (1988) 59

Intracerebral pathogenicity for chickens of avian influenza viruses isolated from free-living waterfowl in Japan, 18 (1988) 357

Influence of thymic hormone on cell-mediated and humoral immune response in Marek's disease, 19 (1989) 53

The role of the reticuloendothelial system in the immunopathology of Marek's disease, 20 (1989) 223

DNA probes for *Mycoplasma gallisepticum* and *Mycoplasma synoviae*: application in experimentally infected chickens, 20 (1989) 323

Antimicrobial resistance of *Escherichia coli* isolated from chickens, 21 (1989) 189

Susceptibility of laboratory animals to experimental infection with Ife virus, 22 (1990) 11

Avian paramyxoviridae—recent developments, 23 (1990) 103

Expression of fowl adenovirus type 10 antigens in *Escherichia coli*, 24 (1990) 105

The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting, 24 (1990) 155

Chimpanzee

Serological evidence of transmission of bovine leukemia virus to chimpanzees, 1 (1976)

351

Chlamydia psittaci

Efficacy of a bacterin prepared from *Chlamydia psittaci* grown in cell culture for experimental immunization of ewes, 7 (1982) 493

Rapid detection of *Chlamydia psittaci* in vaginal swabs of aborted ewes and goats by enzyme linked immunosorbent assay (ELISA), 11 (1986) 251

Comparison of the virulence in mice of some ovine isolates of *Chlamydia psittaci*, 12 (1986) 213

Comparison of some ovine *Chlamydia psittaci* isolates by indirect immunofluorescence, 13 (1987) 69

Analysis of caprine IgG1 and IgG2 subclass responses to *Chlamydia psittaci* infection and vaccination, 14 (1987) 125

Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination, 15 (1987) 57

Comparison of DNA-spot hybridization, cell culture and direct immunofluorescence staining for the diagnosis of avian chlamydiae, 18 (1988) 15

Relationship between virulence of *Chlamydia psittaci* strains and establishment of persistent infection of McCoy cells, 19 (1989) 65

Detection of *Chlamydia psittaci* in free-ranging koalas (*Phascolarctos cinereus*): DNA hybridization and immuno-slot blot analyses, 21 (1989) 21

A simple staining method for the identification of chlamydial elementary bodies in the fetal membranes of sheep affected by ovine enzootic abortion, 21 (1989) 233

Antibody response of the ovine lymph node to experimental infection with an ovine abortion strain of *Chlamydia psittaci*, 21 (1989) 345

Monoclonal antibodies to *Chlamydia psittaci* guinea pig inclusion conjunctivitis (GPIC) strain, 22 (1990) 43

Characterisation of *Chlamydia psittaci* isolated from a horse, 24 (1990) 11

Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies of *Chlamydia psittaci*, 24 (1990) 21

Immunity to *Chlamydia psittaci* with particular reference to sheep, 25 (1990) 87

Cholera anti-toxin

Hemagglutinating and hydrophobic surface properties of salmonellae producing enterotoxin neutralized by cholera anti-toxin, 8 (1983) 443

Clostridium chauvoei

An indirect hemagglutination test for the detection of antibodies to *Clostridium chauvoei*, 10 (1985) 315

Opsonic activity of anti-flagellar serum against *Clostridium chauvoei* by mouse polymorphonuclear leucocytes, 14 (1987) 81

Clostridium perfringens

Toxin-types of *Clostridium perfringens* strains isolated from sheep, cattle and paddock soils in Nigeria, 12 (1986) 93

Clostridium spiroforme

Infectious nature of *Clostridium spiroforme*-mediated rabbit enterotoxaemia, 9 (1984) 497

Cellular morphology of *Clostridium spiroforme*, 11 (1986) 191

Significance of *Clostridium spiroforme* in the enteritis-complex of commercial rabbits, 12 (1986) 25

Production of Iota toxin by *Clostridium spiroforme*: a requirement for divalent cations, 15 (1987) 115

Clostridium villosum

Isolation and characterisation of bacteria from pyothorax (empyaemia) in cats, 7 (1982) 455

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Colony morphology

Colony morphology of *Staphylococcus aureus* in serum-soft agar following in vivo and in vitro growth, 16 (1988) 87

Colony-stimulating factor

Effect of macrophage-specific colony-stimulating factor (CSF-1) on swine monocyte/macrophage susceptibility to in vitro infection by African swine fever virus, 25 (1990) 153

Colostrum

The influence of colostrum and milk on the development of lymphocytosis in the bovine, 1 (1976) 327

Inhibition of adhesion of *Escherichia coli* K88 antigen by mammary secretions of susceptible and resistant sows, 9 (1984) 477

Contagious ecthyma virus

Effect of passively-acquired antibodies and vaccination on the immune response to contagious ecthyma virus, 9 (1984) 515

Contagious equine metritis

Disinfection of the causative agent of contagious equine metritis by Nolvasan and Roccal II, 6 (1981) 59

Contagious equine metritis: experimental infection in the donkey, 10 (1984/1985) 259

Control measures—general

Attempt to eradicate leukosis from a dairy heard by slaughter of cattle with lymphocytosis. Report over a ten year period, 1 (1976) 301

Experiences of a voluntary programme for control of bovine leukosis in the beef breeds in Sweden, 1 (1976) 401

Action of EDTA-Tris and antimicrobial agent combinations on selected pathogenic bacteria, 8 (1983) 271

Maedi-visna control in sheep. II. Half-yearly serological testing with culling of positive ewes and progeny, 9 (1984) 445

Control measures—infectious bovine rhinotracheitis virus

Round table on infectious bovine rhinotracheitis/infectious pustular vulvovaginitis virus infection diagnosis and control, 23 (1990) 361

Eradication of infectious bovine rhinotracheitis in Switzerland: review and prospects, 23 (1990) 363

Coronavirus—general

Isolation of coronaviruses from neonatal calf diarrhoea in Great Britain and Denmark, 3 (1978) 101

The pathogenesis of an enteric infection in pigs, experimentally induced by the coronavirus-like agent, CV 777, 6 (1981) 157

Enzyme-linked immunosorbent assay for the detection of the coronavirus-like agent and its antibodies in pigs with porcine epidemic diarrhea, 7 (1982) 295

Studies of enteric coronaviruses in a feline cell line, 7 (1982) 427

Corticosterone

Enhancement of infectious bovine rhinotracheitis virus replication with corticosterone, 2 (1977) 109

Corynebacterium*—see also *Rhodococcus

Corynebacterium equi

Some problems associated with the identification of *Corynebacterium equi*, 6 (1981) 331

Corynebacterium pilosum

Adhesion of *Corynebacterium renale* and *Corynebacterium pilosum* to the epithelial cells of various parts of the bovine urinary tract from the renal pelvis to vulva, 10 (1984/1985) 287

Comparison of surface hydrophobicity of piliated and non-piliated clones of *Corynebacterium renale* and *Corynebacterium pilosum*, 14 (1987) 165

Corynebacterium pseudotuberculosis

Factors affecting the yield of viable cells of *Corynebacterium pseudotuberculosis* in a liquid medium, 11 (1986) 145

Corynebacterium pyogenes

Quantitation of antibodies to *Corynebacterium pyogenes* in sera from cows. Methods and applications, 4 (1979) 235

IgG antibody response to *Corynebacterium pyogenes*, *Peptococcus indolicus* and microaerophilic cocci in natural and experimental mastitis, 5 (1980) 19

Corynebacterium renale

Adhesion of *Corynebacterium renale* and *Corynebacterium pilosum* to the epithelial cells of various parts of the bovine urinary tract from the renal pelvis to vulva, 10 (1984/1985) 287

Comparison of surface hydrophobicity of piliated and non-piliated clones of *Corynebacterium renale* and *Corynebacterium pilosum*, 14 (1987) 165

***Corynebacterium* spp.**

Survival of *Corynebacterium renale*, *Corynebacterium pilosum* and *Corynebacterium cystitidis* in soil, 10 (1985) 381

Isolation and characterization of monoclonal antibodies against pili of *Corynebacterium renale* and *Corynebacterium pilosum*, 13 (1987) 75

Cowdria ruminantium

A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks, 19 (1989) 151

Serotypes in *Cowdria ruminantium* and their relationship with *Ehrlichia phagocytophila* determined by immunofluorescence, 21 (1989) 31

A differential lysis method for the isolation of *Cowdria ruminantium* DNA, 25 (1990) 39

Cross-protection

Cross-protection studies between feline infectious peritonitis and porcine transmissible gastroenteritis viruses, 4 (1979) 11

Culicoides brevitarsis

Isolation of Tibrogargan virus, a new Australian rhabdovirus, from *Culicoides brevitarsis*, 5 (1980) 301

Culicoides insignis

Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to Tibrogargan virus of Australia, 19 (1989) 141

Culicoides oxystoma

Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan, 15 (1987) 243

Isolation and preliminary characterization of an orbivirus of the Palyam serogroup from biting midge *Culicoides oxystoma* in Japan, 19 (1989) 1

***Culicoides* spp.**

The vector potential of British *Culicoides* species for bluetongue virus, 17 (1988) 1

Culicoides variipennis

Use of the indirect fluorescent antibody technique for the detection of Bluetongue virus antigen in tissue smears from *Culicoides variipennis* (Diptera, Ceratopogonidae), 5 (1980) 13

Culture methods

Large scale production and concentration of bovine C-type virus, 1 (1976) 185

Improved cultural methods for *Tritrichomonas foetus*, 2 (1977) 89

Enhancement of infectious bovine rhinotracheitis virus replication with corticosterone, 2 (1977) 109

Attempts to cultivate *Ehrlichia phagocytophila* in vitro, 2 (1977) 257

The cultivation of bovine adenovirus type 3 in cultures of suspended MDBK cells, 2 (1977) 283

Cultivation of bovine adenovirus type 3 in tracheal organ cultures, 3 (1978) 3

The nutritional needs of a continuous passage horse leucocyte culture, 3 (1978) 71

Detection of mycoplasma in cell cultures: how reliable is the uridine/uracil uptake ratio method?, 3 (1978) 167

Selection of foot-and-mouth disease viruses by passage in bovine and swine kidney cell cultures, 4 (1979) 1

Light and electron microscope studies of the growth of ovine adenoviruses in primary lamb kidney cell cultures, 4 (1979) 293

Factors in scrapie-infected mouse tissues that influence the metabolism of polyadenylated-RNA in cell cultures, 4 (1979) 305

Pathogenesis of bovine viral diarrhoea-mucosal disease (BVD-MD) virus infection in tracheal organ cultures, 5 (1980) 257

Kinetics of maedi virus production in sheep choroid plexus cells, 6 (1981) 1

The use of the direct immunoperoxidase test to detect the multiplication of rinderpest virus in bovine kidney cell culture, 6 (1981) 23

Effects of some components of the humoral immune response on the replication of bovine herpesvirus type I in tracheal organ cultures, 6 (1981) 129

Infectivity assay and neutralization test for equine influenza virus in microplate cell cultures, 6 (1981) 309

Atypical colony-like structures developing in control media and in clinical L-form cultures containing serum, 7 (1982) 1

Recovery of microorganisms from synovial and pleural fluids of animals using hyperosmolar media, 7 (1982) 19

In vitro propagation of *Cytoecetes phagocytophila*, the causative agent of tick-borne fever, 7 (1982) 127

Effect of lymphocytes and broncho-alveolar washing cells on the replication of bovine herpesvirus type 1 in tracheal organ cultures, 7 (1982) 241

Cultural methods for the production of heat-stable enterotoxin by porcine strains of *Escherichia coli* and its detection by the infant mouse test, 7 (1982) 253

Comparative studies on the growth of Australian bluetongue virus serotypes in continuous cell lines and embryonated chicken eggs, 7 (1982) 401

Studies of enteric coronaviruses in a feline cell line, 7 (1982) 427

Staphylococcus aureus isolated from poultry in Australia. I. Phage typing and cultural characteristics, 7 (1982) 471

Morphological variants developing in L-form cultures of two strains of *Actinomyces* spp. of canine origin, 7 (1982) 587

An investigation into causes of resistance of a cloned line of BHK cells to a strain of foot-and-mouth disease virus, 8 (1983) 259

Comparison of virulence of ovine respiratory mycoplasmas in the mouse mammary gland, 9 (1984) 367

Comparison of methods for the isolation and purification of infectious laryngotracheitis virus DNA, 9 (1984) 415

Growth requirements for *Moraxella bovis*, 9 (1984) 593

Factors affecting the yield of viable cells of *Corynebacterium pseudotuberculosis* in a liquid medium, 11 (1986) 145

Variable sensitivity of a feline embryo cell line and of three kitten kidney cell cultures to feline herpes- and caliciviruses, 11 (1986) 173

Development of an improved selective medium for isolation of leptospires from clinical material, 12 (1986) 377

Correlation between adherence of *Erysipelothrix rhusiopathiae* strains of serovar 1a to tissue culture cells originated from porcine kidney and their pathogenicity in mice and swine, 13 (1987) 57

Growth of *Mycoplasma bovis* in organ cultures of bovine foetal trachea and comparison with *Mycoplasma dispar*, 13 (1987) 189

Purification of a heat labile dermonecrotic toxin from culture fluid of *Pasteurella multocida*, 13 (1987) 235

Decrease in catalase activity of cultured cells by *Mycoplasma gallisepticum* infection, 13 (1987) 343

The propagation of feline panleukopenia virus in microcarrier cell culture and use of the inactivated virus in the protection of mink against viral enteritis, 13 (1987) 371

Latent infection with feline syncytial virus of cell cultures prepared from the kidneys of newborn kittens, 16 (1988) 9

Growth of bluetongue and epizootic hemorrhagic disease of deer viruses in poikilothermic cell systems, 16 (1988) 15

Colony morphology of *Staphylococcus aureus* in serum-soft agar following in vivo and in vitro growth, 16 (1988) 87

A rapid method for the large scale preparation of bovine leukemia virus antigen, 17 (1988) 107

Infection of established cell lines with *Campylobacter mucosalis*, 17 (1988) 179

A continuous bovine kidney cell line for routine assays of foot-and-mouth disease virus, 18 (1988) 1

An evaluation of 1-hexadecylpyridinium chloride as a decontaminant in the primary isolation of *Mycobacterium bovis* from bovine lesions, 18 (1988) 127

Treponema hyodysenteriae growth under various culture conditions, 18 (1988) 177

Effects of exogenous amino acids on the multiplication of porcine *Escherichia coli*, 19 (1989) 263

A heteroploid permanent cell line originating from embryonic calf thyroid supporting the replication of all known bovine adenovirus serotypes, 19 (1989) 317

Advantages of a new agar medium in the primary isolation of *Mycobacterium bovis*, 20 (1989) 89

Quantitation, biological and physicochemical properties of cell culture-adapted porcine epidemic diarrhea coronavirus (PEDV), 20 (1989) 131

Serotypes in *Cowdria ruminantium* and their relationship with *Ehrlichia phagocytophila* determined by immunofluorescence, 21 (1989) 31

Growth of *Mycobacterium paratuberculosis* in radiometric, Middlebrook and egg-based media, 22 (1990) 31

In vitro production of antibodies to bovine virus diarrhoea virus by peripheral blood mononuclear cells from cattle immunized by infection, 22 (1990) 161

Cultivation of *Bacillus piliformis* (Tyzzer) in mouse fibroblasts (3T3 cells), 22 (1990) 291

The growth response of *Mycoplasma hyopneumoniae* and *Mycoplasma flocculare* based upon ATP-dependent luminometry, 24 (1990) 135

Effect of macrophage-specific colony-stimulating factor (CSF-1) on swine monocyte/macrophage susceptibility to in vitro infection by African swine fever virus, 25 (1990) 153

Cyclophosphamide

Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection, 15 (1987) 41

Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae*, 15 (1987) 341

Cytoecetes phagocytophila

In vitro propagation of *Cytoecetes phagocytophila*, the causative agent of tick-borne fever, 7 (1982) 127

Tick-borne fever: leucocyte migration inhibition, 7 (1982) 437

Detection of antibodies to the agent of tick-borne fever by indirect immunofluorescence, 21 (1989) 133

Cytotoxins

Suppression of natural cytotoxic activity of lymphocytes from cattle and sheep during the progress of bovine leukosis, 9 (1984) 105

Effects of *Pasteurella haemolytica* cytotoxin on ovine peripheral blood leucocytes and lymphocytes obtained from gastric lymph, 10 (1985) 431

Cytotoxic effect of serotypes of *Pasteurella haemolytica* on sheep bronchoalveolar macrophages, 11 (1986) 331

Cytotoxin from an ovine strain of *Pasteurella haemolytica*: characterization studies and partial purification, 11 (1986) 337

Pasteurella haemolytica cytotoxin: relative susceptibility of bovine leucocytes, 13 (1987) 321

Cytotoxins in non-enterotoxigenic strains of *Escherichia coli* isolated from feces of diarrheic calves, 15 (1987) 137

Production of toxins by *Escherichia* coli strains isolated from calves with diarrhoea in Galicia (North-western Spain), 18 (1988) 297

Toxicity of *Haemophilus pleuropneumoniae* to porcine lung macrophages, 19 (1989) 337

The effect of *Pasteurella haemolytica* cytotoxin on bovine polymorphonuclear leukocytes can be attenuated by β-adrenoceptor antagonists, 22 (1990) 259

Deer virus

Bluetongue and related viruses in Nigeria: Experimental infection of West African dwarf sheep with Nigeria strains of the viruses of epizootic haemorrhagic disease of deer and bluetongue, 5 (1980) 177

Demeclocycline

Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline, 19 (1989) 253

Dermatitis

Experimental infection of rabbits with bovine herpesvirus-4: acute and persistent infection, 7 (1982) 503

Dermatophilus congolensis

Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis*, 15 (1987) 151

Serum and skin surface antibody responses in Merino sheep given three successive inoculations with *Dermatophilus congolensis*, 15 (1987) 209

Vaccination against ovine dermatophilosis, 18 (1988) 285

Inflammatory cell and immune function in Merino sheep with chronic dermatophilosis, 21 (1989) 79

Inhibition of *Dermatophilus congolensis* by substances produced by bacteria found on the skin, 22 (1990) 237

Cellular immune response of the rat to experimental infection with *Dermatophilus congolensis*, 25 (1990) 283

Dexamethasone

Effect of dexamethasone on the multiplication of attenuated strains of hog cholera virus in pigs, 1 (1976) 475

Effect of repeated treatment with dexamethasone on the re-excretion pattern of infectious bovine rhinotracheitis virus and humoral immune response, 4 (1979) 149

Experimental infection of bulls with a genital isolate of bovine herpesvirus-4 and reactivation of latent virus with dexamethasone, 21 (1989) 97

Dextran sulfate

Humoral immune response to non-viable *Mycoplasma pulmonis* in mice enhanced by dextran sulfate, 13 (1987) 335

Diagnosis—*Actinobacillus seminis*

Rapid identification of *Haemophilus somnus*, *Histophilus ovis* and *Actinobacillus seminis* using the API ZYM system, 17 (1988) 75

Diagnosis—African swine fever virus

Detection of African swine fever virus antigen and antibody by radioimmunoassay, 5 (1980) 169

Diagnosis—Akabane virus

Detection of antibodies against Akabane virus in bovine sera by enzyme-linked immunosorbent assay, 20 (1989) 275

Diagnosis—anaerobic bacteria, general

Recovery and identification of anaerobes in veterinary medicine: a 2-year experience, 2 (1977) 237

Diagnosis—*Anaplasma marginale*

Comparison of rapid card agglutination test with the complement fixation test for diagnosis of *Anaplasma marginale* infection in cattle in Colombia, 2 (1977) 167

Serologic comparisons of 4 *Anaplasma* isolates as measured by the complement-fixation test, 9 (1984) 181

Comparison of a DNA probe, complement-fixation and indirect immunofluorescence

tests for diagnosing *Anaplasma marginale* in suspected carrier cattle, 24 (1990) 381

Development of a recombinant *Anaplasma marginale* DNA probe, 24 (1990) 391

Diagnosis—*Anaplasma* spp.

An enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to *Anaplasma centrale* and *Anaplasma marginale*, 25 (1990) 45

Diagnosis—Aujeszky's disease virus

The rapid detection of Aujeszky's disease virus in pigs by direct immunoperoxidase labelling, 10 (1985) 481

Evaluation of a diagnostic antigen for the detection of Aujeszky's disease virus-infected subunit-vaccinated pigs, 11 (1986) 25

Four-layer enzyme immunoassay (EIA) detection of differences in IgG, IgM and IgA antibody response to Aujeszky's disease virus in infected and vaccinated pigs, 13 (1987) 121

Rapid detection of pseudorabies virus genomic sequences in biological samples from infected pigs using polymerase chain reaction DNA amplification, 23 (1990) 317

Dectection of latent pseudorabies virus in swine using in situ hybridization, 24 (1990) 273

Polymerase chain reaction amplification of pseudorabies virus DNA from acutely and latently infected cells, 24 (1990) 281

Diagnosis—avian infectious bronchitis virus

Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA, 24 (1990) 261

Diagnosis—bluetongue virus

Use of the indirect fluorescent antibody technique for the detection of Bluetongue virus antigen in tissue smears from *Culicoides variipennis* (Diptera, Ceratopogonidae), 5 (1980) 13

Immunodiffusion test antigen from bluetongue virus-infected newborn mouse brains, 8 (1983) 363

Studies with enzyme-linked immunosorbent assays for the serodiagnosis of bluetongue and epizootic haemorrhagic disease of deer, 16 (1988) 323

Dot immunobinding assay in comparison with enzyme-linked immunosorbent assay for the detection of bluetongue virus antibodies in sheep, 22 (1990) 365

Diagnosis—*Bordetella avium*

An evaluation of two methods of substrate alkalinization for the identification of *Bordetella avium* and other similar organisms, 11 (1986) 301

Diagnosis—bovine coronavirus

Detection of coronavirus in calf faeces with a haemadsorption-elution-haemagglutination assay (HEHA), 3 (1978/1979) 205

Development of protein A—gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells, 19 (1989) 217

Characterization of monoclonal and polyclonal antibodies to bovine enteric coronavirus: establishment of an efficient ELISA for antigen detection in feces, 20 (1989) 111

Diagnosis—bovine enterovirus

Blocking enzyme-linked immunosorbent assay for detection of antibodies against bovine enterovirus, 21 (1989) 275

Diagnosis—bovine herpesvirus

A single dilution enzyme-linked immunosorbent assay for the quantitative detection of antibodies to bovine herpesvirus type 1, 10 (1984/1985) 133

Detection of antibodies to bovid herpesvirus 4 by ELISA, 10 (1984/1985) 149

Highly sensitive antigen detection procedures for the diagnosis of infectious bovine rhinotracheitis: amplified ELISA and reverse passive haemagglutination, 13 (1987) 135

Evaluation of an antigen-capture ELISA for the detection of bovine herpesvirus Type 1 shedding from feedlot cattle, 16 (1988) 101

Diagnosis—bovine leukemia virus

Recent studies on the characterization of the bovine leukemia virus (BLV); development of new methods for the diagnosis of BLV infection, 1 (1976) 159

Serologic detection of bovine leukemia virus infection, 1 (1976) 195

Comparative study of two diagnostic methods of bovine leukosis: hematology and immunodiffusion, 1 (1976) 203

Cultivation of bovine C-type leukemia virus, its transmission to calves and the development of leukemia as determined by hematological, electron microscopical and immunodiffusion test, 1 (1976) 231

Comparison between serological and hematological diagnosis of bovine leukosis, 1 (1976) 239

Haematological, serological, virological and electron microscopical diagnosis of enzootic bovine leukaemia (EBL), 1 (1976) 259

Studies on leukotic bovine and ovine precipitating serum antibodies and the electrophoretic behaviour of the antigen specific for leukotic cattle, 1 (1976) 263

A comparison of tests on reference serums for BLV antibody, 1 (1976) 275

Leukohematocrit index in the diagnosis of bovine leukosis, 1 (1976) 383

A microculture syncytia assay for bovine leukemia virus, 3 (1978) 77

An improved immunodiffusion test for antibodies to bovine leukemia virus antigens, 5 (1980) 195

Detection of antibodies to bovine leukemia virus in bovine milk samples with an ELISA involving two monoclonal antibodies, 18 (1988) 89

Bovine leukaemia proviral DNA detection in cattle using the polymerase chain reaction, 25 (1990) 117

Diagnosis—bovine respiratory disease viruses, general

Enzyme linked immunosorbent assay used to monitor serum antibodies to bovine respiratory disease viruses, 11 (1986) 309

Diagnosis—bovine retrovirus

Serological detection of multiple retroviral infections in cattle: bovine leukemia virus, bovine syncytial virus and bovine visna virus, 20 (1989) 247

Diagnosis—bovine rhinotracheitis virus

Evaluation of the critical parameters of a sensitive ELISA test using purified infectious bovine rhinotracheitis virus antigens, 6 (1981) 265

Diagnosis—bovine rotavirus

Bovine rotavirus diagnosis: comparison of various antigens and serological tests, 3 (1978) 115

Detection of rotavirus infection by immunodiffusion, 6 (1981) 31

A comparison of three rapid diagnositc methods for the detection of rotavirus infection in calves, 13 (1987) 19

Diagnosis—bovine spongiform encephalopathy

Bovine spongiform encephalopathy: detection and quantitation of fibrils, fibril protein (PeP) and vacuolation in brain, 23 (1990) 295

Diagnosis—bovine viral diarrhoea virus

Enzyme-linked immunosorbent assay for the detection of antibodies to bovine viral diarrhea virus in bovine sera, 10 (1985) 325

An enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to bovine viral diarrhoea virus (BVDV) in cattle sera, 10 (1985) 359

Detection of bovine virus diarrhea virus in cell culture using an immunoperoxidase technique, 13 (1987) 153

A rapid, quantitative assay for titration of bovine virus diarrhoea—mucosal disease virus, 18 (1988) 209

An enzyme-linked immunosorbent assay (ELISA) for antibodies to bovine viral diarrhea virus, 22 (1990) 1

In vitro production of antibodies to bovine virus diarrhoea virus by peripheral blood

mononuclear cells from cattle immunized by infection, 22 (1990) 161

ELISA detection of bovine viral diarrhoea virus specific antibodies using recombinant antigen and monoclonal antibodies, 23 (1990) 193

Detection of bovine viral diarrhea virus in serum from cattle by dot blot hybridization assay, 24 (1990) 297

Diagnosis—*Brucella abortus*

A comparison of counter-immunoelectrophoresis with the rose bengal and the serum tube agglutination tests in the diagnosis of brucellosis in sheep, 5 (1980) 223

Studies on the use of *Yersinia enterocolitica* 09 antigens in rapid quantitative plate tests for the differentiation of Brucella and Yersinia infections in cattle and the diagnosis of bovine brucellosis, 5 (1980) 323

A comparative study of ELISA and other methods for the detection of *Brucella* antibodies in bovine sera, 10 (1984/1985) 13

Evaluation of the enzyme-linked immunosorbent assay in the detection of cattle infected with *Brucella abortus*, 10 (1984/1985) 23

Comparison of an enzyme-linked immunosorbent assay using monoclonal antibodies and a complement fixation test for cattle vaccinated and infected with *Brucella abortus*, 12 (1986) 55

Comparison of the dot-immunobinding assay with the complement fixation test for the detection of *Brucella* antibodies in sheep, 20 (1989) 281

An evaluation of the delayed-type hypersensitivity test for diagnosing brucellosis in individual cattle: a field study, 22 (1990) 241

Diagnosis—*Brucella canis*

Characterization of *Brucella canis* protein antigens and polypeptide antibody responses of infected dogs, 19 (1989) 373

Diagnosis—*Brucella ovis*

Characterization of *Brucella ovis* surface antigens, 18 (1988) 349

Diagnosis—*Brucella* spp.

Restriction endonuclease analysis of *Brucella ovis* and other *Brucella* species, 10 (1985) 425

Use of hydrophobic cloths as antibody adsorbents for enzyme immunoassay: detection of *Brucella* antigens, 20 (1989) 155

Discrimination between sheep antibodies to *Brucella melitensis* and to *Brucella ovis*, 20 (1989) 339

Diagnosis—*Campylobacter* spp.

Species-specific DNA probes for *Campylobacter* species isolated from pigs with proliferative enteritis, 24 (1990) 367

Diagnosis—caprine syncytical retrovirus

Preparation and evaluation of antigens used in serological tests for caprine syncytial retrovirus antibody in sheep and goat sera, 9 (1984) 581

Diagnosis—*Chlamydia psittaci*

Rapid detection of *Chlamydia psittaci* in vaginal swabs of aborted ewes and goats by enzyme linked immunosorbent assay (ELISA), 11 (1986) 251

Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination, 15 (1987) 57

Comparison of DNA-spot hybridization, cell culture and direct immunofluorescence staining for the diagnosis of avian chlamydiae, 18 (1988) 15

Detection of *Chlamydia psittaci* in free-ranging koalas (*Phascolarctos cinereus*): DNA hybridization and immuno-slot blot analyses, 21 (1989) 21

A simple staining method for the identification of chlamydial elementary bodies in the fetal membranes of sheep affected by ovine enzootic abortion, 21 (1989) 233

Characterisation of *Chlamydia psittaci* isolated from a horse, 24 (1990) 11

Diagnosis—*Clostridium chauvoei*

An indirect hemagglutination test for the detection of antibodies to *Clostridium chauvoei*, 10 (1985) 315

Diagnosis—coronavirus, general

Enzyme-linked immunosorbent assay for the detection of the coronavirus-like agent and its antibodies in pigs with porcine epidemic diarrhea, 7 (1982) 295

Diagnosis—*Corynebacterium equi*

Some problems associated with the identification of *Corynebacterium equi*, 6 (1981) 331

Diagnosis—*Corynebacterium pyogenes*

Quantitation of antibodies to *Corynebacterium pyogenes* in sera from cows. Methods and applications, 4 (1979) 235

Diagnosis—*Cowdria ruminantium*

A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks, 19 (1989) 151

Diagnosis—*Cytoecetes phagocytophila*

Detection of antibodies to the agent of tick-borne fever by indirect immunofluorescence, 21 (1989) 133

Diagnosis—Enterobacteriaceae, general

Evaluation of a multi-test microtube system for the identification of veterinary isolates of *Enterobacteriaceae*, 5 (1980) 229

Diagnosis—*Eperythrozoon suis*

Detection of *Eperythrozoon suis* DNA from swine blood by whole organism DNA hybridizations, 24 (1990) 127

Diagnosis—epizootic haemorrhagic disease of deer virus

Studies with enzyme-linked immunosorbent assays for the serodiagnosis of bluetongue and epizootic haemorrhagic disease of deer, 16 (1988) 323

Diagnosis—equine arteritis virus

The effects of vaccination with tissue culture-derived viral vaccines on detection of antibodies to equine arteritis virus by enzyme-linked immunosorbent assay (ELISA), 20 (1989) 181

Diagnosis—equine herpesvirus

Direct diagnosis of herpesvirus in equine foetal organs by means of electron microscopy, 4 (1979) 317

A radial immunodiffusion enzyme assay for detection of antibody to equine rhinopneumonitis virus (EHV-1) in horse serum, 17 (1988) 315

Diagnosis—equine infectious anaemia virus

Enzyme-linked immunosorbent assay for diagnosis of equine infectious anemia, 7 (1982) 307

Diagnosis—equine rhinovirus

A technique for the detection of antibodies against equine rhinovirus using complement mediated haemolysis in agarose gels, 5 (1980) 155

Diagnosis—*Erysipelothrix rhusiopathiae*

Application of the indirect enzyme immunoassay for the detection of antibodies against *Erysipelothrix rhusiopathiae*, 10 (1985) 549

Diagnosis—*Escherichia coli*

Evaluation of monoclonal antibodies to K88, K99, F41 and 987P fimbrial adhesins for the detection of porcine enterotoxigenic *Escherichia coli* in paraffin-wax tissue sections, 20 (1989) 377

Diagnosis—foot-and-mouth disease virus

A serological and biochemical study of new field isolates of foot-and-mouth disease virus type A in Peru, 1975 to 1981, 8 (1983) 555

A rapid enzyme-linked immunosorbent assay for the detection of foot-and-mouth disease virus in epithelial tissues, 9 (1984) 435

A comparison of enzyme-linked immunosorbent assay, complement fixation and virus isolation for foot and mouth disease diagnosis, 17 (1988) 21

Single dilution ELISA for detection of serum antibody to foot-and-mouse disease virus in cattle, 18 (1988) 273

Evaluation of techniques to demonstrate foot-and-mouth disease virus in bovine tongue epithelium: comparison of the sensitivity of cattle, mice, primary cell cultures, cryopreserved cell cultures and established cell lines, 20 (1989) 99

Antibodies to foot-and-mouth disease virus infection associated (VIA) antigen: use of a bioengineered VIA protein as antigen in an ELISA, 20 (1989) 235

Foot-and-mouth disease virus subtyping by sequencing VP1 genes, 23 (1990) 175

Diagnosis—general

The magic and challenge of DNA probes as diagnostic reagents, 24 (1990) 217

Methodologies for in vitro nucleic acid amplification and their applications, 24 (1990) 235

Applications of nucleic acid probes in veterinary infectious diseases, 24 (1990) 409

Diagnosis—*Haemophilus pleuropneumoniae*

Studies on haemophilus infection in swine. I. Application of the latex agglutination test to the diagnosis of *Haemophilus pleuropneumoniae* (*H. parahaemolyticus*) infection, 6 (1981) 339

Diagnosis—*Haemophilus somnus*

Rapid identification of *Haemophilus somnus*, *Histophilus ovis* and *Actinobacillus seminis* using the API ZYM system, 17 (1988) 75

Diagnosis—*Histophilus ovis*

Rapid identification of *Haemophilus somnus*, *Histophilus ovis* and *Actinobacillus seminis* using the API ZYM system, 17 (1988) 75

Diagnosis—infectious bovine rhinotracheitis virus

Round table on infectious bovine rhinotracheitis/infectious pustular vulvovaginitis virus infection diagnosis and control, 23 (1990) 361

Diagnosis—infectious bursal disease virus

Development and characterization of nucleic acid probes to infectious bursal disease viruses, 24 (1990) 253

Diagnosis—infectious pancreatic necrosis virus

Detection of infectious pancreatic necrosis virus (IPNV) RNA by hybridization with an oligonucleotide DNA probe, 23 (1990) 211

Diagnosis—*Leptospira interrogans*

Enzymatic radioimmunoassay for detecting *Leptospira interrogans* serovar *pomona* in the urine of experimentally-infected pigs, 10 (1984/1985) 279

The use of enzyme-linked immunosorbent assay (ELISA) to detect the IgM and IgG antibody response to *Leptospira interrogans* serovars *hardjo*, *pomona* and *tarassovi* in cattle, 10 (1985) 439

Experimental trials on the use of radioimmunoassay for the detection of leptospiral antigens in urine, 12 (1986) 161

Detection of leptospires in biological fluids using DNA hybridisation, 15 (1987) 71

Evaluation of an ELISA for the diagnosis of experimentally induced and naturally occurring *Leptospira hardjo* infections in cattle, 21 (1989) 255

Nucleic acid probe characterizes *Leptospira interrogans* serovars by restriction fragment length polymorphisms, 24 (1990) 355

Diagnosis—*Listeria monocytogenes*

Characterization of *Listeria monocytogenes* isolates by Southern blot hybridization, 24 (1990) 341

Diagnosis—maedi-visna virus

An indirect enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to maedi-visna virus, 7 (1982) 209

Diagnosis—malignant catarrhal fever virus

Detection of African malignant catarrhal fever virus antigens in cell cultures by immunofluorescence, 1 (1976) 437

Antigens and antibodies of malignant catarrhal fever herpesvirus detected by immunodiffusion and counterimmunoelectrophoresis, 5 (1980) 205

Diagnosis—mink enteritis virus

A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples, 15 (1987) 1

Diagnosis—morbillivirus

Characterisation of the European seal morbillivirus, 23 (1990) 351

Diagnosis—*Mycobacterium bovis*

Development of a whole blood lymphocyte stimulation assay for detecting hypersensitivity to PPD in cattle experimentally infected with *Mycobacterium bovis*, 2 (1977) 261

Identification of *Mycobacterium bovis* isolates using a monoclonal antibody, 18 (1988) 191

Rapid confirmatory identification of *Mycobacterium bovis* using a dot blotting immunodetection technique, 22 (1990) 335

The development and evaluation of an enzyme-linked immunosorbent assay for the detection of *Mycobacterium bovis*, 24 (1990) 205

Diagnosis—*Mycobacterium paratuberculosis*

Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture, 19 (1989) 183

Analysis of restriction endonuclease fragment patterns of DNA from *Mycobacterium paratuberculosis*, 19 (1989) 189

The sensitivity and specificity of a modified ELISA for the diagnosis of Johne's disease from a field trial in cattle, 25 (1990) 193

Diagnosis—*Mycobacterium* spp.

Comparison of fluorescent antibody tests for tuberculosis and paratuberculosis with antigens coupled to insoluble spheres or taken up by macrophages, 2 (1977) 39

Diagnosis—*Mycoplasma agalactiae*

A radial growth precipitation test and its comparison with certain other serological tests for detection of antibody in bovine sera to *Mycoplasma agalactiae* subsp. *bovis*, 1 (1976) 23

Diagnosis—*Mycoplasma dispar*

An improved method for the identification of *Mycoplasma dispar*, 14 (1987) 25

Diagnosis—*Mycoplasma gallisepticum*

DNA probes for *Mycoplasma gallisepticum* and *Mycoplasma synoviae*: application in experimentally infected chickens, 20 (1989) 323

Diagnosis—*Mycoplasma hyopneumoniae*

A comparative study of the complement fixation test for *Mycoplasma hyopneumoniae* in SPF and non-SPF herds of swine in Illinois, 1 (1976) 459

Adaptation of a latex agglutination tube test for diagnosis of *Mycoplasma hyopneumoniae* swine pneumonia, 4 (1979) 157

Evaluation of the indirect hemagglutination assay as a practical serodiagnostic test for mycoplasmal pneumonia of swine, 9 (1984) 259

Comparison of *Mycoplasma ovipneumoniae* isolates using bacterial restriction endonuclease DNA analysis and SDS-PAGE, 10 (1985) 541

Evaluation of the ELISA and comparison to the complement fixation test and radial immunodiffusion enzyme assay for detection of antibodies against *Mycoplasma hyopneumoniae* in swine serum, 25 (1990) 177

Diagnosis—*Mycoplasma mycoides*

A passive haemagglutination test for detection of antibodies against *Mycoplasma mycoides* subsp. *mycoides* using

glutaraldehyde-fixed sheep erythrocytes, 7 (1982) 343

Diagnosis—papillomavirus

Detection of papillomavirus DNA in precancerous lesions of the ears of sheep, 25 (1990) 103

Diagnosis—*Pasteurella haemolytica*

The quantitative estimation of antibody to *Pasteurella haemolytica* in sheep sera using a micro-enzyme-linked immunosorbent assay (ELISA), 3 (1978/1979) 291

Specificity of the enzyme-linked immunosorbent assay (ELISA) for antibodies in the sera of specific pathogen-free lambs vaccinated with *Pasteurella haemolytica* antigens, 8 (1983) 199

Measurement of *Pasteurella haemolytica*-specific lung and serum antibodies by ELISA, 12 (1986) 337

Diagnosis—pestivirus, general

Characterization of porcine and some ruminant pestiviruses by cross-neutralization, 20 (1989) 291

Diagnosis—porcine epidemic diarrhoea coronavirus

Enzyme-linked immunosorbent assay for the detection of porcine epidemic diarrhea coronavirus antibodies in swine sera, 21 (1989) 263

Diagnosis—porcine parvovirus

Detection of antibodies against porcine parvovirus in swine sera by enzyme-linked immunosorbent assay, 17 (1988) 11

Mapping of porcine parvovirus DNA and development of a diagnostic DNA probe, 17 (1988) 29

Diagnosis—porcine rotavirus

Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus, 24 (1990) 327

Diagnosis—*Pseudomonas mallei*

Development of an avidin–biotin dot enzyme-linked immunosorbent assay and its comparison with other serological tests for diagnosis of glanders in equines, 25 (1990) 77

Diagnosis—*Pseudomonas pseudomallei*

Evaluation of the API 20E and microbact 24E systems for the identification of *Pseudomonas pseudomallei*, 8 (1983) 611

Diagnosis—retrovirus

Detection and quantitation of a type D retrovirus *gag* protein in ovine pulmonary carcinoma (sheep pulmonary adenomatosis) by means of a competition radioimmunoassay, 25 (1990) 17

Diagnosis—*Rhodococcus equi*

Two techniques for detection of antibodies against *Corynebacterium (Rhodococcus) equi* in horse sera, 10 (1984/1985) 293

Diagnosis of *Rhodococcus equi* infection in foals by the agar gel diffusion test with protein antigen, 15 (1987) 105

Diagnosis—*Salmonella* spp.

Plasmid profile analysis of salmonellae in a large-animal hospital, 13 (1987) 301

The detection of salmonella infection in calves by the fluorescent antibody test, 19 (1989) 85

Diagnosis—*Staphylococcus* spp.

Reliability of thermonuclease production for the identification of human and animal *Staphylococcus aureus*, 9 (1984) 271

Identification and characteristics of staphylococci isolated from lesions and normal skin of horses, 10 (1984/1985) 269

A comparison of the STAPH-Ident and STAPH-Trac systems to conventional methods in the identification of staphylococci isolated from bovine udders, 12 (1986) 179

Diagnosis—*Streptococcus suis*

Identification and characterization of *Streptococcus suis*, 11 (1986) 349

Monoclonal antibodies for coagglutination of *Streptococcus suis* Type 1, 20 (1989) 349

Diagnosis—swine fever virus

The neutralizing peroxidase-linked assay for detection of antibody against swine fever virus, 9 (1984) 113

Production of monoclonal antibodies against swine fever virus and their use in laboratory diagnosis, 12 (1986) 101

Identification of hog cholera viral isolates by use of monoclonal antibodies to pestiviruses, 16 (1988) 315

An enzyme immunoassay employing monoclonal antibodies and detecting specifically antibodies to classical swine fever virus, 17 (1988) 129

Diagnosis—synovial and pleural fluids, general

Recovery of microorganisms from synovial and pleural fluids of animals using hyperosmolar media, 7 (1982) 19

Diagnosis—*Taylorella equigenitalis*

Passive hemagglutination test for detection of antibodies against *Taylorella (Haemophilus) equigenitalis* in sera of mares, 18 (1988) 155

Diagnosis—transmissible gastroenteritis virus

Evaluation of enzyme-linked immunosorbent assay for the detection of transmissible gastroenteritis virus antibodies, 13 (1987) 93

A competitive inhibition ELISA for the differentiation of serum antibodies from pigs infected with transmissible gastroenteritis virus (TGEV) or with the TGEV-related porcine respiratory coronavirus, 20 (1989) 9

Diagnosis—*Treponema hyodysenteriae*

Multilocus enzyme electrophoresis for identification and typing of *Treponema hyodysenteriae* and related spirochaetes, 22 (1990) 89

Biochemical and immunochemical characterisation of strains of *Treponema hyodysenteriae*, 24 (1990) 29

Diagnosis—vesicular stomatitis virus

An enzyme-linked immunosorbent assay for the detection of vesicular stomatitis virus antigen, 18 (1988) 243

Diagnosis—*Yersinia enterocolitica*

Studies on the use of *Yersinia enterocolitica* 09 antigens in rapid quantitative plate tests for the differentiation of Brucella and Yersinia infections in cattle and the diagnosis of bovine brucellosis, 5 (1980) 323

Diarrhoea—cattle

Physico-chemical properties of calf diarrhoea coronavirus, 2 (1977) 73

Hemagglutination by calf diarrhea coronavirus, 2 (1977) 83

Isolation of coronaviruses from neonatal calf diarrhoea in Great Britain and Denmark, 3 (1978) 101

Isolation of bovine Herpesvirus III from diarrheic feces, 3 (1978/1979) 199

Epizootic diarrhoea of adult cattle associated with a coronavirus-like agent, 5 (1980) 151

Properties of a coronavirus isolated from a cow with epizootic diarrhea, 5 (1980) 265

Studies with an unclassified virus isolated from diarrheic calves, 7 (1982) 221

Intestinal changes associated with rotavirus and enterotoxigenic *Escherichia coli* infection in calves, 8 (1983) 35

Primary isolation of cytopathic bovine rotaviruses on fetal rhesus monkey kidney cells, 8 (1983) 135

Unusual characteristics of a parvovirus isolated from a clinically ill steer, 11 (1986) 61

Sequential isolation of rotavirus from individual calves, 11 (1986) 177

A comparison of three rapid diagnositc methods for the detection of rotavirus infection in calves, 13 (1987) 19

Cytotoxins in non-enterotoxigenic strains of *Escherichia coli* isolated from feces of diarrheic calves, 15 (1987) 137

Studies on bovine Breda virus, 15 (1987) 261

Transmission of bovine virus diarrhoea virus (BVDV) by artificial insemination (AI) with semen from a persistently-infected bull, 17 (1988) 97

Production of toxins by *Escherichia* coli strains isolated from calves with diarrhoea in Galicia (North-western Spain), 18 (1988) 297

Diarrhoea—dog

Enterotoxigenic *Escherichia coli* (ETEC) and *Klebsiella pneumoniae* isolated from dogs with diarrhoea, 10 (1985) 577

Diarrhoea—horse

The isolation, propagation and characterization of tissue-cultured equine rotaviruses, 9 (1984) 1

Isolation and characteristics of an equine reovirus type 3 and an antibody prevalence survey to reoviruses in horses located in New York State, 9 (1984) 15

Isolation of piliated *Escherichia coli* from diarrheic foals, 12 (1986) 221

Diarrhoea—pig

A reovirus-like agent (rotavirus) associated with diarrhoea in neonatal pigs, 1 (1976) 55

Replication of a bovine coronavirus in organ cultures of foetal trachea, 1 (1976) 65

Enzyme-linked immunosorbent assay for the detection of the coronavirus-like agent and its antibodies in pigs with porcine epidemic diarrhea, 7 (1982) 295

Antimicrobial drug resistance in porcine enterotoxigenic *Escherichia coli* of 0-group 149 and non-enterotoxigenic *Escherichia coli*, 9 (1984) 467

Inhibition of adhesion of *Escherichia coli* K88 antigen by mammary secretions of susceptible and resistant sows, 9 (1984) 477

Colonization antigens, antibiotic resistance and plasmid content of enterotoxigenic *Escherichia coli* isolated from piglets with diarrhoea in Galicia (north-western Spain), 11 (1986) 271

Development of intestinal antibodies against *Escherichia coli* antigens in piglets with experimental neonatal *E. coli* diarrhoea, 12 (1986) 119

Characterization of rotaviruses isolated from pigs with diarrhoea in Venezuela, 13 (1987) 35

Preliminary characterization of *Escherichia coli* isolated from pigs with diarrhoea in Venezuela, 13 (1987) 47

Virulence factors in *Escherichia coli* isolated from piglets with neonatal and post-weaning diarrhea in Japan, 13 (1987) 291

Unusual serotypes of *Escherichia coli* from piglet diarrhea in North Spain, 17 (1988) 375

Diarrhoea—rabbit

Infectious nature of *Clostridium spiroforme*-mediated rabbit enterotoxaemia, 9 (1984) 497

Significance of *Clostridium spiroforme* in the enteritis-complex of commercial rabbits, 12 (1986) 25

Disinfection measures

Disinfection of the causative agent of contagious equine metritis by Nolvasan and Roccal II, 6 (1981) 59

Distemper

Pathological findings indicative of distemper in European seals, 23 (1990) 331

Mass mortality in seals caused by a newly discovered virus-like morbillivirus, 23 (1990) 343

Dog

Propagation of human rotavirus in young dogs, 3 (1978) 55

Reovirus isolation from healthy dogs in Japan, 4 (1979) 255

Differentiation of canine coronavirus and porcine transmissible gastroenteritis virus by neutralization with canine, porcine and feline sera, 5 (1980) 283

Serological responses of dogs to cell wall and internal antigens of *Brucella canis* (*B. canis*), 7 (1982) 35

Canine parvovirus infections in a colony of dogs, 7 (1982) 317

Morphological variants developing in L-form cultures of two strains of *Actinomyces* spp. of canine origin, 7 (1982) 587

Isolation of enterotoxigenic strains of staphylococci from dogs, 8 (1983) 459

Enterotoxigenic *Escherichia coli* (ETEC) and *Klebsiella pneumoniae* isolated from dogs with diarrhoea, 10 (1985) 577

Repeated suppression of lymphocyte blastogenesis following vaccinations of CPV-immune dogs with modified-live CPV vaccines, 12 (1986) 201

Humoral immunity in disseminated *Aspergillus terreus* infection in the dog, 16 (1988) 283

Characterization of *Brucella canis* protein antigens and polypeptide antibody responses of infected dogs, 19 (1989) 373

Further studies on rabies virus isolated from healthy dogs in Nigeria, 22 (1990) 17

Donkey

Contagious equine metritis: experimental infection in the donkey, 10 (1984/1985) 259

Doxycycline

Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline, 19 (1989) 253

Drug susceptibility—general

Evalution of the Sensititre method adapted for antimicrobial drug susceptibility testing in veterinary medicine, 7 (1982) 447

Duck

The pathogenicity of three Australian fowl plague viruses for chickens, turkeys and ducks, 4 (1979) 223

Dysentery

Dysentery in calves caused by an atypical strain of *Escherichia coli* (S102-9), 12 (1986) 241

Ecology

The survival of some air-borne animal viruses in relation to relative humidity, 1 (1976) 413

Ecology of *Rhodococcus equi*, 9 (1984) 65

Survival of *Mycobacterium bovis* in defined environmental conditions, 10 (1984/1985) 193

Survival of *Corynebacterium renale*, *Corynebacterium pilosum* and *Corynebacterium cystitidis* in soil, 10 (1985) 381

Ecology of *Rhodococcus (Corynebacterium) equi* in soil on a horse-breeding farm, 12 (1986) 169

Ecology of *Rhodococcus equi* in horses and their environment on horse-breeding farms, 14 (1987) 233

The ecology of *Rhodococcus equi* and physicochemical influences on growth, 14 (1987) 241

The airborne survival of *Pasteurella haemolytica* and its deposition in and clearance from the mouse lung, 21 (1989) 363

Ecthyma virus

In vivo and in vitro characteristics of contagious ecthyma virus isolates: host response mechanism, 19 (1989) 23

Editorial

Introducing a new international journal, 1 (1976) 1

Veterinary microbiology—a review and a look ahead, 3 (1978) 1

Editorial, 8 (1983) 1

EDTA–Tris

Action of EDTA-Tris and antimicrobial agent combinations on selected pathogenic bacteria, 8 (1983) 271

Uptake of antibiotics in Gram-negative bacteria exposed to EDTA-Tris, 10 (1984) 57

Effect of EDTA-Tris on an *Escherichia coli* isolate containing R plasmids, 12 (1986) 65

Edwardsiella tarda

Antimicrobial susceptibility of *Edwardsiella tardia* from the United States and Taiwan, 12 (1986) 277

Ehrlichia phagocytophila

Attempts to cultivate *Ehrlichia phagocytophila* in vitro, 2 (1977) 257

Serotypes in *Cowdria ruminantium* and their relationship with *Ehrlichia phagocytophila* determined by immunofluorescence, 21 (1989) 31

Ehrlichia risticii

Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline, 19 (1989) 253

DNA restriction endonuclease cleavage patterns and protein antigen profile of *Ehrlichia risticii*, 25 (1990) 29

Eimeria tenella

Influence of reticuloendotheliosis virus on the severity of *Eimeria tenella* infection in broiler chickens, 9 (1984) 121

Elastase

Assessment of elastase as a *Pseudomonas aeruginosa* virulence factor in experimental lung infection in mink, 13 (1987) 281

Empyaemia

Isolation and characterisation of bacteria from pyothorax (empyaemia) in cats, 7 (1982) 455

Encapsulation

Serum resistance is correlated with encapsulation of avian strains of *Pasteurella multocida*, 21 (1989) 177

Resistance to host immune defence mechanisms afforded by capsular material of *Pasteurella haemolytica*, serotype 1, 25 (1990) 241

Endocrinology

Effects of endotoxin infusion on circulating levels of eicosanoids, progesterone, cortisol, glucose and lactic acid, and abortion in pregnant cows, 21 (1989) 211

Endotoxins

Perchloric acid treatment and use of chromogenic substrate in the Limulus test: application to veterinary diagnosis, 10 (1984/1985) 33

Development and evaluation of an enzyme-linked immunosorbent assay for endotoxin in milk, 18 (1988) 27

Endotoxin levels in milk and plasma of mastitis-affected cows measured with a chromogenic limulus test, 20 (1989) 267

Effects of endotoxin infusion on circulating levels of eicosanoids, progesterone, cortisol, glucose and lactic acid, and abortion in pregnant cows, 21 (1989) 211

Enterobacteriaceae—general

Evaluation of a multi-test microtube system for the identification of veterinary isolates of *Enterobacteriaceae*, 5 (1980) 229

Enterotoxins

Effects and bioassay of *Escherichia coli* enterotoxin (heat-stable fraction) on smooth muscle, 2 (1977) 313

Evaluation of low nutrient, high fibre diets for the prevention of porcine *Escherichia coli* enterotoxaemia, 3 (1978/1979) 281

Enterotoxin production by strains of *Staphylococcus aureus* isolated from animals and man in Nigeria, 5 (1980) 143

Cultural methods for the production of heat-stable enterotoxin by porcine strains of *Escherichia coli* and its detection by the infant mouse test, 7 (1982) 253

Enterotoxigenicity, hemagglutination and cell-surface hydrophobicity in *Aeromonas hydrophila*, *A. sobria* and *A. salmonicida*, 8 (1983) 17

Hemagglutinating and hydrophobic surface properties of salmonellae producing enterotoxin neutralized by cholera anti-toxin, 8 (1983) 443

Isolation of enterotoxigenic strains of staphylococci from dogs, 8 (1983) 459

K99 surface haemagglutinin of enterotoxigenic *E. coli* recognize terminal N-acetylgalactosamine and sialic acid residues of glycophorin and other complex glycoconjugates, 9 (1984) 249

Isolation and characterization of the heat stable enterotoxin from a pathogenic bovine strain of *Escherichia coli*, 9 (1984) 399

Production of enterotoxin(s) by *Staphylococcus hyicus*, 9 (1984) 487

Infectious nature of *Clostridium spiroforme*-mediated rabbit enterotoxaemia, 9 (1984) 497

Enterotoxigenic *Escherichia coli* (ETEC) and *Klebsiella pneumoniae* isolated from dogs with diarrhoea, 10 (1985) 577

Suppression of heat-stable enterotoxin production by *Yersinia* spp. in milk, 11 (1986) 163

Toxin-types of *Clostridium perfringens* strains isolated from sheep, cattle and paddock soils in Nigeria, 12 (1986) 93

Features of enterotoxigenic *Escherichia coli* strains of porcine origin that express K88 and 987P fimbrial antigens, 13 (1987) 65

Heat-stable (ST_a) enterotoxin of enterotoxigenic *Escherichia coli*: binding of the enterotoxin to coagulated milk and casein, 13 (1987) 167

Double-sandwich enzyme-linked immunosorbent assay for determination of *Escherichia coli* heat-labile porcine enterotoxins, 17 (1988) 83

Production of toxins by *Escherichia* coli strains isolated from calves with diarrhoea in Galicia (North-western Spain), 18 (1988) 297

Nine DNA probes for detection of toxin and adhesin genes in *Escherichia coli* isolated from diarrhoeal disease in animals, 25 (1990) 55

Enterovirus-like particles

Comparison by plaque assay of bovine rotavirus and a bovine enterovirus-like agent, 12 (1986) 189

Eperythrozoon suis

Detection of *Eperythrozoon suis* DNA from swine blood by whole organism DNA hybridizations, 24 (1990) 127

Ephemeral fever virus

The occurrence of ephemeral fever in Kenya, 1968–1988, 22 (1990) 129

Epidemiology

The use of epizootiologic experience as a guide for the study of etiologic pathogenesis and diagnosis of bovine leukosis, 1 (1976) 281

Studies on the development of persistent lymphocytosis and infection with the bovine C-type leukemia virus (BLV) in cattle, 1 (1976) 287

Bovine Leukosis: Researches on the enzootic form in Italy, 1 (1976) 307

Epidemiological studies on bovine leukosis in Canada, 1 (1976) 311

Observations on bovine lymphocytosis in Northern Ireland, 1 (1976) 315

Survey for antibodies to bovine C-type virus in the United Kingdom cattle population, 1 (1976) 319

Antibodies to Akabane virus in horses, sheep and goats in Japan, 5 (1980) 239

A survey of antibodies to arthropod-borne viruses in Japanese cattle, 5 (1980) 277

Serological studies of two additional Australian bluetongue virus isolates CSIRO 154 and CSIRO 156, 6 (1981) 233

Neutralizing anitbody to bovine rotavirus in various animal species, 6 (1981) 259

Canine parvovirus infections in a colony of dogs, 7 (1982) 317

Staphylococcus aureus isolated from poultry in Australia. II. Epidemiology of strains associated with tenosynovitis, 7 (1982) 485

Serological studies of Australian and Papua New Guinean cattle and Australian sheep for the presence of antibodies against bluetongue group viruses, 8 (1983) 147

Ecological studies of *Yersinia enterocolitica*. I. Dissemination of *Y. enterocolitica* in pigs, 8 (1983) 469

Scrapie in France: some possible predisposing factors in the naturally-acquired disease of sheep, 8 (1983) 511

Isolation and characteristics of an equine reovirus type 3 and an antibody prevalence survey to reoviruses in horses located in New York State, 9 (1984) 15

A preliminary serological survey of viral antibodies in Peruvian sheep, 10 (1984/1985) 91

Variation in foot-and-mouth disease virus isolates in Kenya: an examination of field isolates by T1 oligonucleotide fingerprinting, 10 (1985) 409

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

Epidemiology of *Rhodococcus equi* infection in horses, 14 (1987) 211

Epidemiological studies of bovine spumavirus, 16 (1988) 25

Prevalence of neutralising antibodies to Akabane virus in the Arabian Peninsula, 17 (1988) 141

Seroepidemiology of Breda virus in cattle using ELISA, 19 (1989) 233

The occurrence of ephemeral fever in Kenya, 1968–1988, 22 (1990) 129

A longitudinal study of bovine coronavirus enteric and respiratory infections in dairy calves in two herds in Ohio, 22 (1990) 187

The epidemiology of peste des petits ruminants in the Sultanate of Oman, 22 (1990) 341

Epizootic haemorrhagic disease virus

Antigenic relationship of Ibaraki, bluetongue, and epizootic hemorrhagic disease viruses, 3 (1978) 15

Bluetongue and related viruses in Nigeria: Experimental infection of West African dwarf sheep with Nigeria strains of the viruses of epizootic haemorrhagic disease of deer and bluetongue, 5 (1980) 177

Growth of bluetongue and epizootic hemorrhagic disease of deer viruses in poikilothermic cell systems, 16 (1988) 15

Studies with enzyme-linked immunosorbent assays for the serodiagnosis of bluetongue and epizootic haemorrhagic disease of deer, 16 (1988) 323

Equine arteritis virus

The effects of vaccination with tissue culture-derived viral vaccines on detection of antibodies to equine arteritis virus by enzyme-linked immunosorbent assay (ELISA), 20 (1989) 181

Equine coital exanthema

Molecular pathogenesis of equine coital exanthema: temperature-sensitive function(s) in cells infected with equine herpesviruses, 11 (1986) 221

Molecular pathogenesis of equine coital exanthema: identification and expression of infected cell polypeptides at the restricted temperature during equine herpesvirus 3 infection, 18 (1988) 363

Equine herpesvirus 1

Experimental immunization against respiratory disease due to equid herpesvirus 1 infection (rhinopneumonitis) using formalin-inactivated virus with various adjuvants, 4 (1979) 209

Direct diagnosis of herpesvirus in equine foetal organs by means of electron microscopy, 4 (1979) 317

Immunogenicity of equine herpesvirus type 1 (EHV1) and equine rhinovirus type 1 (ERhV1) following inactivation by betapropiolactone (BPL) and ultraviolet (UV) light, 7 (1982) 535

The pathogenicity in mice of respiratory, abortion and paresis isolates of equine herpesvirus-1, 8 (1983) 301

Pathogenicity of equine herpesvirus 1 subtype 2 for foals and adult pony mares, 9 (1984) 533

A radial immunodiffusion enzyme assay for detection of antibody to equine rhinopneumonitis virus (EHV-1) in horse serum, 17 (1988) 315

Isolation and characterization of monoclonal antibodies against an atttenuated vaccine strain of equine herpesvirus type 1 (EHV-1), 18 (1988) 95

Equine herpesvirus type 1: detection of viral DNA sequences in aborted fetuses with the polymerase chain reaction, 22 (1990) 373

Equine herpesvirus 3

Molecular pathogenesis of equine coital exanthema: identification and expression of infected cell polypeptides at the restricted temperature during equine herpesvirus 3 infection, 18 (1988) 363

Equine infectious anaemia virus

Development of specific in vitro lymphocyte stimulation responses in horses infected with equine infectious anaemia virus, 1 (1976) 31

Enzyme-linked immunosorbent assay for diagnosis of equine infectious anemia, 7 (1982) 307

A perspective on equine infectious anemia with an emphasis on vector transmission and genetic analysis, 17 (1988) 251

Equine influenza virus

Infectivity assay and neutralization test for equine influenza virus in microplate cell cultures, 6 (1981) 309

Plaque assay of equine influenza virus, 9 (1984) 187

Antibody isotype responses in the serum and respiratory tract to primary and secondary infections with equine influenza virus (H3N8), 19 (1989) 293

Genetic drift of equine 2 influenza A virus (H3N8), 1963–1988: analysis by oligonucleotide mapping, 22 (1990) 225

Equine reovirus

Isolation and characteristics of an equine reovirus type 3 and an antibody prevalence survey to reoviruses in horses located in New York State, 9 (1984) 15

Equine rhinovirus

A technique for the detection of antibodies against equine rhinovirus using complement mediated haemolysis in agarose gels, 5 (1980) 155

Immunogenicity of equine herpesvirus type 1 (EHV1) and equine rhinovirus type 1 (ERhV1) following inactivation by betapropiolactone (BPL) and ultraviolet (UV) light, 7 (1982) 535

Equine rotavirus

Characteristics of the genomes of equine rotaviruses, 5 (1980) 243

The isolation, propagation and characterization of tissue-cultured equine rotaviruses, 9 (1984) 1

Equine viral arteritis virus

Studies of passive immunity in foals to equine viral arteritis, 1 (1976) 45

Erysipelothrix rhusiopathiae

Immunoglobulins IgM and IgM in synovial fluids of swine with erysipelothrix polyarthritis, 1 (1976) 467

Application of the indirect enzyme immunoassay for the detection of antibodies against *Erysipelothrix rhusiopathiae*, 10 (1985) 549

Correlation between adherence of *Erysipelothrix rhusiopathiae* strains of serovar 1a to tissue culture cells originated from porcine kidney and their pathogenicity in mice and swine, 13 (1987) 57

Antiserum against culture filtrate is cross-protective for various serovars of *Erysipelothrix rhusiopathiae*, 14 (1987) 87

Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae*, 15 (1987) 341

Mechanism of protection induced in mice against *Erysipelothrix rhusiopathiae* infection by treatment with porcine antiserum to the culture filtrate of an attenuated strain, 17 (1988) 65

Serological and pathogenic characterization of *Erysipelothrix rhusiopathiae* isolates from tonsils of slaughter pigs in Indonesia, 21 (1989) 165

Erythromycin

Use of erythromycin–rifampin combination in treatment of *Rhodococcus equi* pneumonia, 14 (1987) 337

***Escherichia coli*—cattle**

The role of lysozyme in killing and lysis of coliform bacteria in the bovine animal. 1. Serum and milk concentrations of lysozyme and susceptibility of coliform strains to its action, 4 (1979) 61

The role of lysozyme in killing and lysis of coliform bacteria in the bovine animal. 2. Effect of absorbing serum with bentonite or bacteria, 4 (1979) 73

Agglutination of *Brucella abortus* cells by sera from cattle experimentally infected with *Escherichia coli*, 5 (1980) 123

Interaction of rotavirus and enterotoxigenic *Escherichia coli* in conventionally-reared dairy calves, 7 (1982) 51

Intestinal changes associated with rotavirus and enterotoxigenic *Escherichia coli* infection in calves, 8 (1983) 35

An examination of *Escherichia coli* strains isolated from cases of bovine mastitis for possible virulence determinants, 8 (1983) 141

The opsonic activity of bovine milk whey for the phagocytosis and killing by neutrophils of encapsulated and non-encapsulated *Escherichia coli*, 8 (1983) 293

Isolation and characterization of the heat stable enterotoxin from a pathogenic bovine strain of *Escherichia coli*, 9 (1984) 399

Bacteriostasis of *Escherichia coli* by bovine lactoferrin, transferrin and immunoglobulins (IgG1, IgG2, IgM) acting alone or in combination, 11 (1986) 103

Septicaemic *Escherichia coli* and experimental infection of calves, 12 (1986) 109

Dysentery in calves caused by an atypical strain of *Escherichia coli* (S102-9), 12 (1986) 241

Bacteriostatic activity of bovine lactoferrin in mastitic milk, 13 (1987) 159

Cross-reactive antibody in immunity to colisepticemia in calves, 13 (1987) 259

Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions, 15 (1987) 129

Cytotoxins in non-enterotoxigenic strains of *Escherichia coli* isolated from feces of diarrheic calves, 15 (1987) 137

Adhesion of *Staphylococcus aureus* and *Escherichia coli* to bovine udder epithelial cells, 16 (1988) 77

Production of toxins by *Escherichia* coli strains isolated from calves with diarrhoea in Galicia (North-western Spain), 18 (1988) 297

The virulence characteristics of strains of *Escherichia coli* isolated from cases of bovine mastitis in England and Wales, 20 (1989) 35

Bacterial growth in mastitic whey in relation to bacterial association with mastitis, 21 (1989) 155

Effects of endotoxin infusion on circulating levels of eicosanoids, progesterone, cortisol, glucose and lactic acid, and abortion in pregnant cows, 21 (1989) 211

DNA probes for the detection of toxin genes in *Escherichia coli* isolated from diarrhoeal disease in cattle and pigs, 22 (1990) 277

***Escherichia coli*—chicken**

Infection of the chicken with a virulent or avirulent strain of *Mycoplasma gallisepticum* alone and together with Newcastle disease virus or *E. coli* or both, 4 (1979) 35

Antimicrobial resistance of *Escherichia coli* isolated from chickens, 21 (1989) 189

Expression of fowl adenovirus type 10 antigens in *Escherichia coli*, 24 (1990) 105

***Escherichia coli*—dog**

Enterotoxigenic *Escherichia coli* (ETEC) and *Klebsiella pneumoniae* isolated from dogs with diarrhoea, 10 (1985) 577

***Escherichia coli*—general**

Effects and bioassay of *Escherichia coli* enterotoxin (heat-stable fraction) on smooth muscle, 2 (1977) 313

Inductive drug resistance among *Escherichia coli* isolated from clinically healthy domestic livestock, 5 (1980) 333

K99 surface haemagglutinin of enterotoxigenic *E. coli* recognize terminal N-acetylgalactosamine and sialic acid residues of glycophorin and other complex glycoconjugates, 9 (1984) 249

Uptake of antibiotics in Gram-negative bacteria exposed to EDTA-Tris, 10 (1984) 57

Molecular analysis of the virulence determination of enterotoxigenic *Escherichia coli* isolated from domestic animals: applications for vaccine development, 10 (1984/1985) 241

Effect of aminoacids on expression of K99 adherence pili by *Escherichia coli*, 11 (1986) 117

The use of the fluorescent antibody test to detect *Escherichia coli* with K88 and 987P pilus antigens, 11 (1986) 197

Effect of EDTA-Tris on an *Escherichia coli* isolate containing R plasmids, 12 (1986) 65

Heat-stable (ST_a) enterotoxin of enterotoxigenic *Escherichia coli*: binding of the enterotoxin to coagulated milk and casein, 13 (1987) 167

Enteric infections caused by non-enterotoxigenic *Escherichia coli* in animals: occurrence and pathogenicity mechanisms. A review, 14 (1987) 33

Probable transmission between animals of a plasmid encoding aminoglycoside 3-N-acetyltransferase IV and dihydrofolate reductase I, 15 (1987) 97

Characters of *Escherichia coli* 078 isolated from septicaemic animals, 17 (1988) 345

Nine DNA probes for detection of toxin and adhesin genes in *Escherichia coli* isolated from diarrhoeal disease in animals, 25 (1990) 55

***Escherichia coli*—horse**

Attachment of *E. coli*-bearing K88 antigen to equine brush-border membranes, 9 (1984) 561

Isolation of piliated *Escherichia coli* from diarrheic foals, 12 (1986) 221

***Escherichia coli*—pig**

Evaluation of low nutrient, high fibre diets for the prevention of porcine *Escherichia coli* enterotoxaemia, 3 (1978/1979) 281

Cultural methods for the production of heat-stable enterotoxin by porcine strains of *Escherichia coli* and its detection by the infant mouse test, 7 (1982) 253

The effect of oral immunization on the population of lymphocytes migrating to the mammary gland of the sow, 9 (1984) 287

Antimicrobial drug resistance in porcine enterotoxigenic *Escherichia coli* of 0-group 149 and non-enterotoxigenic *Escherichia coli*, 9 (1984) 467

Inhibition of adhesion of *Escherichia coli* K88 antigen by mammary secretions of susceptible and resistant sows, 9 (1984) 477

Screening of pig intestines for K88 non-adhesive phenotype by enzyme immunoassay, 11 (1986) 153

Colonization antigens, antibiotic resistance and plasmid content of enterotoxigenic *Escherichia coli* isolated from piglets with diarrhoea in Galicia (north-western Spain), 11 (1986) 271

Development of intestinal antibodies against *Escherichia coli* antigens in piglets with experimental neonatal *E. coli* diarrhoea, 12 (1986) 119

Preliminary characterization of *Escherichia coli* isolated from pigs with diarrhoea in Venezuela, 13 (1987) 47

Features of enterotoxigenic *Escherichia coli* strains of porcine origin that express K88 and 987P fimbrial antigens, 13 (1987) 65

Virulence factors in *Escherichia coli* isolated from piglets with neonatal and post-weaning diarrhea in Japan, 13 (1987) 291

In vitro adhesion of K88ab-, K88ac- and K88ad-positive *Escherichia coli* to intestinal villi, to buccal cells and to erythrocytes of weaned piglets, 15 (1987) 201

Detection of enterotoxigenic *Escherichia coli* in piggeries in Victoria by DNA hybridisation using K88, K99, LT, ST_1 and ST_2 probes, 16 (1988) 273

Double-sandwich enzyme-linked immunosorbent assay for determination of *Escherichia coli* heat-labile porcine enterotoxins, 17 (1988) 83

Effect of experimentally-induced villus atrophy on adhesion of K88ac-positive *Escherichia coli* in just-weaned piglets, 17 (1988) 159

Unusual serotypes of *Escherichia coli* from piglet diarrhea in North Spain, 17 (1988) 375

Antimicrobial resistance of fecal coliforms from pigs in a herd not exposed to antimicrobial agents for 126 months, 18 (1988) 147

Effects of exogenous amino acids on the multiplication of porcine *Escherichia coli*, 19 (1989) 263

Antibodies to *Escherichia coli* J5 core glycolipids in gnotobiotic and conventionally reared piglets, 19 (1989) 283

In vitro adhesion of K88ac$^+$ *Escherichia coli* to Peyer's patch and peripheral blood lymphocytes, buccal and rectal epithelial cells or intestinal epithelial brush borders of weaned pigs, 20 (1989) 357

Evaluation of monoclonal antibodies to K88, K99, F41 and 987P fimbrial adhesins for the detection of porcine enterotoxigenic *Escherichia coli* in paraffin-wax tissue sections, 20 (1989) 377

DNA probes for the detection of toxin genes in *Escherichia coli* isolated from diarrhoeal disease in cattle and pigs, 22 (1990) 277

Characteristics of the Shiga-like toxin produced by *Escherichia coli* associated with porcine edema disease, 24 (1990) 89

Adhesive fimbriae produced in vivo by *Escherichia coli* O139:K12(B):H1 associated with enterotoxaemia in pigs, 25 (1990) 267

***Escherichia coli*—rabbit**

Protection of weaned rabbits against experimental *Escherichia coli* O103 intestinal infection by oral formalin-killed vaccine, 21 (1989) 353

***Eubacterium* sp.**

Influence of kanamycin on the rumen bacteria and ammonia production in supplemented sheep rumen liquor in vitro, 4 (1979) 247

Feeding and nutrition

Evaluation of low nutrient, high fibre diets for the prevention of porcine *Escherichia coli* enterotoxaemia, 3 (1978/1979) 281

Feline calicivirus

Variable sensitivity of a feline embryo cell line and of three kitten kidney cell cultures to feline herpes- and caliciviruses, 11 (1986) 173

Feline herpesvirus 1

Variable sensitivity of a feline embryo cell line and of three kitten kidney cell cultures to feline herpes- and caliciviruses, 11 (1986) 173

Feline immunodeficiency virus

Feline retroviruses: a brief review, 23 (1990) 131

Feline infectious peritonitis virus

Cross-protection studies between feline infectious peritonitis and porcine transmissible gastroenteritis viruses, 4 (1979) 11

Virus shedding and immune responses in cats inoculated with cell culture-adapted feline infectious peritonitis virus, 16 (1988) 145

The sites of early viral replication in feline infectious peritonitis, 18 (1988) 259

Inhibitory effects of ribavirin alone or combined with human alpha interferon on feline infectious peritonitis virus replication in vitro, 20 (1989) 255

Feline leukaemia virus

Tyzzer's disease in cats experimentally infected with feline leukaemia virus, 2 (1977) 49

Clinical and immunologic aspects of FeLV-induced immunosuppression, 17 (1988) 287

Feline leukemia virus vaccine: new developments, 17 (1988) 297

Iscoms, 23 (1990) 79

Feline retroviruses: a brief review, 23 (1990) 131

Feline panleukopenia virus

Comparison of the viral proteins of canine parvovirus-2, mink enteritis virus and feline panleukopenia virus, 8 (1983) 423

Recovery of viral agents from the central nervous system of cats, 9 (1984) 355

The propagation of feline panleukopenia virus in microcarrier cell culture and use of the

inactivated virus in the protection of mink against viral enteritis, 13 (1987) 371

Feline panleucopenia—in vivo infectivity studies, 16 (1988) 137

Feline syncytial virus

Latent infection with feline syncytial virus of cell cultures prepared from the kidneys of newborn kittens, 16 (1988) 9

Feline syncytium-forming virus

Feline retroviruses: a brief review, 23 (1990) 131

Fertilization

The effect of *Mycoplasma bovis* on fertilization processes in vitro with bull spermatozoa and zona-free hamster oocytes, 21 (1989) 329

Fibrinogen levels

Changes in plasma fibrinogen levels in experimental *Mycoplasma bovis* arthritis in calves, 5 (1980) 215

Fibronectin

Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions, 15 (1987) 129

Fimbriae

Adhesive fimbriae produced in vivo by *Escherichia coli* O139:K12(B):H1 associated with enterotoxaemia in pigs, 25 (1990) 267

Fish

Biological properties of viral haemorrhagic septicaemia virus: adsorption and replication, 1 (1976) 421

Surface parasitism of the fish mycoplasma *Mycoplasma mobile* 163 K on tracheal epithelial cells, 21 (1989) 339

O-serotyping of *Yersinia ruckeri* with special emphasis on European isolates, 22 (1990) 299

Detection of infectious pancreatic necrosis virus (IPNV) RNA by hybridization with an oligonucleotide DNA probe, 23 (1990) 211

Molecular cloning of the mRNA coding for the G protein of the viral haemorrhagic septicaemia (VHS) of salmonids, 23 (1990) 221

***Flavobacterium/Cytophaga* group**

Phenotypic and genetic relationships of so-called *Moraxella (Pasteurella) anatipestifer* to the *Flavobacterium/Cytophaga* group, 11 (1986) 261

Foot-and-mouth disease virus

Comparison of laboratory techniques for the evaluation of the antigenic potency of foot-and-mouth disease virus cultures and vaccines, 1 (1976) 71

Selection of foot-and-mouth disease viruses by passage in bovine and swine kidney cell cultures, 4 (1979) 1

Foot-and-mouth disease virus: immunogenicity and structure of fragments derived from capsid protein VP_3, and of virus containing cleaved VP_3, 7 (1982) 85

Difference in protective immunity of the tongue and feet of guinea pigs vaccinated with foot-and-mouth disease virus type A12 following intradermolingual and footpad challenge, 7 (1982) 97

Ultrastructural changes and antigen localization in tissues from foot-and-mouth disease virus-infected guinea-pigs, 7 (1982) 391

An investigation into causes of resistance of a cloned line of BHK cells to a strain of foot-and-mouth disease virus, 8 (1983) 259

A serological and biochemical study of new field isolates of foot-and-mouth disease virus type A in Peru, 1975 to 1981, 8 (1983) 555

A rapid enzyme-linked immunosorbent assay for the detection of foot-and-mouth disease virus in epithelial tissues, 9 (1984) 435

Reconstruction of immunosuppressed mice with mononuclear cells from donors sensitized to foot-and-mouth disease virus (FMDV), 10 (1984/1985) 1

A study of antigenic variants of foot-and-mouth disease virus by polyacrylamide gel

electrophoresis of their structural polypeptides, 10 (1985) 347

Variation in foot-and-mouth disease virus isolates in Kenya: an examination of field isolates by T1 oligonucleotide fingerprinting, 10 (1985) 409

Foot-and-mouth disease virus (FMDV) experimental infection: susceptibility and immune response of adult mice, 12 (1986) 15

Host cell modulation of foot-and-mouth disease virus procapsid synthesis, 12 (1986) 329

Routine application of enzyme-linked immunosorbent assay in comparison with complement fixation for the diagnosis of foot-and-mouth and swine vesicular diseases, 16 (1988) 201

A comparison of enzyme-linked immunosorbent assay, complement fixation and virus isolation for foot and mouth disease diagnosis, 17 (1988) 21

A continuous bovine kidney cell line for routine assays of foot-and-mouth disease virus, 18 (1988) 1

Evaluation of techniques to demonstrate foot-and-mouth disease virus in bovine tongue epithelium: comparison of the sensitivity of cattle, mice, primary cell cultures, cryopreserved cell cultures and established cell lines, 20 (1989) 99

Simultaneous vaccination of piglets against foot-and-mouth disease and classical swine fever, 20 (1989) 215

Antibodies to foot-and-mouth disease virus infection associated (VIA) antigen: use of a bioengineered VIA protein as antigen in an ELISA, 20 (1989) 235

The structure of foot-and-mouth disease virus: implications for its physical and biological properties, 23 (1990) 21

Foot-and-mouth disease virus subtyping by sequencing VP1 genes, 23 (1990) 175

A complex-trapping-blocking (CTB) ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. I. Method and characteristics, 24 (1990) 171

A complex-trapping-blocking (CTB) ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. II. Applications, 24 (1990) 179

Footrot

Analysis of the outer membrane proteins of *Bacteroides nodosus*, the causal organism of ovine footrot, 9 (1984) 155

Phagocytosis of *Bacteroides nodosus* by ovine peripheral blood leucocytes, 9 (1984) 169

Motility in relation to virulence of *Bacteroides nodosus*, 10 (1984/1985) 107

Comparative antigenic analysis of extracellular proteins of *Bacteroides nodosus* isolated from virulent and benign ovine footrot, 12 (1986) 135

Protection of sheep against footrot with a recombinant DNA-based fimbrial vaccine, 14 (1987) 393

Fowl cholera

Studies on *Pasteurella multocida*. IV. Immunofluorescence detection of the organisms in spleen and lungs of turkeys vaccinated with live oral vaccines, 1 (1976) 3

Fowl plague virus

Relationships of influenza A viruses with avian subtype 1 hemagglutinin including the fowl plague viruses, 4 (1979) 101

The pathogenicity of three Australian fowl plague viruses for chickens, turkeys and ducks, 4 (1979) 223

Fowlpox virus

A fowlpox virus vaccine vector with insertion sites in the terminal repeats: demonstration of its efficacy using the fusion gene of Newcastle disease virus, 23 (1990) 305

Fox

Use of recombinant vaccinia–rabies virus for oral vaccination of fox cubs (*vulpes vulpes*) against rabies, 18 (1988) 103

Oral immunization of foxes with avirulent rabies virus mutants, 23 (1990) 259

Fusobacterium necrophorum

Location of *Treponema hyodysenteriae* and synergistic anaerobic bacteria in colonic lesions of gnotobiotic pigs, 6 (1981) 69

Jaw disease in macropod marsupials: bacterial flora isolated from lesions and from the mouths of affected animals, 8 (1983) 373

Studies on the purification of the leucocidin of *Fusobacterium necrophorum* and its neutralization by specific antisera, 11 (1986) 357

Generation of immunity against *Fusobacterium necrophorum* in mice inoculated with extracts containing leucocidin, 12 (1986) 255

***Fusobacterium* spp.**

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Genetics

Characteristics of the genomes of equine rotaviruses, 5 (1980) 243

Genetic stability of the thermal, trypsin, rabbit and mouse markers of Aujeszky's disease (pseudorabies) virus in the pig, 6 (1981) 225

Electrophoretic comparison of the genomes of North American bluetongue viruses, one Australian bluetongue virus, and three other related orbiviruses, 7 (1982) 285

Rapid methods for comparing the double-stranded RNA genome profiles of bluetongue virus, 8 (1983) 543

Phenotypic and genetic relationships of so-called *Moraxella (Pasteurella) anatipestifer* to the *Flavobacterium/Cytophaga* group, 11 (1986) 261

Characterisation of rotavirus isolates from sub-clinically infected calves by genome profile analysis, 13 (1987) 27

Genome analysis of African swine fever virus isolated in Italy in 1983, 14 (1987) 101

Genetic reassortment of bluetongue virus Serotype 11 strains in the bovine, 15 (1987) 11

Mapping of porcine parvovirus DNA and development of a diagnostic DNA probe, 17 (1988) 29

A perspective on equine infectious anemia with an emphasis on vector transmission and genetic analysis, 17 (1988) 251

Genetic variation between New Zealand and Western Samoan Isolates of Aujeszky's disease virus, 17 (1988) 335

Cross-neutralization of genetic reassortants of bluetongue virus Serotypes 20 and 21, 19 (1989) 37

Genetic and antigenic relatedness between *Mycoplasma gallisepticum* and *Mycoplasma synoviae*, 19 (1989) 75

Oligonucleotide fingerprint analysis of the genomes of two variants of bluetongue virus Serotype 2 isolated in the U.S.A., 20 (1989) 369

Identification and genetic mapping of proteins encoded in the fimbrial subunit region of *Bacteroides nodosus*, 22 (1990) 53

Possession of identical nonconjugative plasmids by different isolates of *Pasteurella multocida* does not imply clonality, 22 (1990) 79

Identification of the gene homologous to HSV major DNA binding protein in the BHV-1 genome, 22 (1990) 203

A study of the predominant genotypes of bovid herpesvirus 1 found in the U.K., 22 (1990) 213

Genetic drift of equine 2 influenza A virus (H3N8), 1963–1988: analysis by oligonucleotide mapping, 22 (1990) 225

DNA probes for the detection of toxin genes in *Escherichia coli* isolated from diarrhoeal disease in cattle and pigs, 22 (1990) 277

Equine herpesvirus type 1: detection of viral DNA sequences in aborted fetuses with the polymerase chain reaction, 22 (1990) 373

Pestiviruses: a review, 23 (1990) 35

The expression of the *Autographa californica* nuclear polyhedrosis virus genome in insect cells, 23 (1990) 73

Marker vaccines, virus protein-specific antibody assays and the control of Aujeszky's disease, 23 (1990) 85

Molecular biology of transmissible gastroenteritis virus, 23 (1990) 147

Foot-and-mouth disease virus subtyping by

sequencing VP1 genes, 23 (1990) 175

Nucleotide sequence of hog cholera virus RNA: properties of the polyprotein encoded by the open reading frame spanning the viral genomic RNA, 23 (1990) 185

Rapid detection of pseudorabies virus genomic sequences in biological samples from infected pigs using polymerase chain reaction DNA amplification, 23 (1990) 317

Expression of fowl adenovirus type 10 antigens in *Escherichia coli*, 24 (1990) 105

Nine DNA probes for detection of toxin and adhesin genes in *Escherichia coli* isolated from diarrhoeal disease in animals, 25 (1990) 55

Genital tract

Comparison between strains of infectious bovine rhinotracheitis virus (*Bovid herpesvirus 1*), from respiratory and genital origins, using polyacrylamide gel electrophoresis of structural proteins, 5 (1980) 187

Capsule types of *Klebsiella pneumoniae* isolated from the genital tract of mares with metritis, extra-genital sites of healthy mares and the genital tract of stallions, 15 (1987) 219

Biological and biochemical comparison of bovid herpesvirus-4 strains, 16 (1988) 339

Transmission of bovine virus diarrhoea virus (BVDV) by artificial insemination (AI) with semen from a persistently-infected bull, 17 (1988) 97

Experimental infection of bulls with a genital isolate of bovine herpesvirus-4 and reactivation of latent virus with dexamethasone, 21 (1989) 97

Gentamicin

Probable transmission between animals of a plasmid encoding aminoglycoside 3-N-acetyltransferase IV and dihydrofolate reductase I, 15 (1987) 97

Gerbil

Susceptibility of Mongolian gerbils (*Meriones unguiculatus*) to leptospires and the protective effect of vaccination, 24 (1990) 63

Getah virus

Transplacental infection in mice inoculated with Getah virus, 16 (1988) 129

Clinical and virological observations on swine experimentally infected with Getah virus, 16 (1988) 295

Pathogenicity for horses of original Sagiyama virus, a member of the Getah virus group, 17 (1988) 367

Glanders

Development of an avidin–biotin dot enzyme-linked immunosorbent assay and its comparison with other serological tests for diagnosis of glanders in equines, 25 (1990) 77

Glucan

Protective effect of glucan against experimentally induced staphylococcal mastitis in ewes, 16 (1988) 67

Goat

Transmission experiments with EBL virus in sheep and goats, 1 (1976) 359

Antibodies to Akabane virus in horses, sheep and goats in Japan, 5 (1980) 239

Biochemical characterization of staphylococci isolated from goats, 7 (1982) 463

Udder infection of goats by coagulase-negative staphylococci, 9 (1984) 131

Preparation and evaluation of antigens used in serological tests for caprine syncytial retrovirus antibody in sheep and goat sera, 9 (1984) 581

Rapid detection of *Chlamydia psittaci* in vaginal swabs of aborted ewes and goats by enzyme linked immunosorbent assay (ELISA), 11 (1986) 251

Analysis of caprine IgG1 and IgG2 subclass responses to *Chlamydia psittaci* infection and vaccination, 14 (1987) 125

A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks, 19 (1989) 151

Experimental infection of pregnant goats with swine fever virus, 20 (1989) 207

Observations on the pathogenicity for sheep and goats and the transmissibility of the strain of virus isolated during the rinderpest outbreak in Sri Lanka in 1987, 21 (1989) 309

The serological response to a thermostable Vero cell-adapted rinderpest vaccine under field conditions in Niger, 22 (1990) 119

Caprine arthritis-encephalitis (CAE) and maedi–visna viruses detected by the polymerase chain reaction (PCR), 23 (1990) 329

Growth factor

An evaluation of commercial discs for the determination of the growth factor requirements of avian haemophili, 10 (1984/1985) 125

Guinea pig

Difference in protective immunity of the tongue and feet of guinea pigs vaccinated with foot-and-mouth disease virus type A12 following intradermolingual and footpad challenge, 7 (1982) 97

Ultrastructural changes and antigen localization in tissues from foot-and-mouth disease virus-infected guinea-pigs, 7 (1982) 391

Antibody responses of guinea-pigs, rabbits and pigs to inactivated porcine parvovirus vaccines, 9 (1984) 27

Potentiating effect of adjuvants on humoral immunity to porcine parvovirus vaccines in guinea pigs, 10 (1984/1985) 209

Haemagglutination

Improved hemagglutination of Simbu group arboviruses with higher sodium chloride molarity diluent, 1 (1976) 449

Hemagglutination by calf diarrhea coronavirus, 2 (1977) 83

Factors associated with improved haemagglutination by African horse sickness virus, 7 (1982) 177

Enterotoxigenicity, hemagglutination and cell-surface hydrophobicity in *Aeromonas hydrophila*, *A. sobria* and *A. salmonicida*, 8 (1983) 17

Hemagglutinating and hydrophobic surface properties of salmonellae producing enterotoxin neutralized by cholera anti-toxin, 8 (1983) 443

K99 surface haemagglutinin of enterotoxigenic *E. coli* recognize terminal N-acetylgalactosamine and sialic acid residues of glycophorin and other complex glycoconjugates, 9 (1984) 249

Specificity of purified protein derivative extracts from ten species of *Mycobacteria* killed with phenol in the haemagglutination and haemagglutination inhibition test, 9 (1984) 301

Hemagglutinating activity associated with bovine herpesvirus type 1, 10 (1985) 517

Hemagglutination with rhabdoviruses related to bovine ephemeral fever virus, 11 (1986) 1

Hemagglutination inhibition and virus neutralizing response of rabbits inoculated with bovine herpesvirus 1 subunit vaccine, 13 (1987) 107

In vitro adhesion of K88ab-, K88ac- and K88ad-positive *Escherichia coli* to intestinal villi, to buccal cells and to erythrocytes of weaned piglets, 15 (1987) 201

Effects of proteolytic enzymes on the infectivity, haemagglutinating activity and protein composition of bluetongue virus type 20, 22 (1990) 137

Haemagglutinin

The effect of some inactivating agents and a deprived ionic environment on the haemagglutinin and neuraminidase activities of bovine parainfluenza-3 virus (PIV-3), 1 (1976) 427

Relationships of influenza A viruses with avian subtype 1 hemagglutinin including the fowl plague viruses, 4 (1979) 101

Haemolysis

In vitro studies of haemolysis by *Leptospira interrogans* serovars *pomona* and *ballum*, 11 (1986) 285

Haemolytic activity

Hemolytic activity of Akabane virus, 4 (1979) 261

Haemophilus*—see also *Actinobacillus* and *Taylorella

Haemophilus avium

Occurrence and some properties of neuraminidases in *Haemophilus avium* and *Haemophilus paragallinarum*, 2 (1977) 303

Further characterization of *Haemophilus paragallinarum* and *Haemophilus avium*, 7 (1982) 359

Pathogenicity of Australian isolates of *Haemophilus paragallinarum* and *Haemophilus avium* in chickens, 9 (1984) 77

Haemophilus equigenitalis

Disinfection of the causative agent of contagious equine metritis by Nolvasan and Roccal II, 6 (1981) 59

Contagious equine metritis: experimental infection in the donkey, 10 (1984/1985) 259

Haemophilus paragallinarum

Occurrence and some properties of neuraminidases in *Haemophilus avium* and *Haemophilus paragallinarum*, 2 (1977) 303

Further characterization of *Haemophilus paragallinarum* and *Haemophilus avium*, 7 (1982) 359

Pathogenicity of Australian isolates of *Haemophilus paragallinarum* and *Haemophilus avium* in chickens, 9 (1984) 77

Haemophilus parahaemolyticus

Immune response to *Haemophilus parahaemolyticus* (HP) infection in the pig. I. In vitro tests to detect sensitized cells in the blood of infected and vaccinated animals, 3 (1978) 143

Haemophilus pleuropneumoniae

Studies on haemophilus infection in swine. I. Application of the latex agglutination test to the diagnosis of *Haemophilus pleuropneumoniae* (*H. parahaemolyticus*) infection, 6 (1981) 339

Biochemical and serological identification of strains of *Haemophilus pleuropneumoniae*, 10 (1985) 393

Serotyping of *Haemophilus pleuropneumoniae* in The Netherlands: with emphasis on heterogeneity within serotype 1 and (proposed) serotype 9, 13 (1987) 249

Preparation and characterisation of envelope proteins from *Haemophilus pleuropneumoniae*, 15 (1987) 303

Toxicity of *Haemophilus pleuropneumoniae* to porcine lung macrophages, 19 (1989) 337

Haemophilus somnus

Haemophilus somnus–induced interference with bovine neutrophil functions, 12 (1986) 77

Rapid identification of *Haemophilus somnus*, *Histophilus ovis* and *Actinobacillus seminis* using the API ZYM system, 17 (1988) 75

***Haemophilus* spp.**

An evaluation of commercial discs for the determination of the growth factor requirements of avian haemophili, 10 (1984/1985) 125

Halofuginone

The effect of halofuginone on the excretion of *Salmonella typhimurium* by experimentally infected chickens, 17 (1988) 59

Hamster

The capacity of various fractions of *Pasteurella haemolytica* to stimulate protective immunity in mice and hamsters, 6 (1981) 85

Demonstration of a new intracellular antigen in porcine intestinal adenomatosis and hamster proliferative ileitis, 10 (1985) 303

Pathology of acute *Leptospira interrogans* serotype *icterohaemorrhagiae* infection in the Syrian hamster, 12 (1986) 367

Possible relationship of proliferative enteritis in pigs and hamsters, 15 (1987) 293

***Helleborus odorosus* extract**

Study of the effect of extract from *Helleborus odorus* on the white blood cell count of healthy and leukosis-affected cattle, 1 (1976) 375

Histophilus ovis

Rapid identification of *Haemophilus somnus*, *Histophilus ovis* and *Actinobacillus seminis* using the API ZYM system, 17 (1988) 75

Hog cholera—see Swine fever

Horse

Development of specific in vitro lymphocyte stimulation responses in horses infected with equine infectious anaemia virus, 1 (1976) 31

Studies of passive immunity in foals to equine viral arteritis, 1 (1976) 45

Isolation of *Acholeplasma oculi* from diseased horses in Australia, 2 (1977) 253

The nutritional needs of a continuous passage horse leucocyte culture, 3 (1978) 71

Isolation of *Acholeplasma laidlawii* and *Mycoplasma equigenitalium* from stallion semen, 4 (1979) 177

Experimental immunization against respiratory disease due to equid herpesvirus 1 infection (rhinopneumonitis) using formalin-inactivated virus with various adjuvants, 4 (1979) 209

Direct diagnosis of herpesvirus in equine foetal organs by means of electron microscopy, 4 (1979) 317

A technique for the detection of antibodies against equine rhinovirus using complement mediated haemolysis in agarose gels, 5 (1980) 155

Antibodies to Akabane virus in horses, sheep and goats in Japan, 5 (1980) 239

Characteristics of the genomes of equine rotaviruses, 5 (1980) 243

Disinfection of the causative agent of contagious equine metritis by Nolvasan and Roccal II, 6 (1981) 59

Serological investigation of horse sera for antibodies against mycoplasmas and acholeplasmas, 7 (1982) 147

Factors associated with improved haemagglutination by African horse sickness virus, 7 (1982) 177

Isolation of acholeplasma from horse feces, 7 (1982) 273

Enzyme-linked immunosorbent assay for diagnosis of equine infectious anemia, 7 (1982) 307

Adherence of *Streptococcus equi* on tongue, cheek, and basal epithelial cells of ponies, 8 (1983) 493

The isolation, propagation and characterization of tissue-cultured equine rotaviruses, 9 (1984) 1

Isolation and characteristics of an equine reovirus type 3 and an antibody prevalence survey to reoviruses in horses located in New York State, 9 (1984) 15

Antibodies to Berne virus in horses and other animals, 9 (1984) 523

Attachment of *E. coli*-bearing K88 antigen to equine brush-border membranes, 9 (1984) 561

Identification and characteristics of staphylococci isolated from lesions and normal skin of horses, 10 (1984/1985) 269

Two techniques for detection of antibodies against *Corynebacterium (Rhodococcus) equi* in horse sera, 10 (1984/1985) 293

Molecular pathogenesis of equine coital exanthema: temperature-sensitive function(s) in cells infected with equine herpesviruses, 11 (1986) 221

Ecology of *Rhodococcus (Corynebacterium) equi* in soil on a horse-breeding farm, 12 (1986) 169

Isolation of piliated *Escherichia coli* from diarrheic foals, 12 (1986) 221

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

The pathogenesis of *Rhodococcus equi* pneumonia in foals, 14 (1987) 225

Ecology of *Rhodococcus equi* in horses and their environment on horse-breeding farms, 14 (1987) 233

Rhodococcus equi in fecal and environmental samples from Kansas horse farms, 14 (1987) 251

Dynamics of *Equi*-factor antibodies in sera of foals kept on farms with differing histories of *Rhodococcus equi* pneumonia, 14 (1987) 269

Electron microscopic investigation of intracel-

lular events after ingestion of *Rhodococcus equi* by foal alveolar macrophages, 14 (1987) 295

Interaction of *Rhodococcus equi* with phagocytic cells from *R. equi*-exposed and non-exposed foals, 14 (1987) 307

Humoral immune response of foals to experimental infection with *Rhodococcus equi*, 14 (1987) 321

Rhodococcus equi pneumonia in 48 foals: response to antimicrobial therapy, 14 (1987) 329

Use of erythromycin–rifampin combination in treatment of *Rhodococcus equi* pneumonia, 14 (1987) 337

Diagnosis of *Rhodococcus equi* infection in foals by the agar gel diffusion test with protein antigen, 15 (1987) 105

Capsule types of *Klebsiella pneumoniae* isolated from the genital tract of mares with metritis, extra-genital sites of healthy mares and the genital tract of stallions, 15 (1987) 219

A perspective on equine infectious anemia with an emphasis on vector transmission and genetic analysis, 17 (1988) 251

A radial immunodiffusion enzyme assay for detection of antibody to equine rhinopneumonitis virus (EHV-1) in horse serum, 17 (1988) 315

Pathogenicity for horses of original Sagiyama virus, a member of the Getah virus group, 17 (1988) 367

Passive hemagglutination test for detection of antibodies against *Taylorella (Haemophilus) equigenitalis* in sera of mares, 18 (1988) 155

Antibody isotype responses in the serum and respiratory tract to primary and secondary infections with equine influenza virus (H3N8), 19 (1989) 293

Genetic drift of equine 2 influenza A virus (H3N8), 1963–1988: analysis by oligonucleotide mapping, 22 (1990) 225

Equine herpesvirus type 1: detection of viral DNA sequences in aborted fetuses with the polymerase chain reaction, 22 (1990) 373

Characterisation of *Chlamydia psittaci* isolated from a horse, 24 (1990) 11

Development of an avidin–biotin dot enzyme-linked immunosorbent assay and its comparison with other serological tests for diagnosis of glanders in equines, 25 (1990) 77

Human influenza virus

Human influenza virus infection in mink: serological evidence of infection in summer and autumn, 8 (1983) 251

Hypersensitivity

Onset, kinetics and duration of in vivo and in vitro delayed hypersensitivity responses of neonatal calves sensitized with mycobacterial components, 4 (1979) 169

Delayed-type skin hypersensitivity and in vitro lymphocyte immunostimulation responses of swine following inoculation with *Mycobacterium avium* cell walls and a mycobacterial immunopotentiating glycolipid, 8 (1983) 281

Ibaraki virus

Antigenic relationship of Ibaraki, bluetongue, and epizootic hemorrhagic disease viruses, 3 (1978) 15

Ife virus

Susceptibility of laboratory animals to experimental infection with Ife virus, 22 (1990) 11

Immunity—cat, viruses

Virus shedding and immune responses in cats inoculated with cell culture-adapted feline infectious peritonitis virus, 16 (1988) 145

Clinical and immunologic aspects of FeLV-induced immunosuppression, 17 (1988) 287

Immunity—cattle, bacteria

Induction of immunity in calves to *Mycoplasma bovis* infection of the respiratory tract, 2 (1977) 29

Immunologic and pathologic response of cows to naturally occurring *Mycoplasma bovis* mastitis, 2 (1977) 325

Onset, kinetics and duration of in vivo and in vitro delayed hypersensitivity responses of neonatal calves sensitized with mycobacterial components, 4 (1979) 169

IgG antibody response to *Corynebacterium pyogenes*, *Peptococcus indolicus* and microaerophilic cocci in natural and experimental mastitis, 5 (1980) 19

Crossed immunoelectrophoretic analysis of the antibody response in heifers and dry cows to *Peptococcus indolicus* in experimental and natural heifer mastitis and dry cow mastitis, 5 (1980) 57

Agglutination of *Brucella abortus* cells by sera from cattle experimentally infected with *Escherichia coli*, 5 (1980) 123

Macoplasmacidal action of bovine complement mediated by bovine IgG1, IgG2 or IgM, 6 (1981) 317

Serological response of cattle after vaccination and challenge with *Brucella abortus*, 7 (1982) 165

Bovine IgM and IgG response to *Leptospira interrogans* serovar *hardjo* as measured by enzyme immunoassay, 7 (1982) 577

Immune response of calves following the inoculation of *Mycoplasma dispar* and *Mycoplasma bovis*, 8 (1983) 45

The opsonic activity of bovine milk whey for the phagocytosis and killing by neutrophils of encapsulated and non-encapsulated *Escherichia coli*, 8 (1983) 293

Susceptibility of *Pasteurella haemolytica* to the bactericidal effects of serum, nasal secretions and bronchoalveolar washings from cattle, 8 (1983) 585

Isolation of *Pasteurella haemolytica* and correlation with serum antibody response in clinically normal beef calves, 8 (1983) 601

Analysis and in vivo assay of *B. abortus* agglutinating and non-agglutinating antibodies, 9 (1984) 391

Diffusion in gel-enzyme linked immunosorbent assay (DIG-ELISA) to record the immunoglobulin response of calves vaccinated with *Salmonella*, 10 (1984/1985) 71

Chemiluminescence of bovine alveolar macrophages as an indicator of developing immunity in calves vaccinated with aromatic-dependent *Salmonella*, 10 (1985) 451

Effects of challenge dose on the clinical and immune responses of cattle vaccinated with reduced doses of *Brucella abortus* strain 19, 10 (1985) 561

Antibody response in calves experimentally or naturally exposed to *Mycoplasma bovoculi*, 11 (1986) 93

Bacteriostasis of *Escherichia coli* by bovine lactoferrin, transferrin and immunoglobulins (IgG1, IgG2, IgM) acting alone or in combination, 11 (1986) 103

Production of *Brucella abortus*-specific Protein A-reactive antibodies (IgG_2) in infected and vaccinated cattle, 12 (1986) 43

Haemophilus somnus–induced interference with bovine neutrophil functions, 12 (1986) 77

Cross-reactive antibody in immunity to colisepticemia in calves, 13 (1987) 259

Kinetic analysis of cattle anti-*Brucella abortus* S45/20 non-agglutinating antibodies in antibody-dependent cell-mediated cytotoxicity, 13 (1987) 273

Pasteurella haemolytica cytotoxin: relative susceptibility of bovine leucocytes, 13 (1987) 321

Ingestion and killing of *Pasteurella haemolytica* A1 by bovine neutrophils in vitro, 14 (1987) 61

The immune response to experimental *Pasteurella haemolytica* infection in calves, 14 (1987) 75

Effect of bovine non-agglutinating antibodies on the blood clearance of ^{131}I-labelled *Brucella abortus* strain 45/20, 15 (1987) 121

Ingestion and killing of *Streptococcus agalactiae* by bovine granulocytes in the presence of natural opsonins, 18 (1988) 41

Antibodies to mycobacteria in cattle not infected with *Mycobacterium bovis*, 18 (1988) 51

The specificity of antibody response in experimental and natural bovine paratuberculosis studied by crossed immunoelectrophoresis with intermediate gel, 21 (1989) 67

Immunity—cattle, general

Measurement of immunoglobulins in reproductive tract fluids of bulls, 2 (1977) 1

Immunity—cattle, viruses

Studies on the distribution of γ-globulins and on abnormal globulins from serums of leukotic cattle and sheep, 1 (1976) 363

Study of the effect of extract from *Helleborus odorus* on the white blood cell count of healthy and leukosis-affected cattle, 1 (1976) 375

Biological properties of lymphocytes from leukotic cattle, 1 (1976) 387

The development of antibodies in rabbits and cattle infected experimentally with an African strain of malignant catarrhal fever virus, 2 (1977) 57

Effect of repeated treatment with dexamethasone on the re-excretion pattern of infectious bovine rhinotracheitis virus and humoral immune response, 4 (1979) 149

An experimental inactivated virus vaccine against bovine ephemeral fever. 2. Do neutralizing antibodies protect against infection?, 4 (1979) 197

Effects of some components of the humoral immune response on the replication of bovine herpesvirus type I in tracheal organ cultures, 6 (1981) 129

Inhibitors of bovine parvovirus, coronavirus and rotavirus in precolostral and fetal bovine sera, 6 (1981) 143

Antibody titers in cattle clinically and subclinically infected with bovine leukemia virus, 6 (1981) 167

The effect of antibody and complement on the expression of herpesvirus of bovine malignant catarrhal fever in cultured rabbit lymphocytes, 7 (1982) 325

Immune complexes associated with infection of cattle by the herpesvirus of malignant catarrhal fever, 7 (1982) 335

Production of interferon by bovine peripheral blood monocytes infected with bovid herpesvirus 2, 8 (1983) 69

Suppression of natural cytotoxic activity of lymphocytes from cattle and sheep during the progress of bovine leukosis, 9 (1984) 105

Antibody response of cattle to rinderpest vaccine, 10 (1984/1985) 189

Transmission of virus from serosal fluids and demonstration of antigen in neutrophils and mesothelial cells of cattle infected with bovine ephemeral fever virus, 10 (1984/1985) 199

Development of specific antibodies mediating antibody-dependent cell-mediated cytotoxity following experimental infection of cattle with bovine herpesvirus 1 and subsequent viral reactivation, 11 (1986) 51

Identification of bovine herpesvirus-1 polypeptides involved in serum neutralization, 11 (1986) 213

Homologous and heterologous antibody reactions in sera from cattle naturally infected with bovine ephemeral fever group viruses, 13 (1987) 1

Differences in fluorescent antibody staining of bovine respiratory syncytial virus-infected cells by ovine and bovine sera, 13 (1987) 87

Appearance of slow-reacting and complement-requiring neutralizing antibody in cattle infected with Akabane virus, 14 (1987) 183

Detection of immunological tolerance to bovine spumavirus (BSV) with evidence for salivary excretion and spread of BSV from the tolerant animal, 16 (1988) 35

Influence of immunomodulatory agents on bovine humoral and cellular immune responses to parenteral inoculation with bovine rotavirus vaccines, 17 (1988) 323

Comparison of virologic and serologic responses of lambs and calves infected with bluetongue virus Serotype 10, 18 (1988) 233

Protection against respiratory infection with bovine virus diarrhoea virus by passively acquired antibody, 19 (1989) 195

Antibodies to foot-and-mouth disease virus infection associated (VIA) antigen: use of a bioengineered VIA protein as antigen in an ELISA, 20 (1989) 235

Effects of bovine respiratory disease viruses and isoprinosine on bovine leukocyte function in vitro, 20 (1989) 307

Prevalence of antibodies to four bovine rotavirus strains in different age groups of cattle, 25 (1990) 143

Immunity—chicken, bacteria

Resistance of chickens immunized against *Mycoplasma gallisepticum* is mediated by bursal dependent lymphoid cells, 9 (1984) 509

The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting, 24 (1990) 155

Immunity—chicken, general

Influence of reticuloendotheliosis virus on the severity of *Eimeria tenella* infection in broiler chickens, 9 (1984) 121

Immunity—chicken, viruses

Local immunity in the respiratory tract of the chicken. II. The secretory immune response to Newcastle disease virus and the role of IgA, 2 (1977) 143

Comparison of serological tests for the measurement of the primary immune response to avian infectious bronchitis virus vaccines, 2 (1977) 289

Humoral and cell-mediated immune responses in chickens with infectious bursal disease, 7 (1982) 383

Clinical effects, virological and serological responses in chickens following in-ovo oculation of reticuloendotheliosis virus, 14 (1987) 411

Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens, 15 (1987) 31

Induction of lymphocyte agglutination and lysis by Newcastle disease virus, 15 (1987) 49

Serological response of chickens to oral vaccination with Newcastle disease virus, 16 (1988) 255

Influence of thymic hormone on cell-mediated and humoral immune response in Marek's disease, 19 (1989) 53

The role of the reticuloendothelial system in the immunopathology of Marek's disease, 20 (1989) 223

Immunity—dog, bacteria

Serological responses of dogs to cell wall and internal antigens of *Brucella canis* (*B. canis*), 7 (1982) 35

Immunity—dog, fungi

Humoral immunity in disseminated *Aspergillus terreus* infection in the dog, 16 (1988) 283

Immunity—dog, viruses

Repeated suppression of lymphocyte blastogenesis following vaccinations of CPV-immune dogs with modified-live CPV vaccines, 12 (1986) 201

Immunity—goat, rickettsiae

Analysis of caprine IgG1 and IgG2 subclass responses to *Chlamydia psittaci* infection and vaccination, 14 (1987) 125

Immunity—guinea pig, viruses

Potentiating effect of adjuvants on humoral immunity to porcine parvovirus vaccines in guinea pigs, 10 (1984/1985) 209

Immunity—horse, bacteria

Serological investigation of horse sera for antibodies against mycoplasmas and acholeplasmas, 7 (1982) 147

Attachment of *E. coli*-bearing K88 antigen to equine brush-border membranes, 9 (1984) 561

The immunological response of foals to *Rhodococcus equi*: a review, 14 (1987) 215

Dynamics of *Equi*-factor antibodies in sera of foals kept on farms with differing histories of *Rhodococcus equi* pneumonia, 14 (1987) 269

Rhodococcus equi: equine neutrophil chemiluminescent and bactericidal responses to opsonizing antibody, 14 (1987) 277

The interaction of *Rhodococcus equi* and foal neutrophils in vitro, 14 (1987) 287

Electron microscopic investigation of intracellular events after ingestion of *Rhodococcus equi* by foal alveolar macrophages, 14 (1987) 295

Interaction of *Rhodococcus equi* with phagocytic cells from *R. equi*-exposed and non-exposed foals, 14 (1987) 307

Humoral immune response of foals to experimental infection with *Rhodococcus equi*, 14 (1987) 321

Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline, 19 (1989) 253

Immunity—horse, viruses

Development of specific in vitro lymphocyte stimulation responses in horses infected with equine infectious anaemia virus, 1 (1976) 31

Studies of passive immunity in foals to equine viral arteritis, 1 (1976) 45

Antibodies to Berne virus in horses and other animals, 9 (1984) 523

Antibody isotype responses in the serum and respiratory tract to primary and secondary infections with equine influenza virus (H3N8), 19 (1989) 293

Immunity—lemming, bacteria

Immunogenicity of *Brucella abortus* salt-extractable proteins, 20 (1989) 49

Immunity—mouse, bacteria

Generation of immunity against *Fusobacterium necrophorum* in mice inoculated with extracts containing leucocidin, 12 (1986) 255

Humoral immune response to non-viable *Mycoplasma pulmonis* in mice enhanced by dextran sulfate, 13 (1987) 335

Opsonic activity of anti-flagellar serum against *Clostridium chauvoei* by mouse polymorphonuclear leucocytes, 14 (1987) 81

Cell-mediated and humoral immune response to non-viable *Mycoplasma pulmonis* in mice enhanced by cross-linked ricin, 14 (1987) 145

Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae*, 15 (1987) 341

Mechanism of protection induced in mice against *Erysipelothrix rhusiopathiae* infection by treatment with porcine antiserum to the culture filtrate of an attenuated strain, 17 (1988) 65

Immunity—mouse, viruses

Reconstruction of immunosuppressed mice with mononuclear cells from donors sensitized to foot-and-mouth disease virus (FMDV), 10 (1984/1985) 1

Foot-and-mouth disease virus (FMDV) experimental infection: susceptibility and immune response of adult mice, 12 (1986) 15

Immunity—pig, bacteria

Immunoglobulins IgM and IgM in synovial fluids of swine with erysipelothrix polyarthritis, 1 (1976) 467

Immune response to *Haemophilus parahaemolyticus* (HP) infection in the pig. I. In vitro tests to detect sensitized cells in the blood of infected and vaccinated animals, 3 (1978) 143

Antibody response of swine experimentally infected with *Mycoplasma hyosynoviae*, 7 (1982) 135

Delayed-type skin hypersensitivity and in vitro lymphocyte immunostimulation responses of swine following inoculation with *Mycobacterium avium* cell walls and a mycobacterial immunopotentiating glycolipid, 8 (1983) 281

The effect of oral immunization on the population of lymphocytes migrating to the mammary gland of the sow, 9 (1984) 287

Inhibition of adhesion of *Escherichia coli* K88 antigen by mammary secretions of susceptible and resistant sows, 9 (1984) 477

Development of intestinal antibodies against *Escherichia coli* antigens in piglets with experimental neonatal *E. coli* diarrhoea, 12 (1986) 119

Antiserum against culture filtrate is cross-protective for various serovars of *Erysipelothrix rhusiopathiae*, 14 (1987) 87

Antibodies to *Escherichia coli* J5 core glycolipids in gnotobiotic and conventionally reared piglets, 19 (1989) 283

Colonisation by *Pasteurella multocida* in atrophic rhinitis of pigs and immunity to the osteolytic toxin, 25 (1990) 253

Immunity—pig, viruses

A congenital persistent swine fever infection. II. Immune response to swine fever virus and unrelated antigens, 2 (1977) 133

Antigenicity of structural components from porcine transmissible gastroenteritis virus, 3 (1978/1979) 179

In vitro stimulation of pig lymphocytes after infection and vaccination with Aujeszky's disease virus, 3 (1978/1979) 255

Effects of ambient temperatures on clinical and immune responses of pigs infected with transmissible gastroenteritis virus, 4 (1979) 109

Experimental production of congenital persistent swine fever infections. II. Effect on functions of the immune system, 4 (1979) 133

Effect of infections with swine fever virus of immune functions. I. Response of lymphocytes from blood and lymphoid organs from infected and normal pigs to anti-immunoglobulin serum and protein A, 6 (1981) 41

The porcine humoral response to detergent extracted Aujeszky's disease (pseudorabies) virus antigens, 7 (1982) 515

Effect of infections with swine fever virus on immune functions. II. Lymphocyte response to mitogens and enumeration of lymphocyte subpopulations, 8 (1983) 81

Effect of infections with swine fever virus on immune functions. III. Antibody response to lipopolysaccharide and sheep red blood cells, 8 (1983) 97

Interactions of porcine alveolar macrophages and bone marrow cells with African swine fever virus and virus-infected cells, 8 (1983) 163

The role of interferon in spontaneous cell-mediated cytotoxicity in pigs, 11 (1986) 69

Influence of the vaccination regime on the herd immune response for swine fever, 13 (1987) 143

Cytopathogenic effect of African swine fever virus for pig monocytes: characterization and use in microassay, 14 (1987) 15

Studies of transplacental and perinatal infection with two clones of a single Aujeszky's disease (pseudorabies) virus isolate, 16 (1988) 243

Porcine cytomegalovirus (PCMV) in early gestation, 17 (1988) 117

Aujeszky's disease ELISA: cross-reactions with other herpesvirus antisera, 20 (1989) 1

Natural infection with the porcine respiratory coronavirus induces protective lactogenic immunity against transmissible gastroenteritis, 21 (1989) 1

Antibodies to Aujeszky's disease virus in pigs immunized with purified virus glycoproteins, 24 (1990) 1

Immunity—rabbit, bacteria

Recognition of *Mycoplasma arthritidis* membrane antigens by rats and rabbits: comparison by immunoblotting and radioimmunoprecipitation, 17 (1988) 45

Resistance of some capsular serotype D strains of *Pasteurella multocida* to rabbit polymorphonuclear neutrophil phagocytosis, 20 (1989) 79

Immunity—rabbit, viruses

The development of antibodies in rabbits and cattle infected experimentally with an African strain of malignant catarrhal fever virus, 2 (1977) 57

The effect of antibody and complement on the expression of herpesvirus of bovine malignant catarrhal fever in cultured rabbit lymphocytes, 7 (1982) 325

Hemagglutination inhibition and virus neutralizing response of rabbits inoculated with bovine herpesvirus 1 subunit vaccine, 13 (1987) 107

Immunity—rat, bacteria

Antigenic cross-reactions between *Mycoplasma arthritidis* and rat tissues, 9 (1984) 237

Recognition of *Mycoplasma arthritidis* membrane antigens by rats and rabbits: compar-

ison by immunoblotting and radioimmunoprecipitation, 17 (1988) 45

Experimental induction of arthritis in LEW rats and antibody response to four *Mycoplasma arthritidis* strains, 21 (1989) 41

Cellular immune response of the rat to experimental infection with *Dermatophilus congolensis*, 25 (1990) 283

Immunity—sheep, bacteria

The quantitative estimation of antibody to *Pasteurella haemolytica* in sheep sera using a micro-enzyme-linked immunosorbent assay (ELISA), 3 (1978/1979) 291

The phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 6 (1981) 183

Electron microscopic studies of the interaction between ovine alveolar macrophages and *Mycoplasma ovipneumoniae* in vitro, 8 (1983) 571

Phagocytosis of *Bacteroides nodosus* by ovine peripheral blood leucocytes, 9 (1984) 169

Factors affecting the consecutive and simultaneous coupling with bis-diazotized benzidine of protein antigen to sheep red blood cells, 9 (1984) 193

Reactivity of sera from sheep immunised with individual outer membrane proteins of *Bacteroides nodosus* against heterologous bacterial strains, 9 (1984) 453

Effects of *Pasteurella haemolytica* cytotoxin on ovine peripheral blood leucocytes and lymphocytes obtained from gastric lymph, 10 (1985) 431

The effect of parainfluenza virus type 3 on the phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 11 (1986) 125

Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis*, 15 (1987) 151

Serum and skin surface antibody responses in Merino sheep given three successive inoculations with *Dermatophilus congolensis*, 15 (1987) 209

Inflammatory cell and immune function in Merino sheep with chronic dermatophilosis, 21 (1989) 79

The humoral immune response of lambs experimentally infected with *Mycoplasma ovipneumoniae*, 24 (1990) 143

Immunity—sheep, chlamydia

Immunity to *Chlamydia psittaci* with particular reference to sheep, 25 (1990) 87

Immunity—sheep, general

The effect of parainfluenza virus type 3 and *Pasteurella haemolytica* on oxygen-dependent and oxygen-independent bactericidal mechanisms of ovine pulmonary phagocytic cells, 12 (1986) 147

Immunity—sheep, rickettsia

Tick-borne fever: leucocyte migration inhibition, 7 (1982) 437

Antibody response of the ovine lymph node to experimental infection with an ovine abortion strain of *Chlamydia psittaci*, 21 (1989) 345

Immunity—sheep, viruses

Studies on the distribution of γ-globulins and on abnormal globulins from serums of leukotic cattle and sheep, 1 (1976) 363

Bovine leukosis virus in sheep, lymphocyte modification and surface-immunoglobulin-bearing cell numbers, 5 (1980) 1

The influence of colostral antibodies on the immunization of lambs against adenoviruses, 6 (1981) 191

Akabane virus infection in the pregnant ewe. 1. Growth of virus in the foetus and the development of the foetal immune response, 6 (1981) 197

Suppression of natural cytotoxic activity of lymphocytes from cattle and sheep during the progress of bovine leukosis, 9 (1984) 105

Late immune responses in experimental maedi, 9 (1984) 205

Effect of passively-acquired antibodies and vaccination on the immune response to contagious ecthyma virus, 9 (1984) 515

Virological, clinical and serological responses of sheep infected with tissue culture adapted bluetongue virus serotypes 10, 11, 13 and 17, 10 (1984/1985) 179

Differences in fluorescent antibody staining of bovine respiratory syncytial virus-infected cells by ovine and bovine sera, 13 (1987) 87

The response of the supramammary lymph node of the sheep to secondary infection with orf virus, 14 (1987) 3

A qualitative and quantitative assessment of the humoral antibody response of the sheep to orf virus infection, 15 (1987) 229

Temporal development of bluetongue virus protein-specific antibody in sheep following natural infection, 16 (1988) 231

Comparison of virologic and serologic responses of lambs and calves infected with bluetongue virus Serotype 10, 18 (1988) 233

In vivo and in vitro characteristics of contagious ecthyma virus isolates: host response mechanism, 19 (1989) 23

Immunoblot analysis of the antibody response to ovine lentivirus infections, 19 (1989) 127

Alterations in lymphocyte subpopulations in peripheral blood of sheep persistently infected with border disease virus, 22 (1990) 153

Immunity—turkey, bacteria

Reduced microbicidal activity of peripheral mononuclear phagocytic cells infected with *Pasteurella multocida*, 21 (1989) 283

Immunity—turkey, fungi

Reduced microbicidal activity of peripheral mononuclear phagocytic cells infected with *Pasteurella multocida*, 21 (1989) 283

Immunosuppression

Suppression of immunological responses in rabbits experimentally infected with bovine leukemia virus, 25 (1990) 131

Infectious bovine rhinotracheitis virus

Enhancement of infectious bovine rhinotracheitis virus replication with corticosterone, 2 (1977) 109

Effect of repeated treatment with dexamethasone on the re-excretion pattern of infectious bovine rhinotracheitis virus and humoral immune response, 4 (1979) 149

Comparison between strains of infectious bovine rhinotracheitis virus (*Bovid herpesvirus 1*), from respiratory and genital origins, using polyacrylamide gel electrophoresis of structural proteins, 5 (1980) 187

Identification of envelope and nucleocapsid proteins of infectious bovine rhinotracheitis virus by SDS-polyacrylamide gel electrophoresis, 8 (1983) 57

A comparison of the virulence of three strains of infectious bovine rhinotracheitis virus, 8 (1983) 129

Round table on infectious bovine rhinotracheitis/infectious pustular vulvovaginitis virus infection diagnosis and control, 23 (1990) 361

Eradication of infectious bovine rhinotracheitis in Switzerland: review and prospects, 23 (1990) 363

Infectious bronchitis coronavirus

Purification of infectious bronchitis coronavirus by Sephacryl S-1000 gel chromatography, 21 (1989) 115

Infectious bursal disease virus

Isolation and characterization of attenuated plaque variants of infectious bursal disease virus, 22 (1990) 171

Development and characterization of nucleic acid probes to infectious bursal disease viruses, 24 (1990) 253

Infectious laryngotracheitis virus

Comparison of methods for the isolation and purification of infectious laryngotracheitis virus DNA, 9 (1984) 415

Differentiation between virulent and avirulent strains of infectious laryngotracheitis virus by DNA:DNA hybridization using a cloned DNA marker, 11 (1986) 319

Infectious pancreatic necrosis virus

Detection of infectious pancreatic necrosis virus (IPNV) RNA by hybridization with an oligonucleotide DNA probe, 23 (1990) 211

Influenza virus

Relationships of influenza A viruses with avian subtype 1 hemagglutinin including the fowl plague viruses, 4 (1979) 101

Human influenza virus infection in mink: serological evidence of infection in summer and autumn, 8 (1983) 251

Plaque assay of equine influenza virus, 9 (1984) 187

Effect of intratracheal challenge of fattening pigs previously immunised with an inactivated influenza H_1N_1 vaccine, 11 (1986) 239

The non-specific stimulation of avian peripheral blood lymphocytes from uninfected chickens by paramyxoviruses and influenza viruses, 16 (1988) 181

Insects

Use of the indirect fluorescent antibody technique for the detection of Bluetongue virus antigen in tissue smears from *Culicoides variipennis* (Diptera, Ceratopogonidae), 5 (1980) 13

Isolation of Tibrogargan virus, a new Australian rhabdovirus, from *Culicoides brevitarsis*, 5 (1980) 301

Cullicoides: biological vectors of Akabane virus, 21 (1989) 125

Interferon

Production of interferon by bovine peripheral blood monocytes infected with bovid herpesvirus 2, 8 (1983) 69

The role of interferon in spontaneous cell-mediated cytotoxicity in pigs, 11 (1986) 69

Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens, 15 (1987) 31

Inhibitory effects of ribavirin alone or combined with human alpha interferon on feline infectious peritonitis virus replication in vitro, 20 (1989) 255

Contribution of molecular biology to the study of the porcine interferon system, 23 (1990) 245

Intestinal adenomatosis

Demonstration of a new intracellular antigen in porcine intestinal adenomatosis and hamster proliferative ileitis, 10 (1985) 303

Intestinal tract

Intestinal infection and host response to oral administration of *Mycobacterium johnei* in sheep, 2 (1977) 223

Intestinal changes associated with rotavirus and enterotoxigenic *Escherichia coli* infection in calves, 8 (1983) 35

Attachment of *E. coli*-bearing K88 antigen to equine brush-border membranes, 9 (1984) 561

Screening of pig intestines for K88 non-adhesive phenotype by enzyme immunoassay, 11 (1986) 153

Isolation of anaerobic mollicutes from the intestine of swine, 17 (1988) 151

A spiral microorganism in the stomach of pigs, 24 (1990) 199

Ionophores

In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs, 15 (1987) 65

Iota toxin

Production of Iota toxin by *Clostridium spiroforme*: a requirement for divalent cations, 15 (1987) 115

Iron intake

The effect of different levels of iron intake on the multiplication of *Mycobacterium paratuberculosis* in C57 and C3H mice, 16 (1988) 369

Irradiation

Ionising radiation has no influence on scrapie incubation period in mice, 13 (1987) 211

Iscoms

Iscom of viral envelope proteins protects against Aujeszky's disease, 20 (1989) 143

Iscoms, 23 (1990) 79

Isoprinosine

Effects of bovine respiratory disease viruses and isoprinosine on bovine leukocyte function in vitro, 20 (1989) 307

Jaagsiekte

Further evidence for a retrovirus as the aetiological agent of sheep pulmonary adenomatosis (jaagsiekte), 8 (1983) 237

The etiology and pathogenesis of ovine pulmonary carcinoma (sheep pulmonary adenomatosis), 17 (1988) 219

Jaw disease

Jaw disease in macropod marsupials: bacterial flora isolated from lesions and from the mouths of affected animals, 8 (1983) 373

Johne's disease

The sensitivity and specificity of a modified ELISA for the diagnosis of Johne's disease from a field trial in cattle, 25 (1990) 193

Kagoshima virus

Isolation and preliminary characterization of an orbivirus of the Palyam serogroup from biting midge *Culicoides oxystoma* in Japan, 19 (1989) 1

Kanamycin

Influence of kanamycin on the rumen bacteria and ammonia production in supplemented sheep rumen liquor in vitro, 4 (1979) 247

Kangaroo

Jaw disease in macropod marsupials: bacterial flora isolated from lesions and from the mouths of affected animals, 8 (1983) 373

Kidney

Phenotypical and genotypical characteristics of paired isolates of *Pasteurella multocida* from the lungs and kidneys of slaughtered pigs, 25 (1990) 67

Klebsiella pneumoniae

Enterotoxigenic *Escherichia coli* (ETEC) and *Klebsiella pneumoniae* isolated from dogs with diarrhoea, 10 (1985) 577

Capsule types of *Klebsiella pneumoniae* isolated from the genital tract of mares with metritis, extra-genital sites of healthy mares and the genital tract of stallions, 15 (1987) 219

Koala

Detection of *Chlamydia psittaci* in free-ranging koalas (*Phascolarctos cinereus*): DNA hybridization and immuno-slot blot analyses, 21 (1989) 21

Lactoferrin

Bacteriostatic activity of bovine milk lactoferrin against mastitic bacteria, 11 (1986) 387

Bacteriostatic activity of bovine lactoferrin in mastitic milk, 13 (1987) 159

Lectin agglutination

Lectin agglutination of thermophilic *Campylobacter* species, 15 (1987) 163

Legionella pneumophila

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

Lemming

Immunogenicity of *Brucella abortus* salt-extractable proteins, 20 (1989) 49

Leptospira interrogans

Experimental infection with a *Leptospira hardjo* strain isolated from cattle of the eastern plains of Colombia, 7 (1982) 545

Bovine IgM and IgG response to *Leptospira interrogans* serovar *hardjo* as measured by enzyme immunoassay, 7 (1982) 577

Enzymatic radioimmunoassay for detecting *Leptospira interrogans* serovar *pomona* in the urine of experimentally-infected pigs, 10 (1984/1985) 279

The use of enzyme-linked immunosorbent assay (ELISA) to detect the IgM and IgG antibody response to *Leptospira interrogans* serovars *hardjo*, *pomona* and *tarassovi* in cattle, 10 (1985) 439

In vitro studies of haemolysis by *Leptospira interrogans* serovars *pomona* and *ballum*, 11 (1986) 285

Bovine leptospirosis: experimental serovar *hardjo* infection, 11 (1986) 293

Experimental trials on the use of radioimmunoassay for the detection of leptospiral antigens in urine, 12 (1986) 161

Pathology of acute *Leptospira interrogans* serotype *icterohaemorrhagiae* infection in the Syrian hamster, 12 (1986) 367

Development of an improved selective medium for isolation of leptospires from clinical material, 12 (1986) 377

Detection of leptospires in biological fluids using DNA hybridisation, 15 (1987) 71

Effect of maternal vaccination on the susceptibility of growing pigs to leptospiral infection, 15 (1987) 79

Leptospiral attachment to extracellular matrix of mouse fibroblast (L929) cells, 15 (1987) 89

Opsonic effect of monoclonal antibodies against *Leptospira interrogans* serovar *copenhageni*, 16 (1988) 167

Evaluation of an ELISA for the diagnosis of experimentally induced and naturally occurring *Leptospira hardjo* infections in cattle, 21 (1989) 255

Susceptibility of Mongolian gerbils (*Meriones unguiculatus*) to leptospires and the protective effect of vaccination, 24 (1990) 63

Nucleic acid probe characterizes *Leptospira interrogans* serovars by restriction fragment length polymorphisms, 24 (1990) 355

Leucocidin

Studies on the purification of the leucocidin of *Fusobacterium necrophorum* and its neutralization by specific antisera, 11 (1986) 357

Generation of immunity against *Fusobacterium necrophorum* in mice inoculated with extracts containing leucocidin, 12 (1986) 255

Leucotoxins

Automated colorimetric assay for the detection of *Pasteurella haemolytica* leucotoxin, 12 (1986) 33

Calcium ion involvement in the action of *Pasteurella haemolytica* leukotoxin, 19 (1989) 325

A colourimetric, microplate assay for the leucotoxin of *Pasteurella haemolytica*, 22 (1990) 309

Leukemia—cattle

Special Issue "Virology, Diagnostic Procedures, Epizootiology and Transmission of Bovine Leucosis", 1 (1976) 93–411

Lienotoxicity

Virulence and lienotoxicity of *Bordetella bronchiseptica* in mice, 25 (1990) 199

Listeria monocytogenes

Characterization of *Listeria monocytogenes* isolates by Southern blot hybridization, 24 (1990) 341

"Lumpy-jaw"

Bacteroides ruminicola as a possible cause of "lumpy-jaw" in Bennett's wallabies, 2 (1977) 179

Lysozyme

The role of lysozyme in killing and lysis of coliform bacteria in the bovine animal. 1. Serum and milk concentrations of lysozyme and susceptibility of coliform strains to its action, 4 (1979) 61

The role of lysozyme in killing and lysis of coliform bacteria in the bovine animal. 2. Effect of absorbing serum with bentonite or bacteria, 4 (1979) 73

Maedi–visna virus

Kinetics of maedi virus production in sheep choroid plexus cells, 6 (1981) 1

An indirect enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to maedi-visna virus, 7 (1982) 209

Maeda-visna control in sheep. I. Artificial rearing of colostrum-deprived lambs, 8 (1983) 179

Late immune responses in experimental maedi, 9 (1984) 205

Maedi-visna control in sheep. II. Half-yearly serological testing with culling of positive ewes and progeny, 9 (1984) 445

Breed susceptibility to ovine progressive pneumonia (maeda/visna) virus, 12 (1986) 283

Failure of experimental vaccines to protect against infection with ovine progressive pneumonia (maedi-visna) virus, 13 (1987) 201

Ovine progressive pneumonia (maedi–visna) in sheep, 17 (1988) 237

Immunoblot analysis of the antibody response to ovine lentivirus infections, 19 (1989) 127

Caprine arthritis-encephalitis (CAE) and maedi–visna viruses detected by the polymerase chain reaction (PCR), 23 (1990) 329

Malabsorption syndrome

Characteristics and analysis of electropherotypes of avian reovirus field isolates, 23 (1990) 273

Malignant catarrhal fever virus

Detection of African malignant catarrhal fever virus antigens in cell cultures by immunofluorescence, 1 (1976) 437

Detection of African malignant catarrhal fever virus antigens in cell cultures by immunofluorescence, 1 (1976) 437

The development of antibodies in rabbits and cattle infected experimentally with an African strain of malignant catarrhal fever virus, 2 (1977) 57

Malignant catarrhal fever virus—plaque assay and enhanced neutralisation in hypotonic medium, 4 (1979) 29

Malignant catarrhal fever virus in rabbits—reproduction of clinical disease by cell-free virus and partial protection against such disease by vaccination with inactivated virus, 5 (1980) 161

Antigens and antibodies of malignant catarrhal fever herpesvirus detected by immunodiffusion and counter-immunoelectrophoresis, 5 (1980) 205

The location of primary replication of the herpesvirus of bovine malignant catarrhal fever in rabbits, 6 (1981) 107

Shedding of malignant catarrhal fever virus by wildebeest calves, 6 (1981) 281

The effect of antibody and complement on the expression of herpesvirus of bovine malignant catarrhal fever in cultured rabbit lymphocytes, 7 (1982) 325

Immune complexes associated with infection of cattle by the herpesvirus of malignant catarrhal fever, 7 (1982) 335

Atempts to protect rabbits against challenge with virulent, cell-associated, malignant catarrhal fever virus, 7 (1982) 419

Immunological relationships between malignant catarrhal fever virus (alcelaphine herpesvirus 1) and bovine cytomegalovirus (bovine herpesvirus 3), 16 (1988) 211

Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus), 19 (1989) 205

Man

Simian T-lymphotropic viruses and related human viruses, 17 (1988) 309

Marek's disease virus

Influence of thymic hormone on cell-mediated and humoral immune response in Marek's disease, 19 (1989) 53

The role of the reticuloendothelial system in the immunopathology of Marek's disease, 20 (1989) 223

Marker vaccines

Marker vaccines, virus protein-specific antibody assays and the control of Aujeszky's disease, 23 (1990) 85

Mastitis

Immunologic and pathologic response of cows to naturally occurring *Mycoplasma bovis* mastitis, 2 (1977) 325

Bovine mycoplasma mastitis from intramammary inoculation of small numbers of *Mycoplasma bovis*. I. Microbiology and pathology, 2 (1977) 341

Heifer mastitis and dry-cow mastitis: a bacteriological survey in Sweden, 3 (1978/1979) 213

Quantitation of antibodies to *Corynebacterium pyogenes* in sera from cows. Methods and applications, 4 (1979) 235

IgG antibody response to *Corynebacterium pyogenes*, *Peptococcus indolicus* and microaerophilic cocci in natural and experimental mastitis, 5 (1980) 19

Antigenic analysis of *Peptococcus indolicus* by crossed immunoelectrophoresis, 5 (1980) 35

Crossed immunoelectrophoretic analysis of the antibody response in heifers and dry cows to *Peptococcus indolicus* in experimental and natural heifer mastitis and dry cow mastitis, 5 (1980) 57

Group G type X: a new antigen combination in streptococci isolated from cases of bovine mastitis in Israel, 6 (1981) 383

An examination of *Escherichia coli* strains isolated from cases of bovine mastitis for possible virulence determinants, 8 (1983) 141

Encapsulation of *Staphylococcus aureus* isolated from bovine milk, 8 (1983) 397

Udder infection of goats by coagulase-negative staphylococci, 9 (1984) 131

A case study of *Streptococcus* group G infection in a dairy herd, 9 (1984) 571

The experimental production of mastitis in ewes as a determinant of the virulence of ovine ureaplasma strains, 10 (1984/1985) 117

Bacteriostatic activity of bovine milk lactoferrin against mastitic bacteria, 11 (1986) 387

A comparison of the STAPH-Ident and STAPH-Trac systems to conventional methods in the identification of staphylococci isolated from bovine udders, 12 (1986) 179

Evaluation of a rapid inoculum standardization system for antimicrobial susceptibility testing of bacterial isolates from the bovine mammary gland, 12 (1986) 269

Bacteriostatic activity of bovine lactoferrin in mastitic milk, 13 (1987) 159

The expression of capsule in serum-soft agar by *Staphylococcus aureus* isolated from bovine mastitis, 13 (1987) 225

The potential of the ovine udder as a model to determine the pathogenicity of bovine ureaplasmas, 14 (1987) 157

The detection of obligate anaerobic bacteria in udder secretions of dry cattle with mastitis during summer: a comparison between gas–liquid chromatography and bacteriological culturing methods, 14 (1987) 173

Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions, 15 (1987) 129

Reinfection of bovine mammary glands following dry-cow antibiotic therapy, 15 (1987) 191

Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk, 15 (1987) 315

Etiological agents of bovine mastitis, 16 (1988) 41

Protective effect of glucan against experimentally induced staphylococcal mastitis in ewes, 16 (1988) 67

Colony morphology of *Staphylococcus aureus* in serum-soft agar following in vivo and in vitro growth, 16 (1988) 87

Teat skin normal flora and colonization with mastitis pathogen inhibitors, 17 (1988) 357

Interaction of sub-epithelial connective tissue components with *Staphylococcus aureus* and coagulase-negative staphylococci from bovine mastitis, 18 (1988) 163

The virulence characteristics of strains of *Escherichia coli* isolated from cases of bovine mastitis in England and Wales, 20 (1989) 35

Endotoxin levels in milk and plasma of mastitis-affected cows measured with a chromogenic limulus test, 20 (1989) 267

Bacterial growth in mastitic whey in relation to bacterial association with mastitis, 21 (1989) 155

Summer mastitis in heifers: a bacteriological examination of secretions from clinical cases of summer mastitis in Denmark, 22 (1990) 319

Experimental mastitis caused by *Mycoplasma bovigenitalium* and *M. canadense* in the ewe, 22 (1990) 383

Factors influencing the degree of in vitro bacterial adhesion to ovine mammary gland epithelial cells, 24 (1990) 43

Metritis

Capsule types of *Klebsiella pneumoniae* isolated from the genital tract of mares with metritis, extra-genital sites of healthy mares and the genital tract of stallions, 15 (1987) 219

Milk

The influence of colostrum and milk on the development of lymphocytosis in the bovine, 1 (1976) 327

The role of lysozyme in killing and lysis of coliform bacteria in the bovine animal. 1. Serum and milk concentrations of lysozyme and susceptibility of coliform strains to its action, 4 (1979) 61

Encapsulation of *Staphylococcus aureus* isolated from bovine milk, 8 (1983) 397

Significance of milk as a possible source of infection for human yersiniosis. I. Incidence of *Yersinia* organisms in raw milk in Shimane Prefecture, Japan, 9 (1984) 139

Inhibition of adhesion of *Escherichia coli* K88 antigen by mammary secretions of susceptible and resistant sows, 9 (1984) 477

Suppression of heat-stable enterotoxin production by *Yersinia* spp. in milk, 11 (1986) 163

Bacteriostatic activity of bovine milk lactoferrin against mastitic bacteria, 11 (1986) 387

Role of milk immunoglobulins in the *Brucella* milk ring test, 12 (1986) 359

Bacteriostatic activity of bovine lactoferrin in mastitic milk, 13 (1987) 159

Heat-stable (ST_a) enterotoxin of enterotoxigenic *Escherichia coli*: binding of the enterotoxin to coagulated milk and casein, 13 (1987) 167

Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk, 15 (1987) 315

Development and evaluation of an enzyme-linked immunosorbent assay for endotoxin in milk, 18 (1988) 27

Detection of antibodies to bovine leukemia virus in bovine milk samples with an ELISA involving two monoclonal antibodies, 18 (1988) 89

Endotoxin levels in milk and plasma of mastitis-affected cows measured with a chromogenic limulus test, 20 (1989) 267

Diagnosis of bovine brucellosis by enzyme immunoassay of milk, 24 (1990) 73

Milk whey

The opsonic activity of bovine milk whey for the phagocytosis and killing by neutrophils of encapsulated and non-encapsulated *Escherichia coli*, 8 (1983) 293

Mink

Mechanisms of anemia in Aleutian disease viral infection of mink, 4 (1979) 17

Human influenza virus infection in mink: serological evidence of infection in summer and autumn, 8 (1983) 251

A non-haemagglutinating isolate of mink enteritis virus, 9 (1984) 345

Assessment of elastase as a *Pseudomonas aeruginosa* virulence factor in experimental lung infection in mink, 13 (1987) 281

The propagation of feline panleukopenia virus in microcarrier cell culture and use of the inactivated virus in the protection of mink against viral enteritis, 13 (1987) 371

Mink enteritis virus

Comparison of the viral proteins of canine parvovirus-2, mink enteritis virus and feline panleukopenia virus, 8 (1983) 423

A non-haemagglutinating isolate of mink enteritis virus, 9 (1984) 345

A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples, 15 (1987) 1

Characterization of biological and antigenic properties of raccoon dog and blue fox parvoviruses: a monoclonal antibody study, 16 (1988) 219

Monkey

Natural infection with canine distemper virus in a Japanese monkey (*Macaca fuscata*), 20 (1989) 193

Monoclonal antibodies—bacteria

Isolation and characterization of monoclonal antibodies against pili of *Corynebacterium renale* and *Corynebacterium pilosum*, 13 (1987) 75

Opsonic effect of monoclonal antibodies against *Leptospira interrogans* serovar *copenhageni*, 16 (1988) 167

Monoclonal antibodies for coagglutination of *Streptococcus suis* Type 1, 20 (1989) 349

Evaluation of monoclonal antibodies to K88, K99, F41 and 987P fimbrial adhesins for the detection of porcine enterotoxigenic *Escherichia coli* in paraffin-wax tissue sections, 20 (1989) 377

Monoclonal antibodies—chlamydia

Monoclonal antibodies to *Chlamydia psittaci* guinea pig inclusion conjunctivitis (GPIC) strain, 22 (1990) 43

Monoclonal antibodies—viruses

Production of monoclonal antibodies against swine fever virus and their use in laboratory diagnosis, 12 (1986) 101

Monoclonal antibodies to canine adenoviruses 1 and 2 that are type-specific by virus neutralization and immunofluorescence, 16 (1988) 1

Production and characterization of monoclonal antibodies to bovid herpesvirus-4, 19 (1989) 305

Characterization of monoclonal and polyclonal antibodies to bovine enteric coronavirus: establishment of an efficient ELISA for antigen detection in feces, 20 (1989) 111

Comparative analysis of monoclonal antibodies against pestiviruses: report of an international workshop, 20 (1989) 123

Monoclonal antibodies to Quebec strain (Q_{17}) of bovine rotavirus, 23 (1990) 283

A complement-dependent neutralizing monoclonal antibody against glycoprotein II of pseudorabies virus, 24 (1990) 193

Comparison of rinderpest and peste des petits ruminants viruses using anti-nucleoprotein monoclonal antibodies, 25 (1990) 1

Moraxella anatipestifer

Phenotypic and genetic relationships of so-called *Moraxella (Pasteurella) anatipestifer* to the *Flavobacterium/Cytophaga* group, 11 (1986) 261

Moraxella bovis

Growth requirements for *Moraxella bovis*, 9 (1984) 593

Characterisation of the outer membrane protein antigens of British field isolates of *Moraxella bovis*, 15 (1987) 181

Chemical composition of lipopolysaccharide from *Moraxella bovis*, 20 (1989) 165

Morbillivirus

Mass mortality in seals caused by a newly discovered virus-like morbillivirus, 23 (1990) 343

Characterisation of the European seal morbillivirus, 23 (1990) 351

Morbillivirus—general

Morbillivirus group: genome organisation and proteins, 23 (1990) 155

Pathological findings indicative of distemper in European seals, 23 (1990) 331

Mouse

Changes in the metabolism of polyadenylated RNA commencing early in the incubation period of scrapie in the mouse, 2 (1977) 193

Early distribution of radioactive liposomes and scrapie infectivity in mouse tissues following administration by different routes, 4 (1979) 89

Factors in scrapie-infected mouse tissues that influence the metabolism of polyadenylated-RNA in cell cultures, 4 (1979) 305

The evaluation of an experimental porcine herpesvirus 1 (Aujeszky's disease virus) subunit vaccine in mice, 5 (1980) 291

The capacity of various fractions of *Pasteurella haemolytica* to stimulate protective immunity in mice and hamsters, 6 (1981) 85

Mouse scrapie and polyadenylated RNA metabolism in L cells, 6 (1981) 375

Polyadenylated RNA and scrapie in mice, 7 (1982) 267

A report of an outbreak of *Salmonella oranienburg* in a hybrid mouse colony, 8 (1983) 105

The pathogenicity in mice of respiratory, abortion and paresis isolates of equine herpesvirus-1, 8 (1983) 301

Immunodiffusion test antigen from bluetongue virus-infected newborn mouse brains, 8 (1983) 363

Lack of evidence for the occurrence of *Pasteurella ureae* in rodents, 9 (1984) 83

Pathogenesis of mouse scrapie: distribution of agent in the pulp and stroma of infected spleens, 9 (1984) 215

Reconstruction of immunosuppressed mice with mononuclear cells from donors sensitized to foot-and-mouth disease virus (FMDV), 10 (1984/1985) 1

Foot-and-mouth disease virus (FMDV) experimental infection: susceptibility and immune response of adult mice, 12 (1986) 15

Comparison of the virulence in mice of some ovine isolates of *Chlamydia psittaci*, 12 (1986) 213

Protective efficacy of capsule extracts of *Haemophilus pleuropneumoniae* in pigs and mice, 12 (1986) 229

Generation of immunity against *Fusobacterium necrophorum* in mice inoculated with extracts containing leucocidin, 12 (1986) 255

Ionising radiation has no influence on scrapie incubation period in mice, 13 (1987) 211

Humoral immune response to non-viable *Mycoplasma pulmonis* in mice enhanced by dextran sulfate, 13 (1987) 335

Opsonic activity of anti-flagellar serum against *Clostridium chauvoei* by mouse polymorphonuclear leucocytes, 14 (1987) 81

Antiserum against culture filtrate is cross-protective for various serovars of *Erysipelothrix rhusiopathiae*, 14 (1987) 87

Cell-mediated and humoral immune response to non-viable *Mycoplasma pulmonis* in mice enhanced by cross-linked ricin, 14 (1987) 145

Experimental infection of mice with *Rhodococcus equi*: differences in virulence between strains, 14 (1987) 259

Relative rates of Aujeszky's disease virus attenuation, as assessed in mice, 15 (1987) 249

Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae*, 15 (1987) 341

Transplacental infection in mice inoculated with Getah virus, 16 (1988) 129

The effect of different levels of iron intake on the multiplication of *Mycobacterium paratuberculosis* in C57 and C3H mice, 16 (1988) 369

Mechanism of protection induced in mice against *Erysipelothrix rhusiopathiae* infection by treatment with porcine antiserum to the culture filtrate of an attenuated strain, 17 (1988) 65

Protection of mice against the lethal effect of an intraperitoneal infection with *Haemophilus (Actinobacillus) pleuropneumoniae* after vaccination with capsular proteins, 18 (1988) 335

The airborne survival of *Pasteurella haemolytica* and its deposition in and clearance from the mouse lung, 21 (1989) 363

Isolation and characterization of temperature-sensitive mutants of *Streptococcus suis*: efficacy trial of the mutant vaccine in mice, 22 (1990) 257

Bacterial activity in the sera of mice vaccinated with *Pasteurella multocida* type A, 24 (1990) 55

Virulence and lienotoxicity of *Bordetella bronchiseptica* in mice, 25 (1990) 199

Grouping of *Actinobacillus pleuropneumoniae* strains of serotypes 1 through 12 on the basis of their virulence in mice, 25 (1990) 229

Mucosal disease

Comparison by the neutralisation assay of pairs of non-cytopathogenic and cytopathogenic strains of bovine virus diarrhoea virus isolated from cases of mucosal disease, 13 (1987) 361

Pathogenesis of mucosal disease and molecular aspects of bovine virus diarrhoea virus, 23 (1990) 371

Muscle

Effects and bioassay of *Escherichia coli* enterotoxin (heat-stable fraction) on smooth muscle, 2 (1977) 313

Mycobacterium avium

Delayed-type skin hypersensitivity and in vitro lymphocyte immunostimulation responses of swine following inoculation with *Mycobacterium avium* cell walls and a mycobacterial immunopotentiating glycolipid, 8 (1983) 281

Mycobacterium bovis

Development of a whole blood lymphocyte stimulation assay for detecting hypersensitivity to PPD in cattle experimentally infected with *Mycobacterium bovis*, 2 (1977) 261

Onset, kinetics and duration of in vivo and in vitro delayed hypersensitivity responses of neonatal calves sensitized with mycobacterial components, 4 (1979) 169

Mycobacterium bovis infection in the brushtailed possum (*Trichosurus vulpecula*): I. Preliminary observations on experimental infection, 5 (1980) 309

Mycobacterium bovis infection in the brushtailed possum (*Trichosurus vulpecula*): II. Comparison of experimental infections with an Australian cattle strain and a New Zealand possum strain, 6 (1981) 351

Survival of *Mycobacterium bovis* in defined environmental conditions, 10 (1984/1985) 193

Antibodies to mycobacteria in cattle not infected with *Mycobacterium bovis*, 18 (1988) 51

An evaluation of 1-hexadecylpyridinium chloride as a decontaminant in the primary isolation of *Mycobacterium bovis* from bovine lesions, 18 (1988) 127

Identification of *Mycobacterium bovis* isolates using a monoclonal antibody, 18 (1988) 191

Advantages of a new agar medium in the primary isolation of *Mycobacterium bovis*, 20 (1989) 89

Rapid confirmatory identification of *Mycobacterium bovis* using a dot blotting immunodetection technique, 22 (1990) 335

The development and evaluation of an enzyme-linked immunosorbent assay for the detection of *Mycobacterium bovis*, 24 (1990) 205

Mycobacterium johnei

Comparison of fluorescent antibody tests for tuberculosis and paratuberculosis with antigens coupled to insoluble spheres or taken up by macrophages, 2 (1977) 39

Intestinal infection and host response to oral administration of *Mycobacterium johnei* in sheep, 2 (1977) 223

Mycobacterium paratuberculosis

The effect of different levels of iron intake on the multiplication of *Mycobacterium paratuberculosis* in C57 and C3H mice, 16 (1988) 369

Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture, 19 (1989) 183

Analysis of restriction endonuclease fragment patterns of DNA from *Mycobacterium paratuberculosis*, 19 (1989) 189

The specificity of antibody response in experimental and natural bovine paratuberculosis studied by crossed immunoelectrophoresis with intermediate gel, 21 (1989) 67

Growth of *Mycobacterium paratuberculosis* in radiometric, Middlebrook and egg-based media, 22 (1990) 31

The sensitivity and specificity of a modified ELISA for the diagnosis of Johne's disease from a field trial in cattle, 25 (1990) 193

***Mycobacterium* spp.**

Branched *Mycobacterium*-like organisms from swine lymph nodes, 7 (1982) 157

Specificity of purified protein derivative extracts from ten species of *Mycobacteria* killed with phenol in the haemagglutination and haemagglutination inhibition test, 9 (1984) 301

Mycobacterium tuberculosis

Comparison of fluorescent antibody tests for tuberculosis and paratuberculosis with antigens coupled to insoluble spheres or taken up by macrophages, 2 (1977) 39

Mycoplasma agalactiae

A radial growth precipitation test and its comparison with certain other serological tests for detection of antibody in bovine sera to *Mycoplasma agalactiae* subsp. *bovis*, 1 (1976) 23

Mycoplasma arginini

Comparison of virulence of ovine respiratory mycoplasmas in the mouse mammary gland, 9 (1984) 367

Mycoplasma arthritidis

Antigenic cross-reactions between *Mycoplasma arthritidis* and rat tissues, 9 (1984) 237

Recognition of *Mycoplasma arthritidis* membrane antigens by rats and rabbits: comparison by immunoblotting and radioimmunoprecipitation, 17 (1988) 45

Experimental induction of arthritis in LEW rats and antibody response to four *Mycoplasma arthritidis* strains, 21 (1989) 41

Mycoplasma bovigenitalium

Experimental mastitis caused by *Mycoplasma bovigenitalium* and *M. canadense* in the ewe, 22 (1990) 383

Mycoplasma bovis

Induction of immunity in calves to *Mycoplasma bovis* infection of the respiratory tract, 2 (1977) 29

Immunologic and pathologic response of cows to naturally occurring *Mycoplasma bovis* mastitis, 2 (1977) 325

Bovine mycoplasma mastitis from intramammary inoculation of small numbers of *Mycoplasma bovis*. I. Microbiology and pathology, 2 (1977) 341

Immunoprophylaxis of experimental *Mycoplasma bovis* arthritis in calves. Protective efficacy of live organisms and formalinized vaccines, 5 (1980) 113

Changes in plasma fibrinogen levels in experimental *Mycoplasma bovis* arthritis in calves, 5 (1980) 215

Macoplasmacidal action of bovine complement mediated by bovine IgG1, IgG2 or IgM, 6 (1981) 317

Growth of *Mycoplasma bovis* in organ cultures of bovine foetal trachea and comparison with *Mycoplasma dispar*, 13 (1987) 189

The effect of *Mycoplasma bovis* on fertilization processes in vitro with bull spermatozoa and zona-free hamster oocytes, 21 (1989) 329

Mycoplasma bovoculi

Antibody response in calves experimentally or naturally exposed to *Mycoplasma bovoculi*, 11 (1986) 93

Mycoplasma canadense

Experimental mastitis caused by *Mycoplasma bovigenitalium* and *M. canadense* in the ewe, 22 (1990) 383

Mycoplasma capricolum

Pathogenicity of *Mycoplasma capricolum* in sheep after experimental infection, 14 (1987) 137

Mycoplasma dispar

Growth of *Mycoplasma bovis* in organ cultures of bovine foetal trachea and comparison with *Mycoplasma dispar*, 13 (1987) 189

An improved method for the identification of *Mycoplasma dispar*, 14 (1987) 25

Mycoplasma equigenitalium

Isolation of *Acholeplasma laidlawii* and *Mycoplasma equigenitalium* from stallion semen, 4 (1979) 177

Mycoplasma flocculare

The growth response of *Mycoplasma hyopneumoniae* and *Mycoplasma flocculare* based upon ATP-dependent luminometry, 24 (1990) 135

Mycoplasma gallisepticum

Infection of the chicken with a virulent or avirulent strain of *Mycoplasma gallisepticum* alone and together with Newcastle disease virus or *E. coli* or both, 4 (1979) 35

Resistance of chickens immunized against *Mycoplasma gallisepticum* is mediated by bursal dependent lymphoid cells, 9 (1984) 509

Decrease in catalase activity of cultured cells by *Mycoplasma gallisepticum* infection, 13 (1987) 343

Genetic and antigenic relatedness between *Mycoplasma gallisepticum* and *Mycoplasma synoviae*, 19 (1989) 75

DNA probes for *Mycoplasma gallisepticum* and *Mycoplasma synoviae*: application in experimentally infected chickens, 20 (1989) 323

The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting, 24 (1990) 155

Mycoplasma hyopneumoniae

A comparative study of the complement fixation test for *Mycoplasma hyopneumoniae* in SPF and non-SPF herds of swine in Illinois, 1 (1976) 459

Adaptation of a latex agglutination tube test for diagnosis of *Mycoplasma hyopneumoniae* swine pneumonia, 4 (1979) 157

The growth response of *Mycoplasma hyopneumoniae* and *Mycoplasma flocculare* based upon ATP-dependent luminometry, 24 (1990) 135

Evaluation of the ELISA and comparison to the complement fixation test and radial immunodiffusion enzyme assay for detection of antibodies against *Mycoplasma hyopneumoniae* in swine serum, 25 (1990) 177

Mycoplasma hyosynoviae

Antibody response of swine experimentally infected with *Mycoplasma hyosynoviae*, 7 (1982) 135

Mycoplasma meleagridis

Comparison of seven isolates of *Mycoplasma meleagridis*, 7 (1982) 61

Antigenic analysis of three strains of *Mycoplasma meleagridis* of varying pathogenicity, 18 (1988) 373

Mycoplasma moatsii

Isolation of *Mycoplasma moatsii* from the intestine of wild Norway rats (*Rattus norvegicus*), 22 (1990) 23

Mycoplasma mobile

Surface parasitism of the fish mycoplasma *Mycoplasma mobile* 163 K on tracheal epithelial cells, 21 (1989) 339

Mycoplasma mycoides

A passive haemagglutination test for detection of antibodies against *Mycoplasma mycoides* subsp. *mycoides* using glutaraldehyde-fixed sheep erythrocytes, 7 (1982) 343

Mycoplasma ovipneumoniae

Infection of specific-pathogen-free lambs with parainfluenza virus type 3, *Pasteurella haemolytica* and *Mycoplasma ovipneumoniae*, 6 (1981) 295

Electron microscopic studies of the interaction between ovine alveolar macrophages and *Mycoplasma ovipneumoniae* in vitro, 8 (1983) 571

Comparison of virulence of ovine respiratory mycoplasmas in the mouse mammary gland, 9 (1984) 367

Experimental infection of sheep with *Mycoplasma ovipneumoniae* and *Pasteurella haemolytica*, 9 (1984) 543

Colonisation of the respiratory tract of lambs by strains of *Mycoplasma ovipneumoniae*, 10 (1985) 533

Comparison of *Mycoplasma ovipneumoniae* isolates using bacterial restriction endonuclease DNA analysis and SDS-PAGE, 10 (1985) 541

Polypeptide and antigenic variability among strains of *Mycoplasma ovipneumoniae* demonstrated by SDS—PAGE and immunoblotting, 21 (1989) 241

The humoral immune response of lambs experimentally infected with *Mycoplasma ovipneumoniae*, 24 (1990) 143

Mycoplasma pulmonis

Humoral immune response to non-viable *Mycoplasma pulmonis* in mice enhanced by dextran sulfate, 13 (1987) 335

Cell-mediated and humoral immune response to non-viable *Mycoplasma pulmonis* in mice enhanced by cross-linked ricin, 14 (1987) 145

Mycoplasma salivarium

Isolation of *Mycoplasma salivarium* from swine, 16 (1988) 385

***Mycoplasma* spp.**

Detection of mycoplasma in cell cultures: how reliable is the uridine/uracil uptake ratio method?, 3 (1978) 167

Respiratory infections in housed sheep, with particular reference to mycoplasmas, 4 (1979) 47

Serological investigation of horse sera for antibodies against mycoplasmas and acholeplasmas, 7 (1982) 147

Prevalence of *Mycoplasma* and *Chlamydia* in the basal flora of dairy calves, 7 (1982) 351

Immune response of calves following the inoculation of *Mycoplasma dispar* and *Mycoplasma bovis*, 8 (1983) 45

A comparison of the effect of tiamulin hydrogen fumarate and tylosin tartrate on mycoplasmas of ruminants and some animal ureaplasmas, 9 (1984) 147

Identification of Mycoplasmatales in pneumonic calf lungs, 11 (1986) 79

In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs, 15 (1987) 65

Mycoplasma synoviae

Genetic and antigenic relatedness between *Mycoplasma gallisepticum* and *Mycoplasma synoviae*, 19 (1989) 75

DNA probes for *Mycoplasma gallisepticum* and *Mycoplasma synoviae*: application in experimentally infected chickens, 20 (1989) 323

The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting, 24 (1990) 155

Nairobi sheep disease virus

Physical and biological properties of Nairobi sheep disease virus, 8 (1983) 531

Neisseria cuniculi

Isolation of *Neisseria cuniculi* from a case of ovine pneumonia, 21 (1989) 185

Neuraminidase

Occurrence and some properties of neuraminidases in *Haemophilus avium* and *Haemophilus paragallinarum*, 2 (1977) 303

Newcastle disease virus

Local immunity in the respiratory tract of the chicken. II. The secretory immune response to Newcastle disease virus and the role of IgA, 2 (1977) 143

Studies on a phosphodiesterase activity associated with Newcastle disease virus, 2 (1977) 213

Some properties of lentogenic Australian Newcastle disease virus, 3 (1978) 129

Infection of the chicken with a virulent or avirulent strain of *Mycoplasma gallisepticum* alone and together with Newcastle disease virus or *E. coli* or both, 4 (1979) 35

Humoral and cell-mediated immune responses in chickens with infectious bursal disease, 7 (1982) 383

Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection, 15 (1987) 41

Induction of lymphocyte agglutination and lysis by Newcastle disease virus, 15 (1987) 49

The non-specific stimulation of avian peripheral blood lymphocytes from uninfected chickens by paramyxoviruses and influenza viruses, 16 (1988) 181

Serological response of chickens to oral vaccination with Newcastle disease virus, 16 (1988) 255

Avian paramyxoviridae—recent developments, 23 (1990) 103

A fowlpox virus vaccine vector with insertion sites in the terminal repeats: demonstration of its efficacy using the fusion gene of Newcastle disease virus, 23 (1990) 305

Nolvasan

Disinfection of the causative agent of contagious equine metritis by Nolvasan and Roccal II, 6 (1981) 59

Oncogenic viruses—general

RNA oncogenic viruses: A very short overview, 1 (1976) 103

Orbivirus—general

Isolation and preliminary characterization of an orbivirus of the Palyam serogroup from biting midge *Culicoides oxystoma* in Japan, 19 (1989) 1

Orf virus

The response of the supramammary lymph node of the sheep to secondary infection with orf virus, 14 (1987) 3

A qualitative and quantitative assessment of the humoral antibody response of the sheep to orf virus infection, 15 (1987) 229

Ovine adenovirus

Experimental infection of lambs with an adenovirus of ovine origin, 2 (1977) 67

Light and electron microscope studies of the growth of ovine adenoviruses in primary lamb kidney cell cultures, 4 (1979) 293

Adenovirus vaccination of pregnant ewes and studies on the colostral immunity of their lambs, 5 (1980) 73

The influence of colostral antibodies on the immunization of lambs against adenoviruses, 6 (1981) 191

Ovine contagious epididymitis

Ovine contagious epididymites: a review, 7 (1982) 551

Ovine enzootic abortion

A simple staining method for the identification of chlamydial elementary bodies in the fetal membranes of sheep affected by ovine enzootic abortion, 21 (1989) 233

Ovine retrovirus

Further evidence for a retrovirus as the aetiological agent of sheep pulmonary adenomatosis (jaagsiekte), 8 (1983) 237

Papillomas

Rumen papillomas in sheep, 10 (1984/1985) 219

Papillomavirus

Detection of papillomavirus DNA in precancerous lesions of the ears of sheep, 25 (1990) 103

Parainfluenza virus 3

The pathogenesis of sequential infection with parainfluenza virus type 3 and *Pasteurella haemolytica* in sheep, 6 (1981) 173

Infection of specific-pathogen-free lambs with parainfluenza virus type 3, *Pasteurella haemolytica* and *Mycoplasma ovipneumoniae*, 6 (1981) 295

Experimental parainfluenza type 3 infection in young lambs: clinical, microbiological, and serological response, 8 (1983) 437

Serological studies of parainfluenza type 3 virus, bovine adenovirus type 3 and bovine respiratory syncytial virus infection in beef calves, 9 (1984) 587

The effect of parainfluenza virus type 3 on the phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 11 (1986) 125

The effect of parainfluenza virus type 3 and *Pasteurella haemolytica* on oxygen-dependent and oxygen-independent bactericidal mechanisms of ovine pulmonary phagocytic cells, 12 (1986) 147

Paramyxoviridae—general

Avian paramyxoviridae—recent developments, 23 (1990) 103

From rabies to rabies-related viruses, 23 (1990) 115

Paramyxovirus

Recovery of viral agents from the central nervous system of cats, 9 (1984) 355

Parapox virus

A parapoxvirus isolated from nasal secretion of a calf with respiratory disease, 4 (1979) 85

Paratuberculosis

The specificity of antibody response in experimental and natural bovine paratuberculosis studied by crossed immunoelectrophoresis with intermediate gel, 21 (1989) 67

Parvovirus—general

Unusual characteristics of a parvovirus isolated from a clinically ill steer, 11 (1986) 61

Pasteurella*—see also *Moraxella

Pasteurella haemolytica

The quantitative estimation of antibody to *Pasteurella haemolytica* in sheep sera using a micro-enzyme-linked immunosorbent assay (ELISA), 3 (1978/1979) 291

The capacity of various fractions of *Pasteurella haemolytica* to stimulate protective immunity in mice and hamsters, 6 (1981) 85

The pathogenesis of sequential infection with parainfluenza virus type 3 and *Pasteurella haemolytica* in sheep, 6 (1981) 173

The phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 6 (1981) 183

Infection of specific-pathogen-free lambs with parainfluenza virus type 3, *Pasteurella haemolytica* and *Mycoplasma ovipneumoniae*, 6 (1981) 295

Experimental infection of lambs with an adenovirus followed by *Pasteurella haemolytica*, 7 (1982) 369

Cytotoxic effect of *Pasteurella haemolytica* on ovine bronchoalveolar macrophages in vitro, 8 (1983) 3

Antigenic relationships between the serotypes of *Pasteurella haemolytica* demonstrable by enzyme-linked immunosorbent assay (ELISA), 8 (1983) 187

Specificity of the enzyme-linked immunosorbent assay (ELISA) for antibodies in the sera of specific pathogen-free lambs vaccinated with *Pasteurella haemolytica* antigens, 8 (1983) 199

Susceptibility of *Pasteurella haemolytica* to the bactericidal effects of serum, nasal secretions and bronchoalveolar washings from cattle, 8 (1983) 585

Isolation of *Pasteurella haemolytica* and correlation with serum antibody response in clinically normal beef calves, 8 (1983) 601

Experimental infection of sheep with *Mycoplasma ovipneumoniae* and *Pasteurella haemolytica*, 9 (1984) 543

Effects of *Pasteurella haemolytica* cytotoxin on ovine peripheral blood leucocytes and lymphocytes obtained from gastric lymph, 10 (1985) 431

Pasteurella haemolytica: purification of saline-extractable proteins by isoelectrofocusing, 10 (1985) 465

The effect of parainfluenza virus type 3 on the phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 11 (1986) 125

Cytotoxic effect of serotypes of *Pasteurella haemolytica* on sheep bronchoalveolar macrophages, 11 (1986) 331

Cytotoxin from an ovine strain of *Pasteurella haemolytica*: characterization studies and partial purification, 11 (1986) 337

Automated colorimetric assay for the detection of *Pasteurella haemolytica* leucotoxin, 12 (1986) 33

The effect of parainfluenza virus type 3 and *Pasteurella haemolytica* on oxygen-

dependent and oxygen-independent bactericidal mechanisms of ovine pulmonary phagocytic cells, 12 (1986) 147

Measurement of *Pasteurella haemolytica*-specific lung and serum antibodies by ELISA, 12 (1986) 337

Pasteurella haemolytica cytotoxin: relative susceptibility of bovine leucocytes, 13 (1987) 321

Ingestion and killing of *Pasteurella haemolytica* A1 by bovine neutrophils in vitro, 14 (1987) 61

The immune response to experimental *Pasteurella haemolytica* infection in calves, 14 (1987) 75

A rapid micro-method for the study of antibody-mediated killing of bacteria, with specific application to infection of sheep with *Pasteurella haemolytica*, 16 (1988) 263

Comparison of the toxic and antigenic properties of single bovine isolates of *Pasteurella haemolytica* representing five serotypes and an untypable strain, 16 (1988) 351

A crude cytotoxin vaccin protects sheep against experimental *Pasteurella haemolytica* Serotype A2 infection, 19 (1989) 175

Calcium ion involvement in the action of *Pasteurella haemolytica* leukotoxin, 19 (1989) 325

Protection of lambs against experimental pneumonic pasteurellosis by transfer of immune serum, 20 (1989) 59

Comparing different isolates of *Pasteurella haemolytica* from beef calves using their in vitro antimicrobial sensitivity patterns, 20 (1989) 73

Purification and characterization of a 94-kDa *Pasteurella haemolytica* antigen, 21 (1989) 57

The airborne survival of *Pasteurella haemolytica* and its deposition in and clearance from the mouse lung, 21 (1989) 363

The effect of *Pasteurella haemolytica* cytotoxin on bovine polymorphonuclear leukocytes can be attenuated by β-adrenoceptor antagonists, 22 (1990) 259

A colourimetric, microplate assay for the leucotoxin of *Pasteurella haemolytica*, 22 (1990) 309

Resistance to host immune defence mechanisms afforded by capsular material of *Pasteurella haemolytica*, serotype 1, 25 (1990) 241

Pasteurella multocida

Isolation and characterisation of bacteria from pyothorax (empyaemia) in cats, 7 (1982) 455

A test in Vero cell monolayers for toxin production by strains of *Pasteurella multocida* isolated from pigs suspected of having atrophic rhinitis, 9 (1984) 503

A protective antigen for turkey's purified from a type 1 strain of *Pasteurella multocida*, 10 (1984/1985) 43

Immunogenicity of potassium thyocyanate extract of type A *Pasteurella multocida*, 11 (1986) 373

Bordetella bronchiseptica and toxigenic type D *Pasteurella multocida* as agents of severe atrophic rhinitis of swine, 13 (1987) 179

Purification of a heat labile dermonecrotic toxin from culture fluid of *Pasteurella multocida*, 13 (1987) 235

Resistance of some capsular serotype D strains of *Pasteurella multocida* to rabbit polymorphonuclear neutrophil phagocytosis, 20 (1989) 79

Serum resistance is correlated with encapsulation of avian strains of *Pasteurella multocida*, 21 (1989) 177

Reduced microbicidal activity of peripheral mononuclear phagocytic cells infected with *Pasteurella multocida*, 21 (1989) 283

Possession of identical nonconjugative plasmids by different isolates of *Pasteurella multocida* does not imply clonality, 22 (1990) 79

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Bacterial activity in the sera of mice vaccinated with *Pasteurella multocida* type A, 24 (1990) 55

The influence of growth conditions of *Pasteurella multocida* on its ability to colonise the nasal mucosa of SPF piglets, 24 (1990) 81

Phenotypical and genotypical characteristics of paired isolates of *Pasteurella multocida* from the lungs and kidneys of slaughtered pigs, 25 (1990) 67

Colonisation by *Pasteurella multocida* in atrophic rhinitis of pigs and immunity to the osteolytic toxin, 25 (1990) 253

Pasteurella ureae

Lack of evidence for the occurrence of *Pasteurella ureae* in rodents, 9 (1984) 83

Pathogenesis—adenovirus, general

Experimental infection of lambs with an adenovirus followed by *Pasteurella haemolytica*, 7 (1982) 369

Pathogenesis—*Aeromonas* spp.

Enterotoxigenicity, hemagglutination and cell-surface hydrophobicity in *Aeromonas hydrophila*, *A. sobria* and *A. salmonicida*, 8 (1983) 17

Pathogenesis—Akabane virus

Akabane virus infection in the pregnant ewe. 2. Pathology of the foetus, 6 (1981) 209

Pathogenesis—Aleutian disease virus

Mechanisms of anemia in Aleutian disease viral infection of mink, 4 (1979) 17

Pathogenesis—Aujeszky's disease virus

Aujeszky's disease of sheep: experimental studies on the excretion and horizontal transmission of the virus, 13 (1987) 353

Pathogenesis—avian influenza virus

Intracerebral pathogenicity for chickens of avian influenza viruses isolated from free-living waterfowl in Japan, 18 (1988) 357

Pathogenesis—bluetongue virus

Bluetongue virus serotypes 20 and 17 infections in sheep: comparison of clinical and serological responses, 7 (1982) 189

Pathogenesis—*Bordetella bronchiseptica*

The pathogenesis of turbinate atrophy in pigs caused by *Bordetella bronchiseptica*, 18 (1988) 135

Pathogenesis—bovine adenovirus

Studies on the cytopathology of bovine adenoviruses in calf testis and calf kidney cell cultures, 3 (1978/1979) 241

Pathogenesis—bovine ephemeral fever virus

Studies on the pathogenesis of bovine ephemeral fever in sentinel cattle. I. Virology and serology, 10 (1985) 493

Studies on the pathogenesis of bovine ephemeral fever in sentinel cattle. II. Haematological and biochemical data, 10 (1985) 505

Pathogenesis—bovine herpesvirus

Experimental infection of rabbits with bovine herpesvirus-4: acute and persistent infection, 7 (1982) 503

The DNA of an IPV strain of bovid herpesvirus 1 in sacral ganglia during latency after intravaginal infection, 9 (1984) 53

Ovarian lesions in heifers exposed to infectious bovine rhinotracheitis virus by non-genital routes on the day after breeding, 10 (1984/1985) 155

Pathogenesis—bovine leukemia virus

Isolation of an agent apparently identical to bovine leukemia virus from a case of leukosis in Denmark, 1 (1976) 389

Preliminary communication on results of studies on juvenile bovine leukaemia, 1 (1976) 393

Bovine leukosis in twin calves, 1 (1976) 397

Role of the spleen in the pathogenesis of experimentally induced bovine leukemia virus infection, 7 (1982) 411

Studies of foetuses from cows clinically affected with bovine leucosis, 8 (1983) 505

Pathogenesis—bovine respiratory syncytial virus

Pathogenesis of bovine respiratory syncytial virus in experimentally infected lambs, 23

(1990) 267

Pathogenesis—bovine viral diarrhoea-mucosal disease virus

Pathogenesis of bovine viral diarrhoea-mucosal disease (BVD-MD) virus infection in tracheal organ cultures, 5 (1980) 257

Pathogenesis—bovine viral diarrhoea virus

Pathogenesis of mucosal disease and molecular aspects of bovine virus diarrhoea virus, 23 (1990) 371

Pathogenesis—*Brucella abortus*

Experimental *Brucella abortus* infection in pigs, 14 (1987) 365

Pathogenesis—Cache Valley virus

Isolations of Cache Valley virus in Texas, 1981, 13 (1987) 11

Evidence that Cache Valley virus induces congenital malformations in sheep, 21 (1989) 297

Pathogenesis—*Chlamydia psittaci*

Relationship between virulence of *Chlamydia psittaci* strains and establishment of persistent infection of McCoy cells, 19 (1989) 65

Pathogenesis—coronavirus, general

The pathogenesis of an enteric infection in pigs, experimentally induced by the coronavirus-like agent, CV 777, 6 (1981) 157

Pathogenesis—*Ehrlichia risticii*

Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline, 19 (1989) 253

Pathogenesis—equine herpesvirus

The pathogenicity in mice of respiratory, abortion and paresis isolates of equine herpesvirus-1, 8 (1983) 301

Pathogenicity of equine herpesvirus 1 subtype 2 for foals and adult pony mares, 9 (1984) 533

Molecular pathogenesis of equine coital exanthema: temperature-sensitive function(s) in cells infected with equine herpesviruses, 11 (1986) 221

Molecular pathogenesis of equine coital exanthema: identification and expression of infected cell polypeptides at the restricted temperature during equine herpesvirus 3 infection, 18 (1988) 363

Pathogenesis—*Erysipelothrix rhusiopathiae*

Correlation between adherence of *Erysipelothrix rhusiopathiae* strains of serovar 1a to tissue culture cells originated from porcine kidney and their pathogenicity in mice and swine, 13 (1987) 57

Serological and pathogenic characterization of *Erysipelothrix rhusiopathiae* isolates from tonsils of slaughter pigs in Indonesia, 21 (1989) 165

Pathogenesis—*Escherichia coli*

Septicaemic *Escherichia coli* and experimental infection of calves, 12 (1986) 109

Enteric infections caused by non-enterotoxigenic *Escherichia coli* in animals: occurrence and pathogenicity mechanisms. A review, 14 (1987) 33

Effect of experimentally-induced villus atrophy on adhesion of K88ac-positive *Escherichia coli* in just-weaned piglets, 17 (1988) 159

In vitro adhesion of K88ac$^+$ *Escherichia coli* to Peyer's patch and peripheral blood lymphocytes, buccal and rectal epithelial cells or intestinal epithelial brush borders of weaned pigs, 20 (1989) 357

Pathogenesis—feline infectious peritonitis virus

The sites of early viral replication in feline infectious peritonitis, 18 (1988) 259

Pathogenesis—foot-and-mouth disease virus

Ultrastructural changes and antigen localization in tissues from foot-and-mouth disease virus-infected guinea-pigs, 7 (1982) 391

Foot-and-mouth disease virus (FMDV) experimental infection: susceptibility and immune response of adult mice, 12 (1986) 15

Pathogenesis—fowl plague virus

The pathogenicity of three Australian fowl plague viruses for chickens, turkeys and ducks, 4 (1979) 223

Pathogenesis—Getah virus

Clinical and virological observations on swine experimentally infected with Getah virus, 16 (1988) 295

Pathogenicity for horses of original Sagiyama virus, a member of the Getah virus group, 17 (1988) 367

Pathogenesis—*Haemophilus* spp.

Pathogenicity of Australian isolates of *Haemophilus paragallinarum* and *Haemophilus avium* in chickens, 9 (1984) 77

Pathogenesis—*Leptospira interrogans*

Experimental infection with a *Leptospira hardjo* strain isolated from cattle of the eastern plains of Colombia, 7 (1982) 545

Bovine leptospirosis: experimental serovar *hardjo* infection, 11 (1986) 293

Pathology of acute *Leptospira interrogans* serotype *icterohaemorrhagiae* infection in the Syrian hamster, 12 (1986) 367

Leptospiral attachment to extracellular matrix of mouse fibroblast (L929) cells, 15 (1987) 89

Pathogenesis—Marek's disease virus

The role of the reticuloendothelial system in the immunopathology of Marek's disease, 20 (1989) 223

Pathogenesis—*Mycobacterium bovis*

Mycobacterium bovis infection in the brush-tailed possum (*Trichosurus vulpecula*): I. Preliminary observations on experimental infection, 5 (1980) 309

Mycobacterium bovis infection in the brush-tailed possum (*Trichosurus vulpecula*): II. Comparison of experimental infections with an Australian cattle strain and a New Zealand possum strain, 6 (1981) 351

Pathogenesis—*Mycoplasma bovis*

Immunologic and pathologic response of cows to naturally occurring *Mycoplasma bovis* mastitis, 2 (1977) 325

Bovine mycoplasma mastitis from intramammary inoculation of small numbers of *Mycoplasma bovis*. I. Microbiology and pathology, 2 (1977) 341

Pathogenesis—*Mycoplasma capricolum*

Pathogenicity of *Mycoplasma capricolum* in sheep after experimental infection, 14 (1987) 137

Pathogenesis—*Mycoplasma ovipneumoniae*

Experimental infection of sheep with *Mycoplasma ovipneumoniae* and *Pasteurella haemolytica*, 9 (1984) 543

Pathogenesis—*Mycoplasma* spp.

Growth of *Mycoplasma bovis* in organ cultures of bovine foetal trachea and comparison with *Mycoplasma dispar*, 13 (1987) 189

Pathogenesis—Newcastle disease virus

Induction of lymphocyte agglutination and lysis by Newcastle disease virus, 15 (1987) 49

Pathogenesis—parainfluenza virus

The pathogenesis of sequential infection with parainfluenza virus type 3 and *Pasteurella haemolytica* in sheep, 6 (1981) 173

Experimental parainfluenza type 3 infection in young lambs: clinical, microbiological, and serological response, 8 (1983) 437

Pathogenesis—*Pasteurella haemolytica*

The pathogenesis of sequential infection with parainfluenza virus type 3 and *Pasteurella haemolytica* in sheep, 6 (1981) 173

Experimental infection of lambs with an adenovirus followed by *Pasteurella haemolytica*, 7 (1982) 369

Cytotoxic effect of *Pasteurella haemolytica* on ovine bronchoalveolar macrophages in vitro, 8 (1983) 3

Experimental infection of sheep with *Mycoplasma ovipneumoniae* and *Pasteurella haemolytica*, 9 (1984) 543

Cytotoxic effect of serotypes of *Pasteurella haemolytica* on sheep bronchoalveolar macrophages, 11 (1986) 331

Pathogenesis—porcine enterovirus

Effect of actinomycin D on the cytopathology and replication of porcine enteroviruses, 2 (1977) 275

Pathogenesis—porcine haemagglutinating encephalomyelitis virus

Inducement of cytopathic changes and plaque formation by porcine haemagglutinating encephalomyelitis virus, 8 (1983) 521

Pathogenesis—porcine parvovirus

Pathogenicity of a skin isolate of porcine parvovirus in swine fetuses, 15 (1987) 19

Pathogenesis—reticuloendotheliosis virus

Clinical effects, virological and serological responses in chickens following in-ovo oculation of reticuloendotheliosis virus, 14 (1987) 411

Pathogenesis—retrovirus, ovine

The etiology and pathogenesis of ovine pulmonary carcinoma (sheep pulmonary adenomatosis), 17 (1988) 219

Pathogenesis—rinderpest

Observations on the pathogenicity for sheep and goats and the transmissibility of the strain of virus isolated during the rinderpest outbreak in Sri Lanka in 1987, 21 (1989) 309

Pathogenesis—rotavirus, general

Intestinal changes associated with rotavirus and enterotoxigenic *Escherichia coli* infection in calves, 8 (1983) 35

Pathogenesis—scrapie

Changes in the metabolism of polyadenylated RNA commencing early in the incubation period of scrapie in the mouse, 2 (1977) 193

Pathogenesis of mouse scrapie: distribution of agent in the pulp and stroma of infected spleens, 9 (1984) 215

Pathogenesis—stomatitis papulosa virus

Comparisons between two isolates of stomatitis papulosa virus, 7 (1982) 109

Pathogenesis—swine fever virus

Experimental production of congenital persistent swine fever infections. I. Clinical, pathological and virological observations, 4 (1979) 117

Experimental infection of pregnant goats with swine fever virus, 20 (1989) 207

Pathogenesis—*Ureaplasma* spp.

The potential of the ovine udder as a model to determine the pathogenicity of bovine ureaplasmas, 14 (1987) 157

Peptococcus indolicus

IgG antibody response to *Corynebacterium pyogenes*, *Peptococcus indolicus* and microaerophilic cocci in natural and experimental mastitis, 5 (1980) 19

Antigenic analysis of *Peptococcus indolicus* by crossed immunoelectrophoresis, 5 (1980) 35

Crossed immunoelectrophoretic analysis of the antibody response in heifers and dry cows to *Peptococcus indolicus* in experimental and natural heifer mastitis and dry cow mastitis, 5 (1980) 57

Peptostreptococcus anaerobius

Isolation and characterisation of bacteria from pyothorax (empyaemia) in cats, 7 (1982) 455

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Periodontitis

Preliminary study of the anaerobic bacteria isolated from subgingival plaque from sheep, 21 (1989) 139

Peste des petits ruminants virus

The epidemiology of peste des petits ruminants in the Sultanate of Oman, 22 (1990) 341

Comparison of rinderpest and peste des petits ruminants viruses using anti-nucleoprotein monoclonal antibodies, 25 (1990) 1

Pestivirus—general

Identification of hog cholera viral isolates by use of monoclonal antibodies to pestiviruses, 16 (1988) 315

Comparative analysis of monoclonal antibodies against pestiviruses: report of an international workshop, 20 (1989) 123

Characterization of porcine and some ruminant pestiviruses by cross-neutralization, 20 (1989) 291

Pestiviruses: a review, 23 (1990) 35

Phagocytosis

Reduced microbicidal activity of peripheral mononuclear phagocytic cells infected with *Pasteurella multocida*, 21 (1989) 283

Phosphodiesterase activity

Studies on a phosphodiesterase activity associated with Newcastle disease virus, 2 (1977) 213

Physicochemical features

Physico-chemical properties of calf diarrhoea coronavirus, 2 (1977) 73

Physicochemical properties of Akabane virus: a member of the Simbu arbovirus group of the family Bunyaviridae, 3 (1978) 45

Physico-chemical and morphological characteristics of avian encephalomyelitis virus, 5 (1980) 87

Comparison of surface hydrophobicity of piliated and non-piliated clones of *Corynebacterium renale* and *Corynebacterium pilosum*, 14 (1987) 165

The ecology of *Rhodococcus equi* and physicochemical influences on growth, 14 (1987) 241

Picornavirus—general

Immunodiffusion reactions among porcine enteroviruses and other picornaviruses, 2 (1977) 205

Pig—*Actinobacillus pleuropneumoniae*

Protective efficacy of capsule extracts of *Haemophilus pleuropneumoniae* in pigs and mice, 12 (1986) 229

Biochemical and serological properties of *Actinobacillus pleuropneumoniae* biotype 2 strains isolated from swine, 20 (1989) 173

Pig—African swine fever virus

Detection of African swine fever virus antigen and antibody by radioimmunoassay, 5 (1980) 169

Interactions of porcine alveolar macrophages and bone marrow cells with African swine fever virus and virus-infected cells, 8 (1983) 163

The virus of African swine fever: perspectives for a vaccine, 23 (1990) 129

Effect of macrophage-specific colony-stimulating factor (CSF-1) on swine monocyte/macrophage susceptibility to in vitro infection by African swine fever virus, 25 (1990) 153

Pig—anaerobic mollicutes, general

Isolation of anaerobic mollicutes from the intestine of swine, 17 (1988) 151

Pig—Aujeszky's disease virus

In vitro stimulation of pig lymphocytes after infection and vaccination with Aujeszky's disease virus, 3 (1978/1979) 255

Genetic stability of the thermal, trypsin, rabbit and mouse markers of Aujeszky's disease (pseudorabies) virus in the pig, 6 (1981) 225

The porcine humoral response to detergent extracted Aujeszky's disease (pseudorabies) virus antigens, 7 (1982) 515

The evaluation of a lectin–agarose based subunit vaccine and complementary diagnostic antigen for Aujeszky's disease (pseudorabies) in the pig, 9 (1984) 35

Intranasal vaccination of pigs against Aujeszky's disease. 4. Comparison with one or two doses of an inactivated vaccine in pigs with moderate maternal antibody titres, 10 (1985) 401

The rapid detection of Aujeszky's disease virus in pigs by direct immunoperoxidase labelling, 10 (1985) 481

Evaluation of a diagnostic antigen for the detection of Aujeszky's disease virus-infected subunit-vaccinated pigs, 11 (1986) 25

Four-layer enzyme immunoassay (EIA) detection of differences in IgG, IgM and IgA antibody response to Aujeszky's disease virus in infected and vaccinated pigs, 13 (1987) 121

Effect of intratesticular inoculation with Aujeszky's disease virus on genital organs of boars, 14 (1987) 355

Studies of transplacental and perinatal infection with two clones of a single Aujeszky's disease (pseudorabies) virus isolate, 16 (1988) 243

Horizontal transmission of Aujeszky's disease virus from sheep to pigs, 19 (1989) 245

Extent and duration of virulent virus excretion upon challenge of pigs vaccinated with different glycoprotein-deleted Aujeszky's disease vaccines, 22 (1990) 107

Marker vaccines, virus protein-specific antibody assays and the control of Aujeszky's disease, 23 (1990) 85

Rapid detection of pseudorabies virus genomic sequences in biological samples from infected pigs using polymerase chain reaction DNA amplification, 23 (1990) 317

Antibodies to Aujeszky's disease virus in pigs immunized with purified virus glycoproteins, 24 (1990) 1

Dectection of latent pseudorabies virus in swine using in situ hybridization, 24 (1990) 273

Pig—bacteria, general

The detection of obligate anaerobic bacteria in swine abscesses. A comparison between gas–liquid chromatography and bacteriological culturing methods, 8 (1983) 389

Pig—*Bacteroides vulgatus*

Location of *Treponema hyodysenteriae* and synergistic anaerobic bacteria in colonic lesions of gnotobiotic pigs, 6 (1981) 69

Pig—*Blastocystis* sp.

Blastocystis sp. infections in pigs, 3 (1978/1979) 227

Pig—*Bordetella bronchiseptica*

Bordetella bronchiseptica and toxigenic type D *Pasteurella multocida* as agents of severe atrophic rhinitis of swine, 13 (1987) 179

The pathogenesis of turbinate atrophy in pigs caused by *Bordetella bronchiseptica*, 18 (1988) 135

Studies on the antigenic relationships of six adherent isolates of *Bordetella bronchiseptica*, 18 (1988) 327

Pig—bovine herpesvirus

Isolation of infectious bovine rhinotracheitis virus from a latently infected feral pig, 14 (1987) 191

Pig—*Brucella abortus*

Experimental *Brucella abortus* infection in pigs, 14 (1987) 365

Pig—*Campylobacter* spp.

Demonstration of a new intracellular antigen in porcine intestinal adenomatosis and hamster proliferative ileitis, 10 (1985) 303

Possible relationship of proliferative enteritis in pigs and hamsters, 15 (1987) 293

Species-specific DNA probes for *Campylobacter* species isolated from pigs with proliferative enteritis, 24 (1990) 367

Pig—*Campylobacter sputorum*

The experimental infection of neonatal pigs with *Campylobacter sputorum* subspecies *mucosalis* with special reference to the oral cavity, 5 (1980) 249

Pig—coronavirus, general

The pathogenesis of an enteric infection in pigs, experimentally induced by the coronavirus-like agent, CV 777, 6 (1981) 157

Enzyme-linked immunosorbent assay for the detection of the coronavirus-like agent and its antibodies in pigs with porcine epidemic diarrhea, 7 (1982) 295

Pig—*Eperythrozoon suis*

Detection of *Eperythrozoon suis* DNA from swine blood by whole organism DNA hybridizations, 24 (1990) 127

Pig—*Erysipelothrix rhusiopathiae*

Immunoglobulins IgM and IgM in synovial fluids of swine with erysipelothrix polyarthritis, 1 (1976) 467

Serological and pathogenic characterization of *Erysipelothrix rhusiopathiae* isolates from tonsils of slaughter pigs in Indonesia, 21 (1989) 165

Pig—*Escherichia coli*

Evaluation of low nutrient, high fibre diets for the prevention of porcine *Escherichia coli* enterotoxaemia, 3 (1978/1979) 281

Cultural methods for the production of heat-stable enterotoxin by porcine strains of *Escherichia coli* and its detection by the infant mouse test, 7 (1982) 253

The effect of oral immunization on the population of lymphocytes migrating to the mammary gland of the sow, 9 (1984) 287

Antimicrobial drug resistance in porcine enterotoxigenic *Escherichia coli* of 0-group 149 and non-enterotoxigenic *Escherichia coli*, 9 (1984) 467

Inhibition of adhesion of *Escherichia coli* K88 antigen by mammary secretions of susceptible and resistant sows, 9 (1984) 477

Screening of pig intestines for K88 non-adhesive phenotype by enzyme immunoassay, 11 (1986) 153

Colonization antigens, antibiotic resistance and plasmid content of enterotoxigenic *Escherichia coli* isolated from piglets with diarrhoea in Galicia (north-western Spain), 11 (1986) 271

Development of intestinal antibodies against *Escherichia coli* antigens in piglets with experimental neonatal *E. coli* diarrhoea, 12 (1986) 119

Preliminary characterization of *Escherichia coli* isolated from pigs with diarrhoea in Venezuela, 13 (1987) 47

Features of enterotoxigenic *Escherichia coli* strains of porcine origin that express K88 and 987P fimbrial antigens, 13 (1987) 65

Virulence factors in *Escherichia coli* isolated from piglets with neonatal and post-weaning diarrhea in Japan, 13 (1987) 291

In vitro adhesion of K88ab-, K88ac- and K88ad-positive *Escherichia coli* to intestinal villi, to buccal cells and to erythrocytes of weaned piglets, 15 (1987) 201

Detection of enterotoxigenic *Escherichia coli* in piggeries in Victoria by DNA hybridisation using K88, K99, LT, ST_1 and ST_2 probes, 16 (1988) 273

Effect of experimentally-induced villus atrophy on adhesion of K88ac-positive *Escherichia coli* in just-weaned piglets, 17 (1988) 159

Unusual serotypes of *Escherichia coli* from piglet diarrhea in North Spain, 17 (1988) 375

Antimicrobial resistance of fecal coliforms from pigs in a herd not exposed to antimicrobial agents for 126 months, 18 (1988) 147

Effects of exogenous amino acids on the multiplication of porcine *Escherichia coli*, 19 (1989) 263

Antibodies to *Escherichia coli* J5 core glycolipids in gnotobiotic and conventionally reared piglets, 19 (1989) 283

In vitro adhesion of K88ac$^+$ *Escherichia coli* to Peyer's patch and peripheral blood lymphocytes, buccal and rectal epithelial cells or intestinal epithelial brush borders of weaned pigs, 20 (1989) 357

DNA probes for the detection of toxin genes in *Escherichia coli* isolated from diarrhoeal disease in cattle and pigs, 22 (1990) 277

Characteristics of the Shiga-like toxin produced by *Escherichia coli* associated with

porcine edema disease, 24 (1990) 89

Adhesive fimbriae produced in vivo by *Escherichia coli* O139:K12(B):H1 associated with enterotoxaemia in pigs, 25 (1990) 267

Pig—foot-and-mouth disease virus

A serological and biochemical study of new field isolates of foot-and-mouth disease virus type A in Peru, 1975 to 1981, 8 (1983) 555

A comparison of enzyme-linked immunosorbent assay, complement fixation and virus isolation for foot and mouth disease diagnosis, 17 (1988) 21

Simultaneous vaccination of piglets against foot-and-mouth disease and classical swine fever, 20 (1989) 215

Pig—*Fusobacterium necrophorum*

Location of *Treponema hyodysenteriae* and synergistic anaerobic bacteria in colonic lesions of gnotobiotic pigs, 6 (1981) 69

Pig—Getah virus

Clinical and virological observations on swine experimentally infected with Getah virus, 16 (1988) 295

Pig—*Haemophilus parahaemolyticus*

Immune response to *Haemophilus parahaemolyticus* (HP) infection in the pig. I. In vitro tests to detect sensitized cells in the blood of infected and vaccinated animals, 3 (1978) 143

Pig—*Haemophilus pleuropneumoniae*

Studies on haemophilus infection in swine. I. Application of the latex agglutination test to the diagnosis of *Haemophilus pleuropneumoniae* (*H. parahaemolyticus*) infection, 6 (1981) 339

Toxicity of *Haemophilus pleuropneumoniae* to porcine lung macrophages, 19 (1989) 337

Pig—herpesvirus, general

Aujeszky's disease ELISA: cross-reactions with other herpesvirus antisera, 20 (1989) 1

Pig—influenza virus

Effect of intratracheal challenge of fattening pigs previously immunised with an inactivated influenza H_1N_1 vaccine, 11 (1986) 239

Pig—interferons

Contribution of molecular biology to the study of the porcine interferon system, 23 (1990) 245

Pig—*Leptospira interrogans*

Enzymatic radioimmunoassay for detecting *Leptospira interrogans* serovar *pomona* in the urine of experimentally-infected pigs, 10 (1984/1985) 279

Effect of maternal vaccination on the susceptibility of growing pigs to leptospiral infection, 15 (1987) 79

Pig—*Mycobacterium avium*

Delayed-type skin hypersensitivity and in vitro lymphocyte immunostimulation responses of swine following inoculation with *Mycobacterium avium* cell walls and a mycobacterial immunopotentiating glycolipid, 8 (1983) 281

Pig—*Mycobacterium* sp.

Branched *Mycobacterium*-like organisms from swine lymph nodes, 7 (1982) 157

Pig—*Mycoplasma agalactiae*

A radial growth precipitation test and its comparison with certain other serological tests for detection of antibody in bovine sera to *Mycoplasma agalactiae* subsp. *bovis*, 1 (1976) 23

Pig—*Mycoplasma hyopneumoniae*

A comparative study of the complement fixation test for *Mycoplasma hyopneumoniae* in SPF and non-SPF herds of swine in Illinois, 1 (1976) 459

Adaptation of a latex agglutination tube test for diagnosis of *Mycoplasma hyopneumoniae* swine pneumonia, 4 (1979) 157

Evaluation of the indirect hemagglutination assay as a practical serodiagnostic test for mycoplasmal pneumonia of swine, 9 (1984) 259

Evaluation of the ELISA and comparison to the complement fixation test and radial immunodiffusion enzyme assay for detection of antibodies against *Mycoplasma hyopneumoniae* in swine serum, 25 (1990) 177

Pig—*Mycoplasma hyosynoviae*

Antibody response of swine experimentally infected with *Mycoplasma hyosynoviae*, 7 (1982) 135

Pig—*Mycoplasma salivarium*

Isolation of *Mycoplasma salivarium* from swine, 16 (1988) 385

Pig—*Pasteurella multocida*

A test in Vero cell monolayers for toxin production by strains of *Pasteurella multocida* isolated from pigs suspected of having atrophic rhinitis, 9 (1984) 503

Bordetella bronchiseptica and toxigenic type D *Pasteurella multocida* as agents of severe atrophic rhinitis of swine, 13 (1987) 179

The influence of growth conditions of *Pasteurella multocida* on its ability to colonise the nasal mucosa of SPF piglets, 24 (1990) 81

Phenotypical and genotypical characteristics of paired isolates of *Pasteurella multocida* from the lungs and kidneys of slaughtered pigs, 25 (1990) 67

Colonisation by *Pasteurella multocida* in atrophic rhinitis of pigs and immunity to the osteolytic toxin, 25 (1990) 253

Pig—porcine adenovirus

Immunodiffusion and neutralization studies on porcine adenoviruses, 5 (1980) 101

Pig—porcine cytomegalovirus

Superinfection with porcine cytomegalovirus initiating transplacental infection, 16 (1988) 189

Pig—porcine enterovirus

Effect of actinomycin D on the cytopathology and replication of porcine enteroviruses, 2 (1977) 275

Structural proteins of porcine enteroviruses, 3 (1978) 23

Pig—porcine epidemic diarrhoea coronavirus

Enzyme-linked immunosorbent assay for the detection of porcine epidemic diarrhea coronavirus antibodies in swine sera, 21 (1989) 263

Pig—porcine epidemic diarrhoea virus

Quantitation, biological and physicochemical properties of cell culture-adapted porcine epidemic diarrhea coronavirus (PEDV), 20 (1989) 131

Pig—porcine parvovirus

Studies on the multiplication of a porcine parvovirus, 7 (1982) 117

Parvovirus infection in pigs with necrotic and vesicle-like lesions, 10 (1985) 525

Pathogenicity of a skin isolate of porcine parvovirus in swine fetuses, 15 (1987) 19

Detection of antibodies against porcine parvovirus in swine sera by enzyme-linked immunosorbent assay, 17 (1988) 11

Pig—porcine respiratory coronavirus

A competitive inhibition ELISA for the differentiation of serum antibodies from pigs infected with transmissible gastroenteritis virus (TGEV) or with the TGEV-related porcine respiratory coronavirus, 20 (1989) 9

Natural infection with the porcine respiratory coronavirus induces protective lactogenic immunity against transmissible gastroenteritis, 21 (1989) 1

Intestinal replication of a porcine respiratory coronavirus closely related antigenically to the enteric transmissible gastroenteritis virus, 23 (1990) 237

Pig—porcine rotavirus

Characterization of rotaviruses isolated from pigs with diarrhoea in Venezuela, 13 (1987) 35

Evaluations of killed and modified live porcine rotavirus vaccines in cesarean derived colostrum deprived pigs, 22 (1990) 179

Pig—porcine transmissible gastroenteritis virus

Cross-protection studies between feline infectious peritonitis and porcine transmissible gastroenteritis viruses, 4 (1979) 11

Effects of ambient temperatures on clinical and immune responses of pigs infected with transmissible gastroenteritis virus, 4 (1979) 109

Differentiation of canine coronavirus and porcine transmissible gastroenteritis virus by neutralization with canine, porcine and feline sera, 5 (1980) 283

Pig—rotavirus, general

A reovirus-like agent (rotavirus) associated with diarrhoea in neonatal pigs, 1 (1976) 55

Pig—*Salmonella cholerae suis*

Immunisation of pregnant sows with a live *Salmonella cholerae suis* vaccine, 3 (1978/1979) 303

Pig—spiral microorganisms

A spiral microorganism in the stomach of pigs, 24 (1990) 199

Pig—*Streptococcus* spp.

Streptococcal infection as a cause of reproductive tract problems of swine, 5 (1980) 135

Pig—*Streptococcus suis*

Identification and characterization of *Streptococcus suis*, 11 (1986) 349

Isolation of *Streptococcus suis* from diseased pigs in Canada, 17 (1988) 171

Pig—swine fever virus

Effect of dexamethasone on the multiplication of attenuated strains of hog cholera virus in pigs, 1 (1976) 475

A congenital persistent swine fever infection. I. Clinical and virological observations, 2 (1977) 121

A congenital persistent swine fever infection. II. Immune response to swine fever virus and unrelated antigens, 2 (1977) 133

Hog cholera virus: active immunization with the Thiverval strain in the presence and absence of colostral passive immunity, 3 (1978) 31

Experimental production of congenital persistent swine fever infections. I. Clinical, pathological and virological observations, 4 (1979) 117

Experimental production of congenital persistent swine fever infections. II. Effect on functions of the immune system, 4 (1979) 133

Effect of infections with swine fever virus of immune functions. I. Response of lymphocytes from blood and lymphoid organs from infected and normal pigs to anti-immunoglobulin serum and protein A, 6 (1981) 41

Effect of infections with swine fever virus on immune functions. II. Lymphocyte response to mitogens and enumeration of lymphocyte subpopulations, 8 (1983) 81

Effect of infections with swine fever virus on immune functions. III. Antibody response to lipopolysaccharide and sheep red blood cells, 8 (1983) 97

The neutralizing peroxidase-linked assay for detection of antibody against swine fever virus, 9 (1984) 113

Influence of the vaccination regime on the herd immune response for swine fever, 13 (1987) 143

Cytopathogenic effect of African swine fever virus for pig monocytes: characterization and use in microassay, 14 (1987) 15

Genome analysis of African swine fever virus isolated in Italy in 1983, 14 (1987) 101

Inhibition of virus replication in the tonsils of pigs previously vaccinated with a Chinese strain vaccine and challenged oronasally

with a virulent strain of classical swine fever virus, 14 (1987) 105

The protective value of vaccine-induced neutralising antibody titres in swine fever, 16 (1988) 123

An enzyme immunoassay employing monoclonal antibodies and detecting specifically antibodies to classical swine fever virus, 17 (1988) 129

Pig—transmissible gastroenteritis coronavirus

Natural infection with the porcine respiratory coronavirus induces protective lactogenic immunity against transmissible gastroenteritis, 21 (1989) 1

Pig—transmissible gastroenteritis virus

Multiplication of low and high cell culture passaged strains of transmissible gastroenteritis virus in organs of newborn piglets, 3 (1978/1979) 169

Antigenicity of structural components from porcine transmissible gastroenteritis virus, 3 (1978/1979) 179

The role of interferon in spontaneous cell-mediated cytotoxicity in pigs, 11 (1986) 69

Transmissible gastroenteritis (TGE) of swine: in vitro virus attachment and effects of polyanions and polycations, 14 (1987) 343

Lack of protection in vivo with neutralizing monoclonal antibodies to transmissible gastroenteritis virus, 18 (1988) 197

A competitive inhibition ELISA for the differentiation of serum antibodies from pigs infected with transmissible gastroenteritis virus (TGEV) or with the TGEV-related porcine respiratory coronavirus, 20 (1989) 9

Molecular biology of transmissible gastroenteritis virus, 23 (1990) 147

Intestinal replication of a porcine respiratory coronavirus closely related antigenically to the enteric transmissible gastroenteritis virus, 23 (1990) 237

Pig—*Treponema hyodysenteriae*

Location of *Treponema hyodysenteriae* and synergistic anaerobic bacteria in colonic lesions of gnotobiotic pigs, 6 (1981) 69

Biochemical and immunochemical characterisation of strains of *Treponema hyodysenteriae*, 24 (1990) 29

Pig—*Yersinia enterocolitica*

Ecological studies of *Yersinia enterocolitica*. I. Dissemination of *Y. enterocolitica* in pigs, 8 (1983) 469

Ecological studies of *Yersinia enterocolitica*. II. Experimental infection with *Y. enterocolitica* in pigs, 9 (1984) 375

Ecological studies of *Yersinia enterocolitica*. III. Cross-protection against fecal excretion between *Y. enterocolitica serovars* 3 and 5.27 in pigs, 9 (1984) 383

Pig—*Yersinia* spp.

The sensitivity to antimicrobial agents of species of *Yersinia* isolated from cattle and pigs in Nigeria, 12 (1986) 383

Plesiomonas shigelloides

Search for an antigenic relationship between aeromonads and *Brucella abortus*, 2 (1977) 357

Pneumoenteritis—sheep

Protective effect of vaccination against experimental adenoviral pneumoenteritis in fattening lambs, 3 (1978/1979) 191

Adenovirus vaccination of pregnant ewes and studies on the colostral immunity of their lambs, 5 (1980) 73

Pneumonia—cattle

Identification of Mycoplasmatales in pneumonic calf lungs, 11 (1986) 79

Pneumonia—horse

Dynamics of *Equi*-factor antibodies in sera of foals kept on farms with differing histories of *Rhodococcus equi* pneumonia, 14 (1987) 269

Rhodococcus equi pneumonia in 48 foals: response to antimicrobial therapy, 14 (1987) 329

Use of erythromycin–rifampin combination in treatment of *Rhodococcus equi* pneumonia, 14 (1987) 337

Pneumonia—pig

Failure of lungworm-larvae-infected earthworms to transmit mycoplasmal pneumonia to swine, 1 (1976) 15

Adaptation of a latex agglutination tube test for diagnosis of *Mycoplasma hyopneumoniae* swine pneumonia, 4 (1979) 157

Evaluation of the indirect hemagglutination assay as a practical serodiagnostic test for mycoplasmal pneumonia of swine, 9 (1984) 259

Identification and characterization of *Streptococcus suis*, 11 (1986) 349

Biochemical and serological properties of *Actinobacillus pleuropneumoniae* biotype 2 strains isolated from swine, 20 (1989) 173

Pneumonia—sheep

Respiratory infections in housed sheep, with particular reference to mycoplasmas, 4 (1979) 47

Comparison of virulence of ovine respiratory mycoplasmas in the mouse mammary gland, 9 (1984) 367

Isolation of *Neisseria cuniculi* from a case of ovine pneumonia, 21 (1989) 185

Polyomavirus—general

The isolation of a virus resembling a polyomavirus from normal calves, 15 (1987) 175

Porcine adenovirus

Immunodiffusion and neutralization studies on porcine adenoviruses, 5 (1980) 101

Porcine cytomegalovirus

Superinfection with porcine cytomegalovirus initiating transplacental infection, 16 (1988) 189

Porcine cytomegalovirus (PCMV) in early gestation, 17 (1988) 117

Porcine enterovirus

Immunodiffusion reactions among porcine enteroviruses and other picornaviruses, 2 (1977) 205

Effect of actinomycin D on the cytopathology and replication of porcine enteroviruses, 2 (1977) 275

Structural proteins of porcine enteroviruses, 3 (1978) 23

Porcine epidemic diarrhoea coronavirus

Enzyme-linked immunosorbent assay for the detection of porcine epidemic diarrhea coronavirus antibodies in swine sera, 21 (1989) 263

Porcine epidemic diarrhoea virus

Quantitation, biological and physicochemical properties of cell culture-adapted porcine epidemic diarrhea coronavirus (PEDV), 20 (1989) 131

Porcine haemagglutinating encephalomyelitis virus

Inducement of cytopathic changes and plaque formation by porcine haemagglutinating encephalomyelitis virus, 8 (1983) 521

Porcine oedema disease

Characteristics of the Shiga-like toxin produced by *Escherichia coli* associated with porcine edema disease, 24 (1990) 89

Porcine parvovirus

Studies on the multiplication of a porcine parvovirus, 7 (1982) 117

Antibody responses of guinea-pigs, rabbits and pigs to inactivated porcine parvovirus vaccines, 9 (1984) 27

Potentiating effect of adjuvants on humoral immunity to porcine parvovirus vaccines in guinea pigs, 10 (1984/1985) 209

Parvovirus infection in pigs with necrotic and vesicle-like lesions, 10 (1985) 525

Pathogenicity of a skin isolate of porcine parvovirus in swine fetuses, 15 (1987) 19

Mapping of porcine parvovirus DNA and development of a diagnostic DNA probe, 17 (1988) 29

Porcine respiratory coronavirus

A competitive inhibition ELISA for the differentiation of serum antibodies from pigs infected with transmissible gastroenteritis virus (TGEV) or with the TGEV-related porcine respiratory coronavirus, 20 (1989) 9

Natural infection with the porcine respiratory coronavirus induces protective lactogenic immunity against transmissible gastroenteritis, 21 (1989) 1

Intestinal replication of a porcine respiratory coronavirus closely related antigenically to the enteric transmissible gastroenteritis virus, 23 (1990) 237

Porcine rotavirus

Characterization of rotaviruses isolated from pigs with diarrhoea in Venezuela, 13 (1987) 35

Evaluations of killed and modified live porcine rotavirus vaccines in cesarean derived colostrum deprived pigs, 22 (1990) 179

Development of specific nucleic acid probes for the differentiation of porcine rotavirus serotypes, 24 (1990) 307

Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus, 24 (1990) 327

Porcine transmissible gastroenteritis virus

Cross-protection studies between feline infectious peritonitis and porcine transmissible gastroenteritis viruses, 4 (1979) 11

Effects of ambient temperatures on clinical and immune responses of pigs infected with transmissible gastroenteritis virus, 4 (1979) 109

Antigenic variation of porcine transmissible gastroenteritis virus detected by monoclonal antibodies, 14 (1987) 115

Molecular biology of transmissible gastroenteritis virus, 23 (1990) 147

Possum

Mycobacterium bovis infection in the brushtailed possum (*Trichosurus vulpecula*): I. Preliminary observations on experimental infection, 5 (1980) 309

Mycobacterium bovis infection in the brushtailed possum (*Trichosurus vulpecula*): II. Comparison of experimental infections with an Australian cattle strain and a New Zealand possum strain, 6 (1981) 351

Potassium thiocyanate

Immunogenicity of potassium thyocyanate extract of type A *Pasteurella multocida*, 11 (1986) 373

Potomac horse fever

Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline, 19 (1989) 253

Pox virus

Viruses as vectors, 23 (1990) 55

Preface Bovine leucosis Special Issue

Preface, 1 (1976) 101

Pregnancy

Effects of endotoxin infusion on circulating levels of eicosanoids, progesterone, cortisol, glucose and lactic acid, and abortion in pregnant cows, 21 (1989) 211

Proliferative enteritis

Possible relationship of proliferative enteritis in pigs and hamsters, 15 (1987) 293

Proliferative ileitis

Demonstration of a new intracellular antigen in porcine intestinal adenomatosis and hamster proliferative ileitis, 10 (1985) 303

***Propionibacterium* spp.**

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Proteus vulgaris

Uptake of antibiotics in Gram-negative bacteria exposed to EDTA-Tris, 10 (1984) 57

Prototheca zopfii

Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk, 15 (1987) 315

Pseudomonas aeruginosa

Uptake of antibiotics in Gram-negative bacteria exposed to EDTA-Tris, 10 (1984) 57

Assessment of elastase as a *Pseudomonas aeruginosa* virulence factor in experimental lung infection in mink, 13 (1987) 281

Pseudomonas mallei

Development of an avidin–biotin dot enzyme-linked immunosorbent assay and its comparison with other serological tests for diagnosis of glanders in equines, 25 (1990) 77

Pseudomonas maltophila

Selective extraction of outer-membrane proteins from membrane complexes of *Pseudomonas maltophila* by chloroform–methanol, 22 (1990) 69

Pseudomonas pseudomallei

Isolation of *Pseudomonas pseudomallei* from soil using a paraffin-baiting technique, 3 (1978/1979) 235

Susceptibility of *Pseudomonas pseudomallei* isolates of non-human origin to chemotherapeutic agents by the single disc sensitivity method, 6 (1981) 367

Evaluation of the API 20E and microbact 24E systems for the identification of *Pseudomonas pseudomallei*, 8 (1983) 611

Rabbit

The development of antibodies in rabbits and cattle infected experimentally with an African strain of malignant catarrhal fever virus, 2 (1977) 57

Malignant catarrhal fever virus in rabbits—reproduction of clinical disease by cell-free virus and partial protection against such disease by vaccination with inactivated virus, 5 (1980) 161

The location of primary replication of the herpesvirus of bovine malignant catarrhal fever in rabbits, 6 (1981) 107

Atempts to protect rabbits against challenge with virulent, cell-associated, malignant catarrhal fever virus, 7 (1982) 419

Experimental infection of rabbits with bovine herpesvirus-4: acute and persistent infection, 7 (1982) 503

Infectious nature of *Clostridium spiroforme*-mediated rabbit enterotoxaemia, 9 (1984) 497

Significance of *Clostridium spiroforme* in the enteritis-complex of commercial rabbits, 12 (1986) 25

Hemagglutination inhibition and virus neutralizing response of rabbits inoculated with bovine herpesvirus 1 subunit vaccine, 13 (1987) 107

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

Recognition of *Mycoplasma arthritidis* membrane antigens by rats and rabbits: comparison by immunoblotting and radioimmunoprecipitation, 17 (1988) 45

Resistance of some capsular serotype D strains of *Pasteurella multocida* to rabbit polymorphonuclear neutrophil phagocytosis, 20 (1989) 79

Protection of weaned rabbits against experimental *Escherichia coli* O103 intestinal infection by oral formalin-killed vaccine, 21 (1989) 353

Susceptibility of laboratory animals to experimental infection with Ife virus, 22 (1990) 11

Suppression of immunological responses in rabbits experimentally infected with bovine leukemia virus, 25 (1990) 131

Effect of aflatoxin B1 on resistance induced by *Bordetella bronchiseptica* vaccine in rabbits, 25 (1990) 209

Rabies virus

Use of recombinant vaccinia–rabies virus for oral vaccination of fox cubs (*vulpes vulpes*) against rabies, 18 (1988) 103

Further studies on rabies virus isolated from healthy dogs in Nigeria, 22 (1990) 17

From rabies to rabies-related viruses, 23 (1990) 115

The rabies viruses of bats, 23 (1990) 165

Use of vaccinia rabies recombinant for oral vaccination of wildlife, 23 (1990) 227

Oral immunization of foxes with avirulent rabies virus mutants, 23 (1990) 259

Radiolabelling

Early distribution of radioactive liposomes and scrapie infectivity in mouse tissues following administration by different routes, 4 (1979) 89

Rat

Antigenic cross-reactions between *Mycoplasma arthritidis* and rat tissues, 9 (1984) 237

Recognition of *Mycoplasma arthritidis* membrane antigens by rats and rabbits: comparison by immunoblotting and radioimmunoprecipitation, 17 (1988) 45

Experimental induction of arthritis in LEW rats and antibody response to four *Mycoplasma arthritidis* strains, 21 (1989) 41

Surface parasitism of the fish mycoplasma *Mycoplasma mobile* 163 K on tracheal epithelial cells, 21 (1989) 339

Susceptibility of laboratory animals to experimental infection with Ife virus, 22 (1990) 11

Isolation of *Mycoplasma moatsii* from the intestine of wild Norway rats (*Rattus norvegicus*), 22 (1990) 23

Cellular immune response of the rat to experimental infection with *Dermatophilus congolensis*, 25 (1990) 283

Reovirus—general

Reovirus isolation from healthy dogs in Japan, 4 (1979) 255

Characteristics and analysis of electropherotypes of avian reovirus field isolates, 23 (1990) 273

Reproductive tract

Measurement of immunoglobulins in reproductive tract fluids of bulls, 2 (1977) 1

Isolation of *Acholeplasma laidlawii* and *Mycoplasma equigenitalium* from stallion semen, 4 (1979) 177

Streptococcal infection as a cause of reproductive tract problems of swine, 5 (1980) 135

Ovarian lesions in heifers exposed to infectious bovine rhinotracheitis virus by non-genital routes on the day after breeding, 10 (1984/1985) 155

Respiratory tract

Induction of immunity in calves to *Mycoplasma bovis* infection of the respiratory tract, 2 (1977) 29

Local immunity in the respiratory tract of the chicken. II. The secretory immune response to Newcastle disease virus and the role of IgA, 2 (1977) 143

Respiratory infections in housed sheep, with particular reference to mycoplasmas, 4 (1979) 47

A parapoxvirus isolated from nasal secretion of a calf with respiratory disease, 4 (1979) 85

Comparison between strains of infectious bovine rhinotracheitis virus (*Bovid herpesvirus 1*), from respiratory and genital origins, using polyacrylamide gel electrophoresis of structural proteins, 5 (1980) 187

The phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 6 (1981) 183

Infection of specific-pathogen-free lambs with parainfluenza virus type 3, *Pasteurella haemolytica* and *Mycoplasma ovipneumoniae*, 6 (1981) 295

Further evidence for a retrovirus as the aetiological agent of sheep pulmonary adenomatosis (jaagsiekte), 8 (1983) 237

Comparison of virulence of ovine respiratory mycoplasmas in the mouse mammary gland, 9 (1984) 367

Coronavirus infection of the bovine respiratory tract, 9 (1984) 425

Colonisation of the respiratory tract of lambs by strains of *Mycoplasma ovipneumoniae*, 10 (1985) 533

Identification of Mycoplasmatales in pneumonic calf lungs, 11 (1986) 79

The effect of parainfluenza virus type 3 on the phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 11 (1986) 125

Measurement of *Pasteurella haemolytica*-specific lung and serum antibodies by ELISA, 12 (1986) 337

Assessment of elastase as a *Pseudomonas aeruginosa* virulence factor in experimental lung infection in mink, 13 (1987) 281

Electron microscopic investigation of intracellular events after ingestion of *Rhodococcus equi* by foal alveolar macrophages, 14 (1987) 295

Surface parasitism of the fish mycoplasma *Mycoplasma mobile* 163 K on tracheal epithelial cells, 21 (1989) 339

Phenotypical and genotypical characteristics of paired isolates of *Pasteurella multocida* from the lungs and kidneys of slaughtered pigs, 25 (1990) 67

Reticuloendotheliosis virus

Influence of reticuloendotheliosis virus on the severity of *Eimeria tenella* infection in broiler chickens, 9 (1984) 121

Clinical effects, virological and serological responses in chickens following in-ovo oculation of reticuloendotheliosis virus, 14 (1987) 411

Retrovirus, human

Simian T-lymphotropic viruses and related human viruses, 17 (1988) 309

Retroviruses—general

Special Issue, 17 (1988) 195–314.

Rhabdoviridae—general

From rabies to rabies-related viruses, 23 (1990) 115

Rhabdovirus—general

The isolation and preliminary characterization of a rhabdovirus in Australia related to bovine ephemeral fever virus, 8 (1983) 221

Hemagglutination with rhabdoviruses related to bovine ephemeral fever virus, 11 (1986) 1

Rhinopneumonitis

Experimental immunization against respiratory disease due to equid herpesvirus 1 infection (rhinopneumonitis) using formalin-inactivated virus with various adjuvants, 4 (1979) 209

Rhodococcus equi

Ecology of *Rhodococcus equi*, 9 (1984) 65

Two techniques for detection of antibodies against *Corynebacterium (Rhodococcus) equi* in horse sera, 10 (1984/1985) 293

Ecology of *Rhodococcus (Corynebacterium) equi* in soil on a horse-breeding farm, 12 (1986) 169

Special Issue "*Rhodococcus equi*" Workshop, 14 (1987) 203–342

Diagnosis of *Rhodococcus equi* infection in foals by the agar gel diffusion test with protein antigen, 15 (1987) 105

Ribavirin

Inhibitory effects of ribavirin alone or combined with human alpha interferon on feline infectious peritonitis virus replication in vitro, 20 (1989) 255

Ribosomes

Immunogenic properties of ribosomes isolated from *Brucella abortus*, 6 (1981) 95

Ricin

Cell-mediated and humoral immune response to non-viable *Mycoplasma pulmonis* in mice enhanced by cross-linked ricin, 14 (1987) 145

Rifampin

Use of erythromycin–rifampin combination in treatment of *Rhodococcus equi* pneumonia, 14 (1987) 337

Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline, 19 (1989) 253

Rinderpest virus

The use of the direct immunoperoxidase test to detect the multiplication of rinderpest virus in bovine kidney cell culture, 6 (1981) 23

Antigenic variation between three strains of rinderpest virus detected by kinetic neutralisation and competition ELISA using early rabbit antisera, 16 (1988) 195

Comparison of the effect of various chemical stabilizers and lyophilization cycles on the thermostability of a Vero cell-adapted rinderpest vaccine, 21 (1989) 195

Observations on the pathogenicity for sheep and goats and the transmissibility of the strain of virus isolated during the rinderpest outbreak in Sri Lanka in 1987, 21 (1989) 309

The serological response to a thermostable Vero cell-adapted rinderpest vaccine under field conditions in Niger, 22 (1990) 119

Comparison of rinderpest and peste des petits ruminants viruses using anti-nucleoprotein monoclonal antibodies, 25 (1990) 1

RNA metabolism

Mouse scrapie and polyadenylated RNA metabolism in L cells, 6 (1981) 375

Roccal II

Disinfection of the causative agent of contagious equine metritis by Nolvasan and Roccal II, 6 (1981) 59

Rotavirus—general

A reovirus-like agent (rotavirus) associated with diarrhoea in neonatal pigs, 1 (1976) 55

Propagation of human rotavirus in young dogs, 3 (1978) 55

Interaction of rotavirus and enterotoxigenic *Escherichia coli* in conventionally-reared dairy calves, 7 (1982) 51

Intestinal changes associated with rotavirus and enterotoxigenic *Escherichia coli* infection in calves, 8 (1983) 35

Characterisation of rotavirus isolates from sub-clinically infected calves by genome profile analysis, 13 (1987) 27

Rubella virus

Congenital infections with nonarbo togaviruses, 8 (1983) 321

Rumen bacteria—general

Influence of kanamycin on the rumen bacteria and ammonia production in supplemented sheep rumen liquor in vitro, 4 (1979) 247

Sagiyama virus

Pathogenicity for horses of original Sagiyama virus, a member of the Getah virus group, 17 (1988) 367

Salmonella cholerae suis

Immunisation of pregnant sows with a live *Salmonella cholerae suis* vaccine, 3 (1978/1979) 303

Salmonella oranienburg

A report of an outbreak of *Salmonella oranienburg* in a hybrid mouse colony, 8 (1983) 105

***Salmonella* spp.**

Hemagglutinating and hydrophobic surface properties of salmonellae producing enterotoxin neutralized by cholera anti-toxin, 8 (1983) 443

Diffusion in gel-enzyme linked immunosorbent assay (DIG-ELISA) to record the immunoglobulin response of calves vaccinated with *Salmonella*, 10 (1984/1985) 71

Chemiluminescence of bovine alveolar macrophages as an indicator of developing immunity in calves vaccinated with aromatic-dependent *Salmonella*, 10 (1985) 451

Plasmid profile analysis of salmonellae in a large-animal hospital, 13 (1987) 301

Tagging and elimination of plasmids in *Salmonella* of avian origin, 18 (1988) 73

The detection of salmonella infection in calves by the fluorescent antibody test, 19 (1989) 85

Salmonella typhimurium

Percloacal infection of chickens with *Salmonella typhimurium*, 3 (1978) 155

The effect of halofuginone on the excretion of *Salmonella typhimurium* by experimentally infected chickens, 17 (1988) 59

Scrapie

Changes in the metabolism of polyadenylated RNA commencing early in the incubation period of scrapie in the mouse, 2 (1977) 193

Early distribution of radioactive liposomes and scrapie infectivity in mouse tissues following administration by different routes, 4 (1979) 89

Factors in scrapie-infected mouse tissues that influence the metabolism of polyadenylated-RNA in cell cultures, 4 (1979) 305

Mouse scrapie and polyadenylated RNA metabolism in L cells, 6 (1981) 375

Polyadenylated RNA and scrapie in mice, 7 (1982) 267

Scrapie in France: some possible predisposing factors in the naturally-acquired disease of sheep, 8 (1983) 511

Pathogenesis of mouse scrapie: distribution of agent in the pulp and stroma of infected spleens, 9 (1984) 215

Ionising radiation has no influence on scrapie incubation period in mice, 13 (1987) 211

Bovine spongiform encephalopathy: detection and quantitation of fibrils, fibril protein (PeP) and vacuolation in brain, 23 (1990) 295

Seal

Pathological findings indicative of distemper in European seals, 23 (1990) 331

Mass mortality in seals caused by a newly discovered virus-like morbillivirus, 23 (1990) 343

Characterisation of the European seal morbillivirus, 23 (1990) 351

Serodiagnosis

Characterization of two strains of adenovirus isolated from New Zealand sheep, 2 (1977) 97

Immunodiffusion reactions among porcine enteroviruses and other picornaviruses, 2 (1977) 205

Antigenic relationship of Ibaraki, bluetongue, and epizootic hemorrhagic disease viruses, 3 (1978) 15

Comparison between strains of infectious bovine rhinotracheitis virus (*Bovid herpesvirus 1*), from respiratory and genital origins, using polyacrylamide gel electrophoresis of structural proteins, 5 (1980) 187

Differentiation of canine coronavirus and porcine transmissible gastroenteritis virus by neutralization with canine, porcine and feline sera, 5 (1980) 283

A serological comparison of the Australian isolate of bluetongue virus type 20 (CSIRO 19) with bluetongue group viruses, 6 (1981) 9

Serological studies of two additional Australian bluetongue virus isolates CSIRO 154 and CSIRO 156, 6 (1981) 233

Studies on the antigenic relationship between bovine subgroup 2 and conventional mammalian adenoviruses using immunofluorescence, 8 (1983) 121

Antigenic relationships between the serotypes of *Pasteurella haemolytica* demonstrable by enzyme-linked immunosorbent assay (ELISA), 8 (1983) 187

Serologic comparisons of 4 *Anaplasma* isolates as measured by the complement-fixation test, 9 (1984) 181

Biochemical and serological identification of strains of *Haemophilus pleuropneumoniae*, 10 (1985) 393

Variation in foot-and-mouth disease virus isolates in Kenya: an examination of field isolates by T1 oligonucleotide fingerprinting, 10 (1985) 409

Preliminary serological characterization of bovine viral diarrhoea virus strains using monoclonal antibodies, 12 (1986) 195

Serotyping of *Haemophilus pleuropneumoniae* in The Netherlands: with emphasis on heterogeneity within serotype 1 and (proposed) serotype 9, 13 (1987) 249

Antigenic variation of porcine transmissible gastroenteritis virus detected by mono-

clonal antibodies, 14 (1987) 115

Immunological cross-reactivity between pseudocapsular antigens of strains of *Staphylococcus aureus* isolated from cases of bovine mastitis, 16 (1988) 159

Antigenic variation between three strains of rinderpest virus detected by kinetic neutralisation and competition ELISA using early rabbit antisera, 16 (1988) 195

Immunological relationships between malignant catarrhal fever virus (alcelaphine herpesvirus 1) and bovine cytomegalovirus (bovine herpesvirus 3), 16 (1988) 211

Bovine viral diarrhea virus proteins: heterogeneity of cytopathogenic and noncytopathogenic strains and evidence of a 53K glycoprotein neutralization epitope, 16 (1988) 303

Comparison of the toxic and antigenic properties of single bovine isolates of *Pasteurella haemolytica* representing five serotypes and an untypable strain, 16 (1988) 351

Serological characterization of viruses isolated from experimental mucosal disease, 19 (1989) 13

Typing of *Treponema hyodysenteriae* by restriction endonuclease analysis, 19 (1989) 351

Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina*, 19 (1989) 361

Serological detection of multiple retroviral infections in cattle: bovine leukemia virus, bovine syncytial virus and bovine visna virus, 20 (1989) 247

Antigenic differentiation of pestivirus strains with monoclonal antibodies against hog cholera virus, 21 (1989) 9

Serotypes in *Cowdria ruminantium* and their relationship with *Ehrlichia phagocytophila* determined by immunofluorescence, 21 (1989) 31

Serological and pathogenic characterization of *Erysipelothrix rhusiopathiae* isolates from tonsils of slaughter pigs in Indonesia, 21 (1989) 165

O-serotyping of *Yersinia ruckeri* with special emphasis on European isolates, 22 (1990) 299

Development of specific nucleic acid probes for the differentiation of porcine rotavirus serotypes, 24 (1990) 307

Serum resistance

Serum resistance is correlated with encapsulation of avian strains of *Pasteurella multocida*, 21 (1989) 177

Sheep—general

Ovine contagious epididymites: a review, 7 (1982) 551

Sheep—adenovirus, general

Characterization of two strains of adenovirus isolated from New Zealand sheep, 2 (1977) 97

Protective effect of vaccination against experimental adenoviral pneumoenteritis in fattening lambs, 3 (1978/1979) 191

Experimental adenovirus infection of lambs, 6 (1981) 113

Experimental infection of lambs with an adenovirus followed by *Pasteurella haemolytica*, 7 (1982) 369

Sheep—Akabane virus

Antibodies to Akabane virus in horses, sheep and goats in Japan, 5 (1980) 239

Akabane virus infection in the pregnant ewe. 1. Growth of virus in the foetus and the development of the foetal immune response, 6 (1981) 197

Akabane virus infection in the pregnant ewe. 2. Pathology of the foetus, 6 (1981) 209

Sheep—anaerobic bacteria, general

Preliminary study of the anaerobic bacteria isolated from subgingival plaque from sheep, 21 (1989) 139

Sheep—Aujeszky's disease virus

Aujeszky's disease of sheep: experimental studies on the excretion and horizontal transmission of the virus, 13 (1987) 353

Horizontal transmission of Aujeszky's disease virus from sheep to pigs, 19 (1989) 245

Iscom of viral envelope proteins protects against Aujeszky's disease, 20 (1989) 143

Sheep—*Bacteroides nodosus*

Characteristics of *Bacteroides nodosus* isolated from cattle, 3 (1978/1979) 269

Analysis of the outer membrane proteins of *Bacteroides nodosus*, the causal organism of ovine footrot, 9 (1984) 155

Phagocytosis of *Bacteroides nodosus* by ovine peripheral blood leucocytes, 9 (1984) 169

Reactivity of sera from sheep immunised with individual outer membrane proteins of *Bacteroides nodosus* against heterologous bacterial strains, 9 (1984) 453

Motility in relation to virulence of *Bacteroides nodosus*, 10 (1984/1985) 107

Comparative antigenic analysis of extracellular proteins of *Bacteroides nodosus* isolated from virulent and benign ovine footrot, 12 (1986) 135

Protection of sheep against footrot with a recombinant DNA-based fimbrial vaccine, 14 (1987) 393

Sheep—bluetongue virus

Bluetongue and related viruses in Nigeria: Experimental infection of West African dwarf sheep with Nigeria strains of the viruses of epizootic haemorrhagic disease of deer and bluetongue, 5 (1980) 177

Bluetongue virus serotypes 20 and 17 infections in sheep: comparison of clinical and serological responses, 7 (1982) 189

Recovery of dual serotypes of bluetongue virus from infected sheep and cattle, 7 (1982) 197

Serological studies of Australian and Papua New Guinean cattle and Australian sheep for the presence of antibodies against bluetongue group viruses, 8 (1983) 147

Virological, clinical and serological responses of sheep infected with tissue culture adapted bluetongue virus serotypes 10, 11, 13 and 17, 10 (1984/1985) 179

Temporal development of bluetongue virus protein-specific antibody in sheep following natural infection, 16 (1988) 231

Comparison of virologic and serologic responses of lambs and calves infected with bluetongue virus Serotype 10, 18 (1988) 233

Dot immunobinding assay in comparison with enzyme-linked immunosorbent assay for the detection of bluetongue virus antibodies in sheep, 22 (1990) 365

Sheep—border disease virus

Alterations in lymphocyte subpopulations in peripheral blood of sheep persistently infected with border disease virus, 22 (1990) 153

Sheep—bovine adenovirus

In utero adenoviral infection of sheep, 12 (1986) 87

Sheep—bovine leukemia virus

Comparative studies in bovine and ovine leukosis, 1 (1976) 211

Study on the oral transmission of bovine leukosis to sheep, 1 (1976) 347

Transmission experiments with EBL virus in sheep and goats, 1 (1976) 359

Bovine leukosis virus in sheep, lymphocyte modification and surface-immunoglobulin-bearing cell numbers, 5 (1980) 1

Suppression of natural cytotoxic activity of lymphocytes from cattle and sheep during the progress of bovine leukosis, 9 (1984) 105

Sheep—bovine respiratory syncytial virus

Differences in fluorescent antibody staining of bovine respiratory syncytial virus-infected cells by ovine and bovine sera, 13 (1987) 87

Pathogenesis of bovine respiratory syncytial virus in experimentally infected lambs, 23 (1990) 267

Sheep—bovine viral diarrhoea–mucosal disease virus

The effects of bovine viral diarrhoea–mucosal disease (BVD) virus on the ovine foetus, 4 (1979) 279

Sheep—*Brucella abortus*

A comparison of counter-immunoelectrophoresis with the rose bengal and the

serum tube agglutination tests in the diagnosis of brucellosis in sheep, 5 (1980) 223

Comparison of the dot-immunobinding assay with the complement fixation test for the detection of *Brucella* antibodies in sheep, 20 (1989) 281

Sheep—*Brucella ovis*

Ovine contagious epididymites: a review, 7 (1982) 551

Immunization with *Brucella melitensis* Rev 1 against *Brucella ovis* infection of rams, 14 (1987) 381

Characterization of *Brucella ovis* surface antigens, 18 (1988) 349

Sheep—*Brucella* spp.

Discrimination between sheep antibodies to *Brucella melitensis* and to *Brucella ovis*, 20 (1989) 339

Sheep—Cache Valley virus

Isolations of Cache Valley virus in Texas, 1981, 13 (1987) 11

Evidence that Cache Valley virus induces congenital malformations in sheep, 21 (1989) 297

Sheep—*Campylobacter fetus*

An examination of *Campylobacter fetus* subsp. *fetus* by restriction endonuclease analysis and serology, 14 (1987) 53

Sheep—caprine syncytial retrovirus

Preparation and evaluation of antigens used in serological tests for caprine syncytial retrovirus antibody in sheep and goat sera, 9 (1984) 581

Sheep—*Chlamydia psittaci*

Efficacy of a bacterin prepared from *Chlamydia psittaci* grown in cell culture for experimental immunization of ewes, 7 (1982) 493

Rapid detection of *Chlamydia psittaci* in vaginal swabs of aborted ewes and goats by enzyme linked immunosorbent assay (ELISA), 11 (1986) 251

Comparison of some ovine *Chlamydia psittaci* isolates by indirect immunofluorescence, 13 (1987) 69

A simple staining method for the identification of chlamydial elementary bodies in the fetal membranes of sheep affected by ovine enzootic abortion, 21 (1989) 233

Antibody response of the ovine lymph node to experimental infection with an ovine abortion strain of *Chlamydia psittaci*, 21 (1989) 345

Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies of *Chlamydia psittaci*, 24 (1990) 21

Immunity to *Chlamydia psittaci* with particular reference to sheep, 25 (1990) 87

Sheep—*Clostridium perfringes*

Toxin-types of *Clostridium perfringens* strains isolated from sheep, cattle and paddock soils in Nigeria, 12 (1986) 93

Sheep—contagious ecthyma virus

Effect of passively-acquired antibodies and vaccination on the immune response to contagious ecthyma virus, 9 (1984) 515

Sheep—*Cytoecetes phagocytophila*

Tick-borne fever: leucocyte migration inhibition, 7 (1982) 437

Detection of antibodies to the agent of tick-borne fever by indirect immunofluorescence, 21 (1989) 133

Sheep—deer virus

Bluetongue and related viruses in Nigeria: Experimental infection of West African dwarf sheep with Nigeria strains of the viruses of epizootic haemorrhagic disease of deer and bluetongue, 5 (1980) 177

Sheep—*Dermatophilus congolensis*

Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis*, 15 (1987) 151

Serum and skin surface antibody responses in Merino sheep given three successive inoculations with *Dermatophilus congolensis*, 15 (1987) 209

Vaccination against ovine dermatophilosis, 18 (1988) 285

Inflammatory cell and immune function in Merino sheep with chronic dermatophilosis, 21 (1989) 79

Inhibition of *Dermatophilus congolensis* by substances produced by bacteria found on the skin, 22 (1990) 237

Sheep—*Legionella pneumophila*

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

Sheep—maedi–visna virus

Kinetics of maedi virus production in sheep choroid plexus cells, 6 (1981) 1

An indirect enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to maedi-visna virus, 7 (1982) 209

Maeda-visna control in sheep. I. Artificial rearing of colostrum-deprived lambs, 8 (1983) 179

Late immune responses in experimental maedi, 9 (1984) 205

Maedi-visna control in sheep. II. Half-yearly serological testing with culling of positive ewes and progeny, 9 (1984) 445

Breed susceptibility to ovine progressive pneumonia (maeda/visna) virus, 12 (1986) 283

Failure of experimental vaccines to protect against infection with ovine progressive pneumonia (maedi-visna) virus, 13 (1987) 201

Ovine progressive pneumonia (maedi–visna) in sheep, 17 (1988) 237

Immunoblot analysis of the antibody response to ovine lentivirus infections, 19 (1989) 127

Caprine arthritis-encephalitis (CAE) and maedi–visna viruses detected by the polymerase chain reaction (PCR), 23 (1990) 329

Sheep—malignant catarrhal fever virus

Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus), 19 (1989) 205

Sheep—mastitis bacteria, general

Factors influencing the degree of in vitro bacterial adhesion to ovine mammary gland epithelial cells, 24 (1990) 43

Sheep—*Mycobacterium johnei*

Intestinal infection and host response to oral administration of *Mycobacterium johnei* in sheep, 2 (1977) 223

Sheep—*Mycoplasma capricolum*

Pathogenicity of *Mycoplasma capricolum* in sheep after experimental infection, 14 (1987) 137

Sheep—*Mycoplasma ovipneumoniae*

Infection of specific-pathogen-free lambs with parainfluenza virus type 3, *Pasteurella haemolytica* and *Mycoplasma ovipneumoniae*, 6 (1981) 295

Experimental infection of sheep with *Mycoplasma ovipneumoniae* and *Pasteurella haemolytica*, 9 (1984) 543

Colonisation of the respiratory tract of lambs by strains of *Mycoplasma ovipneumoniae*, 10 (1985) 533

The humoral immune response of lambs experimentally infected with *Mycoplasma ovipneumoniae*, 24 (1990) 143

Sheep—*Mycoplasma* spp.

Respiratory infections in housed sheep, with particular reference to mycoplasmas, 4 (1979) 47

Experimental mastitis caused by *Mycoplasma bovigenitalium* and *M. canadense* in the ewe, 22 (1990) 383

Sheep—Nairobi sheep disease virus

Physical and biological properties of Nairobi sheep disease virus, 8 (1983) 531

Sheep—*Neisseria cuniculi*

Isolation of *Neisseria cuniculi* from a case of ovine pneumonia, 21 (1989) 185

Sheep—orf virus

The response of the supramammary lymph node of the sheep to secondary infection with orf virus, 14 (1987) 3

A qualitative and quantitative assessment of the humoral antibody response of the sheep to orf virus infection, 15 (1987) 229

Sheep—ovine adenovirus

Experimental infection of lambs with an adenovirus of ovine origin, 2 (1977) 67

Light and electron microscope studies of the growth of ovine adenoviruses in primary lamb kidney cell cultures, 4 (1979) 293

Adenovirus vaccination of pregnant ewes and studies on the colostral immunity of their lambs, 5 (1980) 73

The influence of colostral antibodies on the immunization of lambs against adenoviruses, 6 (1981) 191

Sheep—ovine retrovirus

Further evidence for a retrovirus as the aetiological agent of sheep pulmonary adenomatosis (jaagsiekte), 8 (1983) 237

Sheep—papillomavirus

Detection of papillomavirus DNA in precancerous lesions of the ears of sheep, 25 (1990) 103

Sheep—parainfluenza virus

The pathogenesis of sequential infection with parainfluenza virus type 3 and *Pasteurella haemolytica* in sheep, 6 (1981) 173

Infection of specific-pathogen-free lambs with parainfluenza virus type 3, *Pasteurella haemolytica* and *Mycoplasma ovipneumoniae*, 6 (1981) 295

Experimental parainfluenza type 3 infection in young lambs: clinical, microbiological, and serological response, 8 (1983) 437

The effect of parainfluenza virus type 3 on the phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 11 (1986) 125

The effect of parainfluenza virus type 3 and *Pasteurella haemolytica* on oxygen-dependent and oxygen-independent bactericidal mechanisms of ovine pulmonary phagocytic cells, 12 (1986) 147

Sheep—*Pasteurella haemolytica*

The quantitative estimation of antibody to *Pasteurella haemolytica* in sheep sera using a micro-enzyme-linked immunosorbent assay (ELISA), 3 (1978/1979) 291

The pathogenesis of sequential infection with parainfluenza virus type 3 and *Pasteurella haemolytica* in sheep, 6 (1981) 173

The phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 6 (1981) 183

Infection of specific-pathogen-free lambs with parainfluenza virus type 3, *Pasteurella haemolytica* and *Mycoplasma ovipneumoniae*, 6 (1981) 295

Experimental infection of lambs with an adenovirus followed by *Pasteurella haemolytica*, 7 (1982) 369

Cytotoxic effect of *Pasteurella haemolytica* on ovine bronchoalveolar macrophages in vitro, 8 (1983) 3

Specificity of the enzyme-linked immunosorbent assay (ELISA) for antibodies in the sera of specific pathogen-free lambs vaccinated with *Pasteurella haemolytica* antigens, 8 (1983) 199

Experimental infection of sheep with *Mycoplasma ovipneumoniae* and *Pasteurella haemolytica*, 9 (1984) 543

The effect of parainfluenza virus type 3 on the phagocytic cell response of the ovine lung to *Pasteurella haemolytica*, 11 (1986) 125

Cytotoxic effect of serotypes of *Pasteurella haemolytica* on sheep bronchoalveolar macrophages, 11 (1986) 331

Cytotoxin from an ovine strain of *Pasteurella haemolytica*: characterization studies and partial purification, 11 (1986) 337

The effect of parainfluenza virus type 3 and *Pasteurella haemolytica* on oxygen-dependent and oxygen-independent bac-

tericidal mechanisms of ovine pulmonary phagocytic cells, 12 (1986) 147

A rapid micro-method for the study of antibody-mediated killing of bacteria, with specific application to infection of sheep with *Pasteurella haemolytica*, 16 (1988) 263

A crude cytotoxin vaccin protects sheep against experimental *Pasteurella haemolytica* Serotype A2 infection, 19 (1989) 175

Protection of lambs against experimental pneumonic pasteurellosis by transfer of immune serum, 20 (1989) 59

Sheep—retrovirus

Detection and quantitation of a type D retrovirus *gag* protein in ovine pulmonary carcinoma (sheep pulmonary adenomatosis) by means of a competition radioimmunoassay, 25 (1990) 17

Sheep—retrovirus, ovine

The etiology and pathogenesis of ovine pulmonary carcinoma (sheep pulmonary adenomatosis), 17 (1988) 219

Sheep—rinderpest virus

Observations on the pathogenicity for sheep and goats and the transmissibility of the strain of virus isolated during the rinderpest outbreak in Sri Lanka in 1987, 21 (1989) 309

The serological response to a thermostable Vero cell-adapted rinderpest vaccine under field conditions in Niger, 22 (1990) 119

Sheep—rumen papillomas

Rumen papillomas in sheep, 10 (1984/1985) 219

Sheep—scrapie

Scrapie in France: some possible predisposing factors in the naturally-acquired disease of sheep, 8 (1983) 511

Sheep—*Staphylococcus* spp.

Protective effect of glucan against experimentally induced staphylococcal mastitis in ewes, 16 (1988) 67

Sheep—*Ureaplasma* sp.

The experimental production of mastitis in ewes as a determinant of the virulence of ovine ureaplasma strains, 10 (1984/1985) 117

Sheep—viruses, general

A preliminary serological survey of viral antibodies in Peruvian sheep, 10 (1984/1985) 91

Sheep—Wesselsbron virus

Wesselsbron virus infection in West African Dwarf Sheep: effect of pre-infection serum flavivirus antibodies on severity of disease, 6 (1981) 287

Shiga-like toxins

Characteristics of the Shiga-like toxin produced by *Escherichia coli* associated with porcine edema disease, 24 (1990) 89

Skin

Identification and characteristics of staphylococci isolated from lesions and normal skin of horses, 10 (1984/1985) 269

Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis*, 15 (1987) 151

Serum and skin surface antibody responses in Merino sheep given three successive inoculations with *Dermatophilus congolensis*, 15 (1987) 209

Teat skin normal flora and colonization with mastitis pathogen inhibitors, 17 (1988) 357

Inhibition of *Dermatophilus congolensis* by substances produced by bacteria found on the skin, 22 (1990) 237

Staphylococcus aureus

Enterotoxin production by strains of *Staphylococcus aureus* isolated from animals and man in Nigeria, 5 (1980) 143

Staphylococcus aureus isolated from poultry in Australia. I. Phage typing and cultural characteristics, 7 (1982) 471

Staphylococcus aureus isolated from poultry in Australia. II. Epidemiology of strains associated with tenosynovitis, 7 (1982) 485

Encapsulation of *Staphylococcus aureus* isolated from bovine milk, 8 (1983) 397

Lysogeny and other characteristics of *Staphylococcus hyicus* isolated from chickens, 8 (1983) 411

Isolation of enterotoxigenic strains of staphylococci from dogs, 8 (1983) 459

Reliability of thermonuclease production for the identification of human and animal *Staphylococcus aureus*, 9 (1984) 271

Detection of staphylo-coagulase using plasmas from various animals, 10 (1985) 387

The expression of capsule in serum-soft agar by *Staphylococcus aureus* isolated from bovine mastitis, 13 (1987) 225

Reinfection of bovine mammary glands following dry-cow antibiotic therapy, 15 (1987) 191

Adhesion of *Staphylococcus aureus* and *Escherichia coli* to bovine udder epithelial cells, 16 (1988) 77

Colony morphology of *Staphylococcus aureus* in serum-soft agar following in vivo and in vitro growth, 16 (1988) 87

Immunological cross-reactivity between pseudocapsular antigens of strains of *Staphylococcus aureus* isolated from cases of bovine mastitis, 16 (1988) 159

Interaction of sub-epithelial connective tissue components with *Staphylococcus aureus* and coagulase-negative staphylococci from bovine mastitis, 18 (1988) 163

Staphylococcus hyicus

Production of enterotoxin(s) by *Staphylococcus hyicus*, 9 (1984) 487

Proteolytic zymograms of *Staphylococcus hyicus* subsp. *hyicus* isolated from pigs, chickens and cows, 14 (1987) 47

Isolation and restriction endonuclease analysis of a tetracycline resistance plasmid from *Staphylococcus hyicus*, 24 (1990) 113

Assay of protein A in *Staphylococcus hyicus* subsp. *hyicus* by ELISA and immunoelectron microscopy, 25 (1990) 297

***Staphylococcus* spp.**

Biochemical characterization of staphylococci isolated from goats, 7 (1982) 463

Udder infection of goats by coagulase-negative staphylococci, 9 (1984) 131

Identification and characterization of staphylococci isolated from cats, 9 (1984) 279

Identification and characteristics of staphylococci isolated from lesions and normal skin of horses, 10 (1984/1985) 269

Comparative characteristics of *Staphylococcus sciuri*, *Staphylococcus lentus* and *Staphylococcus gallinarum* isolated from healthy and sick hosts, 11 (1986) 185

A comparison of the STAPH-Ident and STAPH-Trac systems to conventional methods in the identification of staphylococci isolated from bovine udders, 12 (1986) 179

Protective effect of glucan against experimentally induced staphylococcal mastitis in ewes, 16 (1988) 67

Stomatitis papulosa virus

Comparisons between two isolates of stomatitis papulosa virus, 7 (1982) 109

Streptococcus agalactiae

Ingestion and killing of *Streptococcus agalactiae* by bovine granulocytes in the presence of natural opsonins, 18 (1988) 41

Streptococcus equi

Adherence of *Streptococcus equi* on tongue, cheek, and basal epithelial cells of ponies, 8 (1983) 493

***Streptococcus* spp.**

Streptococcal infection as a cause of reproductive tract problems of swine, 5 (1980) 135

Group G type X: a new antigen combination in streptococci isolated from cases of bovine mastitis in Israel, 6 (1981) 383

A case study of *Streptococcus* group G infection in a dairy herd, 9 (1984) 571

Biology of the group E streptococci: a review, 12 (1986) 297

Streptococcus suis

Identification and characterization of *Streptococcus suis*, 11 (1986) 349

Isolation of *Streptococcus suis* from diseased pigs in Canada, 17 (1988) 171

Monoclonal antibodies for coagglutination of *Streptococcus suis* Type 1, 20 (1989) 349

Isolation and characterization of temperature-sensitive mutants of *Streptococcus suis*: efficacy trial of the mutant vaccine in mice, 22 (1990) 257

Swine fever virus

Effect of dexamethasone on the multiplication of attenuated strains of hog cholera virus in pigs, 1 (1976) 475

A congenital persistent swine fever infection. I. Clinical and virological observations, 2 (1977) 121

A congenital persistent swine fever infection. II. Immune response to swine fever virus and unrelated antigens, 2 (1977) 133

Hog cholera virus: active immunization with the Thiverval strain in the presence and absence of colostral passive immunity, 3 (1978) 31

Experimental production of congenital persistent swine fever infections. I. Clinical, pathological and virological observations, 4 (1979) 117

Experimental production of congenital persistent swine fever infections. II. Effect on functions of the immune system, 4 (1979) 133

Effect of infections with swine fever virus of immune functions. I. Response of lymphocytes from blood and lymphoid organs from infected and normal pigs to anti-immunoglobulin serum and protein A, 6 (1981) 41

Effect of infections with swine fever virus on immune functions. II. Lymphocyte response to mitogens and enumeration of lymphocyte subpopulations, 8 (1983) 81

Effect of infections with swine fever virus on immune functions. III. Antibody response to lipopolysaccharide and sheep red blood cells, 8 (1983) 97

Congenital infections with nonarbo togaviruses, 8 (1983) 321

The neutralizing peroxidase-linked assay for detection of antibody against swine fever virus, 9 (1984) 113

Production of monoclonal antibodies against swine fever virus and their use in laboratory diagnosis, 12 (1986) 101

Influence of the vaccination regime on the herd immune response for swine fever, 13 (1987) 143

Cytopathogenic effect of African swine fever virus for pig monocytes: characterization and use in microassay, 14 (1987) 15

Genome analysis of African swine fever virus isolated in Italy in 1983, 14 (1987) 101

Inhibition of virus replication in the tonsils of pigs previously vaccinated with a Chinese strain vaccine and challenged oronasally with a virulent strain of classical swine fever virus, 14 (1987) 105

The protective value of vaccine-induced neutralising antibody titres in swine fever, 16 (1988) 123

Identification of hog cholera viral isolates by use of monoclonal antibodies to pestiviruses, 16 (1988) 315

An enzyme immunoassay employing monoclonal antibodies and detecting specifically antibodies to classical swine fever virus, 17 (1988) 129

Experimental infection of pregnant goats with swine fever virus, 20 (1989) 207

Antigenic differentiation of pestivirus strains with monoclonal antibodies against hog cholera virus, 21 (1989) 9

Nucleotide sequence of hog cholera virus RNA: properties of the polyprotein encoded by the open reading frame spanning the viral genomic RNA, 23 (1990) 185

Swine vesicular disease

Routine application of enzyme-linked immunosorbent assay in comparison with complement fixation for the diagnosis of foot-and-mouth and swine vesicular diseases, 16 (1988) 201

Swollen head syndrome

Avian paramyxoviridae—recent developments, 23 (1990) 103

Taxonomy

The taxonomic status of *Rhodococcus equi*, 14 (1987) 205

Pestiviruses: a review, 23 (1990) 35

Taylorella*—see also *Haemophylus

Taylorella equigenitalis

Passive hemagglutination test for detection of antibodies against *Taylorella (Haemophilus) equigenitalis* in sera of mares, 18 (1988) 155

Tenosynovitis

Staphylococcus aureus isolated from poultry in Australia. II. Epidemiology of strains associated with tenosynovitis, 7 (1982) 485

Tests—agar gel diffusion test

Diagnosis of *Rhodococcus equi* infection in foals by the agar gel diffusion test with protein antigen, 15 (1987) 105

Tests—agar gel immunodiffusion test

Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture, 19 (1989) 183

Tests—API 20E test

Evaluation of the API 20E and microbact 24E systems for the identification of *Pseudomonas pseudomallei*, 8 (1983) 611

Tests—API ZYM system

Rapid identification of *Haemophilus somnus*, *Histophilus ovis* and *Actinobacillus seminis* using the API ZYM system, 17 (1988) 75

Tests—API20 system

Evaluation of a multi-test microtube system for the identification of veterinary isolates of *Enterobacteriaceae*, 5 (1980) 229

Tests—automated colorimetric assay

Automated colorimetric assay for the detection of *Pasteurella haemolytica* leucotoxin, 12 (1986) 33

Tests—bacterial restriction endonuclease DNA analysis

Comparison of *Mycoplasma ovipneumoniae* isolates using bacterial restriction endonuclease DNA analysis and SDS-PAGE, 10 (1985) 541

Tests—broth inoculum standardization method

Evaluation of a rapid inoculum standardization system for antimicrobial susceptibility testing of bacterial isolates from the bovine mammary gland, 12 (1986) 269

Tests—chromogenic limulus test

Endotoxin levels in milk and plasma of mastitis-affected cows measured with a chromogenic limulus test, 20 (1989) 267

Tests—competition radioimmunoassay

Detection and quantitation of a type D retrovirus *gag* protein in ovine pulmonary carcinoma (sheep pulmonary adenomatosis) by means of a competition radioimmunoassay, 25 (1990) 17

Tests—complement fixation test

Serological investigations on bovine leukemia virus, 1 (1976) 253

A comparative study of the complement fixation test for *Mycoplasma hyopneumoniae* in SPF and non-SPF herds of swine in Illinois, 1 (1976) 459

Comparison of rapid card agglutination test with the complement fixation test for diagnosis of *Anaplasma marginale* infection in cattle in Colombia, 2 (1977) 167

Serologic comparisons of 4 *Anaplasma* isolates as measured by the complement-fixation test, 9 (1984) 181

Comparison of an enzyme-linked immunosorbent assay using monoclonal antibodies and a complement fixation test for cattle vaccinated and infected with *Brucella abortus*, 12 (1986) 55

Routine application of enzyme-linked immunosorbent assay in comparison with complement fixation for the diagnosis of foot-

and-mouth and swine vesicular diseases, 16 (1988) 201

A comparison of enzyme-linked immunosorbent assay, complement fixation and virus isolation for foot and mouth disease diagnosis, 17 (1988) 21

Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture, 19 (1989) 183

Comparison of the dot-immunobinding assay with the complement fixation test for the detection of *Brucella* antibodies in sheep, 20 (1989) 281

Tests—counter-immunoelectrophoresis test

Antigens and antibodies of malignant catarrhal fever herpesvirus detected by immunodiffusion and counter-immunoelectrophoresis, 5 (1980) 205

A comparison of counter-immunoelectrophoresis with the rose bengal and the serum tube agglutination tests in the diagnosis of brucellosis in sheep, 5 (1980) 223

Tests—delayed-type hypersensitivity test

An evaluation of the delayed-type hypersensitivity test for diagnosing brucellosis in individual cattle: a field study, 22 (1990) 241

Tests—direct enzyme-colloidal gold cytochemistry

Identification and localization of surface sialylated glycoconjugates in *Actinobacillus pleuropneumoniae* by direct enzyme-colloidal gold cytochemistry, 25 (1990) 217

Tests—direct immunofluorescence staining

Comparison of DNA-spot hybridization, cell culture and direct immunofluorescence staining for the diagnosis of avian chlamydiae, 18 (1988) 15

Tests—direct immunoperoxidase test

The use of the direct immunoperoxidase test to detect the multiplication of rinderpest virus in bovine kidney cell culture, 6 (1981) 23

The rapid detection of Aujeszky's disease virus in pigs by direct immunoperoxidase labelling, 10 (1985) 481

Tests—DNA hybridisation

Detection of leptospires in biological fluids using DNA hybridisation, 15 (1987) 71

Detection of enterotoxigenic *Escherichia coli* in piggeries in Victoria by DNA hybridisation using K88, K99, LT, ST_1 and ST_2 probes, 16 (1988) 273

Tests—DNA hybridization technique

Detection of *Chlamydia psittaci* in free-ranging koalas (*Phascolarctos cinereus*): DNA hybridization and immuno-slot blot analyses, 21 (1989) 21

Tests—DNA probe

Mapping of porcine parvovirus DNA and development of a diagnostic DNA probe, 17 (1988) 29

DNA probes for *Mycoplasma gallisepticum* and *Mycoplasma synoviae*: application in experimentally infected chickens, 20 (1989) 323

Nine DNA probes for detection of toxin and adhesin genes in *Escherichia coli* isolated from diarrhoeal disease in animals, 25 (1990) 55

Tests—DNA–RNA hybridization assay

Detection of infectious pancreatic necrosis virus (IPNV) RNA by hybridization with an oligonucleotide DNA probe, 23 (1990) 211

Tests—DNA-spot hybridization test

Comparison of DNA-spot hybridization, cell culture and direct immunofluorescence staining for the diagnosis of avian chlamydiae, 18 (1988) 15

Tests—dot blotting immunodetection technique

Rapid confirmatory identification of *Mycobacterium bovis* using a dot blotting immunodetection technique, 22 (1990) 335

Tests—dot hybridization assay

Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus, 24 (1990) 327

Tests—dot-immunobinding assay

Comparison of the dot-immunobinding assay with the complement fixation test for the detection of *Brucella* antibodies in sheep, 20 (1989) 281

Dot immunobinding assay in comparison with enzyme-linked immunosorbent assay for the detection of bluetongue virus antibodies in sheep, 22 (1990) 365

Tests—ELISA

The quantitative estimation of antibody to *Pasteurella haemolytica* in sheep sera using a micro-enzyme-linked immunosorbent assay (ELISA), 3 (1978/1979) 291

Evaluation of the critical parameters of a sensitive ELISA test using purified infectious bovine rhinotracheitis virus antigens, 6 (1981) 265

An indirect enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to maedi-visna virus, 7 (1982) 209

Enzyme-linked immunosorbent assay for the detection of the coronavirus-like agent and its antibodies in pigs with porcine epidemic diarrhea, 7 (1982) 295

Enzyme-linked immunosorbent assay for diagnosis of equine infectious anemia, 7 (1982) 307

Specificity of the enzyme-linked immunosorbent assay (ELISA) for antibodies in the sera of specific pathogen-free lambs vaccinated with *Pasteurella haemolytica* antigens, 8 (1983) 199

A rapid enzyme-linked immunosorbent assay for the detection of foot-and-mouth disease virus in epithelial tissues, 9 (1984) 435

A comparative study of ELISA and other methods for the detection of *Brucella* antibodies in bovine sera, 10 (1984/1985) 13

Evaluation of the enzyme-linked immunosorbent assay in the detection of cattle infected with *Brucella abortus*, 10 (1984/1985) 23

A single dilution enzyme-linked immunosorbent assay for the quantitative detection of antibodies to bovine herpesvirus type 1, 10 (1984/1985) 133

Detection of antibodies to bovid herpesvirus 4 by ELISA, 10 (1984/1985) 149

Enzyme-linked immunosorbent assay for the detection of antibodies to bovine viral diarrhea virus in bovine sera, 10 (1985) 325

An enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to bovine viral diarrhoea virus (BVDV) in cattle sera, 10 (1985) 359

The use of enzyme-linked immunosorbent assay (ELISA) to detect the IgM and IgG antibody response to *Leptospira interrogans* serovars *hardjo*, *pomona* and *tarassovi* in cattle, 10 (1985) 439

Rapid detection of *Chlamydia psittaci* in vaginal swabs of aborted ewes and goats by enzyme linked immunosorbent assay (ELISA), 11 (1986) 251

Comparison of an enzyme-linked immunosorbent assay using monoclonal antibodies and a complement fixation test for cattle vaccinated and infected with *Brucella abortus*, 12 (1986) 55

Measurement of *Pasteurella haemolytica*-specific lung and serum antibodies by ELISA, 12 (1986) 337

Evaluation of enzyme-linked immunosorbent assay for the detection of transmissible gastroenteritis virus antibodies, 13 (1987) 93

Highly sensitive antigen detection procedures for the diagnosis of infectious bovine rhinotracheitis: amplified ELISA and reverse passive haemagglutination, 13 (1987) 135

Evaluation of an antigen-capture ELISA for the detection of bovine herpesvirus Type 1 shedding from feedlot cattle, 16 (1988) 101

Routine application of enzyme-linked immunosorbent assay in comparison with complement fixation for the diagnosis of foot-and-mouth and swine vesicular diseases, 16 (1988) 201

Studies with enzyme-linked immunosorbent assays for the serodiagnosis of bluetongue and epizootic haemorrhagic disease of deer, 16 (1988) 323

Detection of antibodies against porcine parvovirus in swine sera by enzyme-linked immunosorbent assay, 17 (1988) 11

A comparison of enzyme-linked immunosorbent assay, complement fixation and virus isolation for foot and mouth disease diagnosis, 17 (1988) 21

Double-sandwich enzyme-linked immunosorbent assay for determination of *Escherichia coli* heat-labile porcine enterotoxins, 17 (1988) 83

An enzyme immunoassay employing monoclonal antibodies and detecting specifically antibodies to classical swine fever virus, 17 (1988) 129

Development and evaluation of an enzyme-linked immunosorbent assay for endotoxin in milk, 18 (1988) 27

An enzyme-linked immunosorbent assay for the detection of vesicular stomatitis virus antigen, 18 (1988) 243

Single dilution ELISA for detection of serum antibody to foot-and-mouse disease virus in cattle, 18 (1988) 273

Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture, 19 (1989) 183

Seroepidemiology of Breda virus in cattle using ELISA, 19 (1989) 233

Aujeszky's disease ELISA: cross-reactions with other herpesvirus antisera, 20 (1989) 1

A competitive inhibition ELISA for the differentiation of serum antibodies from pigs infected with transmissible gastroenteritis virus (TGEV) or with the TGEV-related porcine respiratory coronavirus, 20 (1989) 9

Characterization of monoclonal and polyclonal antibodies to bovine enteric coronavirus: establishment of an efficient ELISA for antigen detection in feces, 20 (1989) 111

Use of hydrophobic cloths as antibody adsorbents for enzyme immunoassay: detection of *Brucella* antigens, 20 (1989) 155

The effects of vaccination with tissue culture-derived viral vaccines on detection of antibodies to equine arteritis virus by enzyme-linked immunosorbent assay (ELISA), 20 (1989) 181

Antibodies to foot-and-mouth disease virus infection associated (VIA) antigen: use of a bioengineered VIA protein as antigen in an ELISA, 20 (1989) 235

Detection of antibodies against Akabane virus in bovine sera by enzyme-linked immunosorbent assay, 20 (1989) 275

Evaluation of an ELISA for the diagnosis of experimentally induced and naturally occurring *Leptospira hardjo* infections in cattle, 21 (1989) 255

Enzyme-linked immunosorbent assay for the detection of porcine epidemic diarrhea coronavirus antibodies in swine sera, 21 (1989) 263

Blocking enzyme-linked immunosorbent assay for detection of antibodies against bovine enterovirus, 21 (1989) 275

An enzyme-linked immunosorbent assay (ELISA) for antibodies to bovine viral diarrhea virus, 22 (1990) 1

Dot immunobinding assay in comparison with enzyme-linked immunosorbent assay for the detection of bluetongue virus antibodies in sheep, 22 (1990) 365

ELISA detection of bovine viral diarrhoea virus specific antibodies using recombinant antigen and monoclonal antibodies, 23 (1990) 193

Diagnosis of bovine brucellosis by enzyme immunoassay of milk, 24 (1990) 73

A complex-trapping-blocking (CTB) ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. I. Method and characteristics, 24 (1990) 171

A complex-trapping-blocking (CTB) ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. II. Applications, 24 (1990) 179

The development and evaluation of an enzyme-linked immunosorbent assay for the detection of *Mycobacterium bovis*, 24 (1990) 205

An enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies to *Anaplasma centrale* and *Anaplasma*

marginale, 25 (1990) 45

Development of an avidin–biotin dot enzyme-linked immunosorbent assay and its comparison with other serological tests for diagnosis of glanders in equines, 25 (1990) 77

Evaluation of the ELISA and comparison to the complement fixation test and radial immunodiffusion enzyme assay for detection of antibodies against *Mycoplasma hyopneumoniae* in swine serum, 25 (1990) 177

The sensitivity and specificity of a modified ELISA for the diagnosis of Johne's disease from a field trial in cattle, 25 (1990) 193

Assay of protein A in *Staphylococcus hyicus* subsp. *hyicus* by ELISA and immunoelectron microscopy, 25 (1990) 297

Tests—enzymatic radioimmunoassay

Enzymatic radioimmunoassay for detecting *Leptospira interrogans* serovar *pomona* in the urine of experimentally-infected pigs, 10 (1984/1985) 279

Tests—enzyme immunoassay

Application of the indirect enzyme immunoassay for the detection of antibodies against *Erysipelothrix rhusiopathiae*, 10 (1985) 549

Screening of pig intestines for K88 non-adhesive phenotype by enzyme immunoassay, 11 (1986) 153

Tests—fluorescent antibody test

Comparison of fluorescent antibody tests for tuberculosis and paratuberculosis with antigens coupled to insoluble spheres or taken up by macrophages, 2 (1977) 39

The use of the fluorescent antibody test to detect *Escherichia coli* with K88 and 987P pilus antigens, 11 (1986) 197

The detection of salmonella infection in calves by the fluorescent antibody test, 19 (1989) 85

Tests—four layer enzyme immunoassay

Four-layer enzyme immunoassay (EIA) detection of differences in IgG, IgM and IgA antibody response to Aujeszky's disease virus in infected and vaccinated pigs, 13 (1987) 121

Tests—gas–liquid chromatography

The detection of obligate anaerobic bacteria in udder secretions of dry cattle with mastitis during summer: a comparison between gas–liquid chromatography and bacteriological culturing methods, 14 (1987) 173

Tests—gel chromatography

Purification of infectious bronchitis coronavirus by Sephacryl S-1000 gel chromatography, 21 (1989) 115

Tests—haemagglutination-inhibition test

Hemagglutination-inhibition test applied to the study of Akabane virus infection in domestic animals, 3 (1978) 89

Specificity of purified protein derivative extracts from ten species of *Mycobacteria* killed with phenol in the haemagglutination and haemagglutination inhibition test, 9 (1984) 301

Tests—haemagglutination test

Specificity of purified protein derivative extracts from ten species of *Mycobacteria* killed with phenol in the haemagglutination and haemagglutination inhibition test, 9 (1984) 301

An improved hemagglutination test for study of canine parvovirus, 12 (1986) 1

Tests—immuno-slot blot analysis

Detection of *Chlamydia psittaci* in free-ranging koalas (*Phascolarctos cinereus*): DNA hybridization and immuno-slot blot analyses, 21 (1989) 21

Tests—immunoblotting analysis

Immunoblot analysis of the antibody response to ovine lentivirus infections, 19 (1989) 127

Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus), 19 (1989) 205

Polypeptide and antigenic variability among strains of *Mycoplasma ovipneumoniae* demonstrated by SDS—PAGE and immunoblotting, 21 (1989) 241

Tests—immunoblotting test

Recognition of *Mycoplasma arthritidis* membrane antigens by rats and rabbits: comparison by immunoblotting and radioimmunoprecipitation, 17 (1988) 45

Tests—immunodiffusion test

Techniques and results of immunodiffusion test in field trials, 1 (1976) 219

An improved immunodiffusion test for antibodies to bovine leukemia virus antigens, 5 (1980) 195

Antigens and antibodies of malignant catarrhal fever herpesvirus detected by immunodiffusion and counterimmunoelectrophoresis, 5 (1980) 205

Detection of rotavirus infection by immunodiffusion, 6 (1981) 31

Enzootic bovine leukosis: preparation of an antigen for the agar gel immunodiffusion test and statistical comparison with other antigens, 6 (1981) 247

Immunodiffusion test antigen from bluetongue virus-infected newborn mouse brains, 8 (1983) 363

Tests—immunoperoxidase staining technique

Detection of bovine virus diarrhea virus in cell culture using an immunoperoxidase technique, 13 (1987) 153

Tests—in situ hybridization

Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA, 24 (1990) 261

Dectection of latent pseudorabies virus in swine using in situ hybridization, 24 (1990) 273

Tests—indirect fluorescent antibody test

Serotypes in *Cowdria ruminantium* and their relationship with *Ehrlichia phagocytophila* determined by immunofluorescence, 21 (1989) 31

Tests—indirect haemagglutination test

Evaluation of the indirect hemagglutination assay as a practical serodiagnostic test for mycoplasmal pneumonia of swine, 9 (1984) 259

An indirect hemagglutination test for the detection of antibodies to *Clostridium chauvoei*, 10 (1985) 315

Tests—indirect immunofluorescent antibody technique

Studies on *Pasteurella multocida*. IV. Immunofluorescence detection of the organisms in spleen and lungs of turkeys vaccinated with live oral vaccines, 1 (1976) 3

Detection of African malignant catarrhal fever virus antigens in cell cultures by immunofluorescence, 1 (1976) 437

Detection of antibodies to the agent of tickborne fever by indirect immunofluorescence, 21 (1989) 133

Tests—indirect immunoperoxidase test

An improved method for the identification of *Mycoplasma dispar*, 14 (1987) 25

Tests—infant mouse test

Cultural methods for the production of heatstable enterotoxin by porcine strains of *Escherichia coli* and its detection by the infant mouse test, 7 (1982) 253

Tests—latex agglutination test

Adaptation of a latex agglutination tube test for diagnosis of *Mycoplasma hyopneumoniae* swine pneumonia, 4 (1979) 157

Studies on haemophilus infection in swine. I. Application of the latex agglutination test to the diagnosis of *Haemophilus pleuropneumoniae* (*H. parahaemolyticus*) infection, 6 (1981) 339

Tests—Limulus test

Perchloric acid treatment and use of chromogenic substrate in the Limulus test: application to veterinary diagnosis, 10 (1984/1985) 33

Tests—micro-titration plate bactericidal assay

A rapid micro-method for the study of antibody-mediated killing of bacteria, with specific application to infection of sheep with *Pasteurella haemolytica*, 16 (1988) 263

Tests—Microbact 24E test

Evaluation of the API 20E and microbact 24E systems for the identification of *Pseudomonas pseudomallei*, 8 (1983) 611

Tests—microculture syncytia assay

A microculture syncytia assay for bovine leukemia virus, 3 (1978) 77

Tests—milk ring test

Role of milk immunoglobulins in the *Brucella* milk ring test, 12 (1986) 359

Tests—mouse lethal dose assay

A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks, 19 (1989) 151

Tests—multilocus enzyme electrophoresis

Multilocus enzyme electrophoresis for identification and typing of *Treponema hyodysenteriae* and related spirochaetes, 22 (1990) 89

Tests—neutralization test

Infectivity assay and neutralization test for equine influenza virus in microplate cell cultures, 6 (1981) 309

Comparison by the neutralisation assay of pairs of non-cytopathogenic and cytopathogenic strains of bovine virus diarrhoea virus isolated from cases of mucosal disease, 13 (1987) 361

Tests—neutralizing peroxidase-linked assay

The neutralizing peroxidase-linked assay for detection of antibody against swine fever virus, 9 (1984) 113

Tests—nucleic acid probes

Special Issue "Nucleic Acid Probes in Veterinary Infectious Diseases: Methods and Applications", 24 (1990) 215–417

Tests—oligonucleotide mapping

Genetic drift of equine 2 influenza A virus (H3N8), 1963–1988: analysis by oligonucleotide mapping, 22 (1990) 225

Tests—passive haemagglutination test

A passive haemagglutination test for detection of antibodies against *Mycoplasma mycoides* subsp. *mycoides* using glutaraldehyde-fixed sheep erythrocytes, 7 (1982) 343

Passive hemagglutination test for detection of antibodies against *Taylorella (Haemophilus) equigenitalis* in sera of mares, 18 (1988) 155

Tests—plaque assay

Malignant catarrhal fever virus—plaque assay and enhanced neutralisation in hypotonic medium, 4 (1979) 29

Comparison of bovine rotavirus strains by plaque assay, 6 (1981) 379

Plaque assay of equine influenza virus, 9 (1984) 187

Comparison by plaque assay of bovine rotavirus and a bovine enterovirus-like agent, 12 (1986) 189

A sensitive plaque assay for bovine rotavirus in cultures of the bovine cell line GBK, 13 (1987) 383

Tests—polyacrylamide gel electrophoresis

A study of antigenic variants of foot-and-mouth disease virus by polyacrylamide gel electrophoresis of their structural polypeptides, 10 (1985) 347

Tests—polymerase chain reaction

Equine herpesvirus type 1: detection of viral DNA sequences in aborted fetuses with the polymerase chain reaction, 22 (1990) 373

Rapid detection of pseudorabies virus genomic sequences in biological samples from infected pigs using polymerase chain reaction DNA amplification, 23 (1990) 317

Caprine arthritis-encephalitis (CAE) and maedi-visna viruses detected by the polymerase chain reaction (PCR), 23 (1990) 329

Bovine leukaemia proviral DNA detection in cattle using the polymerase chain reaction, 25 (1990) 117

Tests—protein A–colloidal gold immunoelectron microscopy technique

Development of protein A—gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells, 19 (1989) 217

Tests—protein A–gold immunolabelling assay

Ultrastructure and protein A—gold immunolabelling of HRT-18 cells infected with turkey enteric coronavirus, 20 (1989) 21

Tests—radial growth precipitation test

A radial growth precipitation test and its comparison with certain other serological tests for detection of antibody in bovine sera to *Mycoplasma agalactiae* subsp. *bovis*, 1 (1976) 23

Tests—radial immunodiffusion enzyme assay

A radial immunodiffusion enzyme assay for detection of antibody to equine rhinopneumonitis virus (EHV-1) in horse serum, 17 (1988) 315

Tests—radioimmunoassay

Experimental trials on the use of radioimmunoassay for the detection of leptospiral antigens in urine, 12 (1986) 161

Tests—radioimmunoprecipitation

Recognition of *Mycoplasma arthritidis* membrane antigens by rats and rabbits: comparison by immunoblotting and radioimmunoprecipitation, 17 (1988) 45

Tests—rapid card agglutination test

Comparison of rapid card agglutination test with the complement fixation test for diagnosis of *Anaplasma marginale* infection in cattle in Colombia, 2 (1977) 167

Tests—rapid inoculum standardization system

Evaluation of a rapid inoculum standardization system for antimicrobial susceptibility testing of bacterial isolates from the bovine mammary gland, 12 (1986) 269

Tests—rapid quantitative plate agglutination test

Studies on the use of *Yersinia enterocolitica* 09 antigens in rapid quantitative plate tests for the differentiation of Brucella and Yersinia infections in cattle and the diagnosis of bovine brucellosis, 5 (1980) 323

Tests—restriction endonuclease analysis

Restriction endonuclease analysis of *Brucella ovis* and other *Brucella* species, 10 (1985) 425

An examination of *Campylobacter fetus* subsp. *fetus* by restriction endonuclease analysis and serology, 14 (1987) 53

Typing of *Treponema hyodysenteriae* by restriction endonuclease analysis, 19 (1989) 351

Isolation and restriction endonuclease analysis of a tetracycline resistance plasmid from *Staphylococcus hyicus*, 24 (1990) 113

Tests—reverse passive haemagglutination test

Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination, 15 (1987) 57

Tests—rose bengal test

A comparison of counter-immunoelectrophoresis with the rose bengal and the serum tube agglutination tests in the diagnosis of brucellosis in sheep, 5 (1980) 223

Tests—SDS–PAGE

Polypeptide and antigenic variability among strains of *Mycoplasma ovipneumoniae* demonstrated by SDS—PAGE and immunoblotting, 21 (1989) 241

Tests—Sensititre method

Evalution of the Sensititre method adapted for antimicrobial drug susceptibility testing in veterinary medicine, 7 (1982) 447

Tests—serum tube agglutination test

A comparison of counter-immunoelectrophoresis with the rose bengal and the serum tube agglutination tests in the diagnosis of brucellosis in sheep, 5 (1980) 223

Tests—single disc sensitivity test

Susceptibility of *Pseudomonas pseudomallei* isolates of non-human origin to chemotherapeutic agents by the single disc sensitivity method, 6 (1981) 367

Tests—slide precipitation test

Slide precipitation: a simple method to type *Actinobacillus (Haemophilus) pleuropneumoniae*, 24 (1990) 123

Tests—solid-phase fluorescent immunoassay

A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples, 15 (1987) 1

Tests—Southern blot hybridization

Characterization of *Listeria monocytogenes* isolates by Southern blot hybridization, 24 (1990) 341

Tests—staining methods

A simple staining method for the identification of chlamydial elementary bodies in the fetal membranes of sheep affected by ovine enzootic abortion, 21 (1989) 233

Tests—STAPH-Ident

A comparison of the STAPH-Ident and STAPH-Trac systems to conventional methods in the identification of staphylococci isolated from bovine udders, 12 (1986) 179

Tests—STAPH-Trac

A comparison of the STAPH-Ident and STAPH-Trac systems to conventional methods in the identification of staphylococci isolated from bovine udders, 12 (1986) 179

Tests—T1 oligonucleotide fingerprinting

Variation in foot-and-mouth disease virus isolates in Kenya: an examination of field isolates by T1 oligonucleotide fingerprinting, 10 (1985) 409

Tests—thermonuclease test

Reliability of thermonuclease production for the identification of human and animal *Staphylococcus aureus*, 9 (1984) 271

Tests—whole blood lymphocyte stimulation assay

Development of a whole blood lymphocyte stimulation assay for detecting hypersensitivity to PPD in cattle experimentally infected with *Mycobacterium bovis*, 2 (1977) 261

Tetracycline

Isolation and restriction endonuclease analysis of a tetracycline resistance plasmid from *Staphylococcus hyicus*, 24 (1990) 113

Thymulin

Influence of thymic hormone on cell-mediated and humoral immune response in Marek's disease, 19 (1989) 53

Tiamulin

A comparison of the effect of tiamulin hydrogen fumarate and tylosin tartrate on mycoplasmas of ruminants and some animal ureaplasmas, 9 (1984) 147

In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs, 15 (1987) 65

Tibrogargan virus

Isolation of Tibrogargan virus, a new Australian rhabdovirus, from *Culicoides brevitarsis*, 5 (1980) 301

Tick-borne fever virus

In vitro propagation of *Cytoecetes phagocytophila*, the causative agent of tick-borne fever, 7 (1982) 127

Tick-borne fever: leucocyte migration inhibition, 7 (1982) 437

Detection of antibodies to the agent of tick-borne fever by indirect immunofluorescence, 21 (1989) 133

Togavirus—general

Congenital infections with nonarbo togaviruses, 8 (1983) 321

Tonsils

Inhibition of virus replication in the tonsils of pigs previously vaccinated with a Chinese strain vaccine and challenged oronasally with a virulent strain of classical swine fever virus, 14 (1987) 105

Tortilla Flat virus

Hemagglutination with rhabdoviruses related to bovine ephemeral fever virus, 11 (1986) 1

Toxin, dermonecrotic

Purification of a heat labile dermonecrotic toxin from culture fluid of *Pasteurella multocida*, 13 (1987) 235

Toxins—general

A test in Vero cell monolayers for toxin production by strains of *Pasteurella multocida* isolated from pigs suspected of having atrophic rhinitis, 9 (1984) 503

Biochemical and toxigenic characteristics of *Aeromonas* spp. isolated from diseased mammals, moribund and healthy fish, 18 (1988) 63

Transmissible gastroenteritis coronavirus

Natural infection with the porcine respiratory coronavirus induces protective lactogenic immunity against transmissible gastroenteritis, 21 (1989) 1

Transmissible gastroenteritis virus

Multiplication of low and high cell culture passaged strains of transmissible gastroenteritis virus in organs of newborn piglets, 3 (1978/1979) 169

Antigenicity of structural components from porcine transmissible gastroenteritis virus, 3 (1978/1979) 179

Differentiation of canine coronavirus and porcine transmissible gastroenteritis virus by neutralization with canine, porcine and feline sera, 5 (1980) 283

The role of interferon in spontaneous cell-mediated cytotoxicity in pigs, 11 (1986) 69

Evaluation of enzyme-linked immunosorbent assay for the detection of transmissible gastroenteritis virus antibodies, 13 (1987) 93

Transmissible gastroenteritis (TGE) of swine: in vitro virus attachment and effects of polyanions and polycations, 14 (1987) 343

Lack of protection in vivo with neutralizing monoclonal antibodies to transmissible gastroenteritis virus, 18 (1988) 197

A competitive inhibition ELISA for the differentiation of serum antibodies from pigs infected with transmissible gastroenteritis virus (TGEV) or with the TGEV-related porcine respiratory coronavirus, 20 (1989) 9

Intestinal replication of a porcine respiratory coronavirus closely related antigenically to the enteric transmissible gastroenteritis virus, 23 (1990) 237

Transmission of disease

Introductory remarks to the session on transmission, 1 (1976) 323

The influence of colostrum and milk on the development of lymphocytosis in the bovine, 1 (1976) 327

Sporadic or enzootic leukosis in Italy? Data on experimental transmission, 1 (1976) 337

Study on the oral transmission of bovine leukosis to sheep, 1 (1976) 347

Serological evidence of transmission of bovine leukemia virus to chimpanzees, 1 (1976) 351

Transmission experiments with EBL virus in sheep and goats, 1 (1976) 359

Aujeszky's disease of sheep: experimental studies on the excretion and horizontal transmission of the virus, 13 (1987) 353

Transplacental infection in mice inoculated with Getah virus, 16 (1988) 129

Superinfection with porcine cytomegalovirus initiating transplacental infection, 16 (1988) 189

Studies of transplacental and perinatal infection with two clones of a single Aujeszky's disease (pseudorabies) virus isolate, 16 (1988) 243

Transmission of bovine virus diarrhoea virus (BVDV) by artificial insemination (AI) with semen from a persistently-infected bull, 17 (1988) 97

Horizontal transmission of Aujeszky's disease virus from sheep to pigs, 19 (1989) 245

Treponema hyodysenteriae

Location of *Treponema hyodysenteriae* and synergistic anaerobic bacteria in colonic lesions of gnotobiotic pigs, 6 (1981) 69

Treponema hyodysenteriae growth under various culture conditions, 18 (1988) 177

Typing of *Treponema hyodysenteriae* by restriction endonuclease analysis, 19 (1989) 351

Multilocus enzyme electrophoresis for identification and typing of *Treponema hyodysenteriae* and related spirochaetes, 22 (1990) 89

Biochemical and immunochemical characterisation of strains of *Treponema hyodysenteriae*, 24 (1990) 29

Tritrichomonas foetus

Improved cultural methods for *Tritrichomonas foetus*, 2 (1977) 89

Trout

Biological properties of viral haemorrhagic septicaemia virus: adsorption and replication, 1 (1976) 421

Turkey

Studies on *Pasteurella multocida*. IV. Immunofluorescence detection of the organisms in spleen and lungs of turkeys vaccinated with live oral vaccines, 1 (1976) 3

The pathogenicity of three Australian fowl plague viruses for chickens, turkeys and ducks, 4 (1979) 223

A protective antigen for turkey's purified from a type 1 strain of *Pasteurella multocida*, 10 (1984/1985) 43

Ultrastructure and protein A—gold immunolabelling of HRT-18 cells infected with turkey enteric coronavirus, 20 (1989) 21

Turkey enteric coronavirus

Ultrastructure and protein A—gold immunolabelling of HRT-18 cells infected with turkey enteric coronavirus, 20 (1989) 21

Turkey rhinotracheitis virus

Avian paramyxoviridae—recent developments, 23 (1990) 103

Tylosin

A comparison of the effect of tiamulin hydrogen fumarate and tylosin tartrate on mycoplasmas of ruminants and some animal ureaplasmas, 9 (1984) 147

In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs, 15 (1987) 65

Tyzzer's disease

Tyzzer's disease in cats experimentally infected with feline leukaemia virus, 2 (1977) 49

Ultraviolet light

Immunogenicity of equine herpesvirus type 1 (EHV1) and equine rhinovirus type 1 (ERhV1) following inactivation by betapropiolactone (BPL) and ultraviolet (UV) light, 7 (1982) 535

***Ureaplasma* spp.**

A comparison of the effect of tiamulin hydrogen fumarate and tylosin tartrate on mycoplasmas of ruminants and some animal ureaplasmas, 9 (1984) 147

The experimental production of mastitis in ewes as a determinant of the virulence of ovine ureaplasma strains, 10 (1984/1985) 117

Identification of Mycoplasmatales in pneumonic calf lungs, 11 (1986) 79

The potential of the ovine udder as a model to determine the pathogenicity of bovine ureaplasmas, 14 (1987) 157

Urine

Enzymatic radioimmunoassay for detecting *Leptospira interrogans* serovar *pomona* in the urine of experimentally-infected pigs, 10 (1984/1985) 279

Experimental trials on the use of radioimmunoassay for the detection of leptospiral antigens in urine, 12 (1986) 161

Urogenital tract

Adhesion of *Corynebacterium renale* and *Corynebacterium pilosum* to the epithelial cells of various parts of the bovine urinary tract from the renal pelvis to vulva, 10 (1984/1985) 287

Effect of intratesticular inoculation with Aujeszky's disease virus on genital organs of boars, 14 (1987) 355

Vaccination—*Actinobacillus pleuropneumoniae*

Protective efficacy of capsule extracts of *Haemophilus pleuropneumoniae* in pigs and mice, 12 (1986) 229

Protection of mice against the lethal effect of an intraperitoneal infection with *Haemophilus (Actinobacillus) pleuropneumoniae* after vaccination with capsular proteins, 18 (1988) 335

Vaccination—adenovirus, general

Protective effect of vaccination against experimental adenoviral pneumoenteritis in fattening lambs, 3 (1978/1979) 191

Vaccination—Aujeszky's disease virus

In vitro stimulation of pig lymphocytes after infection and vaccination with Aujeszky's disease virus, 3 (1978/1979) 255

The evaluation of an experimental porcine herpesvirus 1 (Aujeszky's disease virus) subunit vaccine in mice, 5 (1980) 291

The evaluation of a lectin–agarose based subunit vaccine and complementary diagnostic antigen for Aujeszky's disease (pseudorabies) in the pig, 9 (1984) 35

Intranasal vaccination of pigs against Aujeszky's disease. 4. Comparison with one or two doses of an inactivated vaccine in pigs with moderate maternal antibody titres, 10 (1985) 401

Iscom of viral envelope proteins protects against Aujeszky's disease, 20 (1989) 143

Extent and duration of virulent virus excretion upon challenge of pigs vaccinated with different glycoprotein-deleted Aujeszky's disease vaccines, 22 (1990) 107

Marker vaccines, virus protein-specific antibody assays and the control of Aujeszky's disease, 23 (1990) 85

Vaccination—avian infectious bronchitis virus

Comparison of serological tests for the measurement of the primary immune response to avian infectious bronchitis virus vaccines, 2 (1977) 289

Vaccination—*Bacteroides nodosus*

Protection of sheep against footrot with a recombinant DNA-based fimbrial vaccine, 14 (1987) 393

Vaccination—*Bordetella bronchiseptica*

Effect of aflatoxin B1 on resistance induced by *Bordetella bronchiseptica* vaccine in rab-

bits, 25 (1990) 209

Vaccination—bovine ephemeral fever virus

An experimental inactivated virus vaccine against bovine ephemeral fever. 2. Do neutralizing antibodies protect against infection?, 4 (1979) 197

Vaccination—bovine herpesvirus

Hemagglutination inhibition and virus neutralizing response of rabbits inoculated with bovine herpesvirus 1 subunit vaccine, 13 (1987) 107

Vaccination—bovine leukemia virus

An attempt to protect calves against experimental bovine leukosis using allografts, 10 (1984/1985) 231

Vaccination—bovine parainfluenza virus

The effect of some inactivating agents and a deprived ionic environment on the haemagglutinin and neuraminidase activities of bovine parainfluenza-3 virus (PIV-3), 1 (1976) 427

Vaccination—*Brucella abortus*

Serological response of cattle after vaccination and challenge with *Brucella abortus*, 7 (1982) 165

The anamnestic response to *Brucella abortus*-infected and vaccinated cattle, 8 (1983) 405

Effects of challenge dose on the clinical and immune responses of cattle vaccinated with reduced doses of *Brucella abortus* strain 19, 10 (1985) 561

Production of *Brucella abortus*-specific Protein A-reactive antibodies (IgG_2) in infected and vaccinated cattle, 12 (1986) 43

Comparison of an enzyme-linked immunosorbent assay using monoclonal antibodies and a complement fixation test for cattle vaccinated and infected with *Brucella abortus*, 12 (1986) 55

Vaccination of cattle with chemically modified and unmodified salt-extractable proteins from *Brucella abortus*, 15 (1987) 325

Immunogenicity of *Brucella abortus* salt-extractable proteins, 20 (1989) 49

Vaccination—*Brucella ovis*

Immunization with *Brucella melitensis* Rev 1 against *Brucella ovis* infection of rams, 14 (1987) 381

Vaccination—canine parvovirus

Repeated suppression of lymphocyte blastogenesis following vaccinations of CPV-immune dogs with modified-live CPV vaccines, 12 (1986) 201

Vaccination—cattle, general

Influence of immunomodulatory agents on bovine humoral and cellular immune responses to parenteral inoculation with bovine rotavirus vaccines, 17 (1988) 323

Vaccination—*Chlamydia psittaci*

Efficacy of a bacterin prepared from *Chlamydia psittaci* grown in cell culture for experimental immunization of ewes, 7 (1982) 493

Analysis of caprine IgG1 and IgG2 subclass responses to *Chlamydia psittaci* infection and vaccination, 14 (1987) 125

Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies of *Chlamydia psittaci*, 24 (1990) 21

Vaccination—contagious ecthyma virus

Effect of passively-acquired antibodies and vaccination on the immune response to contagious ecthyma virus, 9 (1984) 515

Vaccination—*Dermatophilus congolensis*

Vaccination against ovine dermatophilosis, 18 (1988) 285

Vaccination—equine arteritis virus

The effects of vaccination with tissue culture-derived viral vaccines on detection of antibodies to equine arteritis virus by enzyme-linked immunosorbent assay (ELISA), 20 (1989) 181

Vaccination—equine herpesvirus 1

Experimental immunization against respiratory disease due to equid herpesvirus 1 infection (rhinopneumonitis) using formalin-inactivated virus with various adjuvants, 4 (1979) 209

Isolation and characterization of monoclonal antibodies against an atttenuated vaccine strain of equine herpesvirus type 1 (EHV-1), 18 (1988) 95

Vaccination—*Escherichia coli*

The effect of oral immunization on the population of lymphocytes migrating to the mammary gland of the sow, 9 (1984) 287

Molecular analysis of the virulence determination of enterotoxigenic *Escherichia coli* isolated from domestic animals: applications for vaccine development, 10 (1984/1985) 241

Protection of weaned rabbits against experimental *Escherichia coli* O103 intestinal infection by oral formalin-killed vaccine, 21 (1989) 353

Vaccination—feline leukemia virus

Feline leukemia virus vaccine: new developments, 17 (1988) 297

Vaccination—foot-and-mouth disease virus

Difference in protective immunity of the tongue and feet of guinea pigs vaccinated with foot-and-mouth disease virus type A12 following intradermolingual and footpad challenge, 7 (1982) 97

Simultaneous vaccination of piglets against foot-and-mouth disease and classical swine fever, 20 (1989) 215

Vaccination—influenza virus

Effect of intratracheal challenge of fattening pigs previously immunised with an inactivated influenza H_1N_1 vaccine, 11 (1986) 239

The expression of the *Autographa californica* nuclear polyhedrosis virus genome in insect cells, 23 (1990) 73

Iscoms, 23 (1990) 79

Vaccination—*Leptospira interrogans*

Effect of maternal vaccination on the susceptibility of growing pigs to leptospiral infection, 15 (1987) 79

Susceptibility of Mongolian gerbils (*Meriones unguiculatus*) to leptospires and the protective effect of vaccination, 24 (1990) 63

Vaccination—maedi–visna virus

Failure of experimental vaccines to protect against infection with ovine progressive pneumonia (maedi-visna) virus, 13 (1987) 201

Vaccination—malignant catarrhal fever virus

Malignant catarrhal fever virus in rabbits—reproduction of clinical disease by cell-free virus and partial protection against such disease by vaccination with inactivated virus, 5 (1980) 161

Atempts to protect rabbits against challenge with virulent, cell-associated, malignant catarrhal fever virus, 7 (1982) 419

Vaccination—mink enteritis virus

The propagation of feline panleukopenia virus in microcarrier cell culture and use of the inactivated virus in the protection of mink against viral enteritis, 13 (1987) 371

Vaccination—*Mycobacterium avium*

Delayed-type skin hypersensitivity and in vitro lymphocyte immunostimulation responses of swine following inoculation with *Mycobacterium avium* cell walls and a mycobacterial immunopotentiating glycolipid, 8 (1983) 281

Vaccination—*Mycoplasma bovis*

Immunoprophylaxis of experimental *Mycoplasma bovis* arthritis in calves. Protective efficacy of live organisms and formalinized vaccines, 5 (1980) 113

Vaccination—*Mycoplasma gallisepticum*

Resistance of chickens immunized against *Mycoplasma gallisepticum* is mediated by bursal dependent lymphoid cells, 9 (1984) 509

Vaccination—Newcastle disease virus

Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection, 15 (1987) 41

Serological response of chickens to oral vaccination with Newcastle disease virus, 16 (1988) 255

Vaccination—ovine adenovirus

Adenovirus vaccination of pregnant ewes and studies on the colostral immunity of their lambs, 5 (1980) 73

Vaccination—*Pasteurella haemolytica*

The capacity of various fractions of *Pasteurella haemolytica* to stimulate protective immunity in mice and hamsters, 6 (1981) 85

A crude cytotoxin vaccin protects sheep against experimental *Pasteurella haemolytica* Serotype A2 infection, 19 (1989) 175

Protection of lambs against experimental pneumonic pasteurellosis by transfer of immune serum, 20 (1989) 59

Vaccination—*Pasteurella multocida*

Efficacy of a live *Pasteurella multocida* vaccine for the prevention of experimentally induced bovine pneumonia pasteurellosis, 21 (1989) 147

Bacterial activity in the sera of mice vaccinated with *Pasteurella multocida* type A, 24 (1990) 55

Vaccination—porcine parvovirus

Antibody responses of guinea-pigs, rabbits and pigs to inactivated porcine parvovirus vaccines, 9 (1984) 27

Potentiating effect of adjuvants on humoral immunity to porcine parvovirus vaccines in guinea pigs, 10 (1984/1985) 209

Vaccination—porcine rotavirus

Evaluations of killed and modified live porcine rotavirus vaccines in cesarean derived colostrum deprived pigs, 22 (1990) 179

Vaccination—rabies virus

Use of recombinant vaccinia–rabies virus for oral vaccination of fox cubs (*vulpes vulpes*) against rabies, 18 (1988) 103

Use of vaccinia rabies recombinant for oral vaccination of wildlife, 23 (1990) 227

Oral immunization of foxes with avirulent rabies virus mutants, 23 (1990) 259

Vaccination—retrovirus

Iscoms, 23 (1990) 79

Vaccination—rinderpest virus

Antibody response of cattle to rinderpest vaccine, 10 (1984/1985) 189

The serological response to a thermostable Vero cell-adapted rinderpest vaccine under field conditions in Niger, 22 (1990) 119

Vaccination—*Salmonella cholerae suis*

Immunisation of pregnant sows with a live *Salmonella cholerae suis* vaccine, 3 (1978/1979) 303

Vaccination—*Streptococcus suis*

Isolation and characterization of temperature-sensitive mutants of *Streptococcus suis*: efficacy trial of the mutant vaccine in mice, 22 (1990) 257

Vaccination—swine fever virus

Hog cholera virus: active immunization with the Thiverval strain in the presence and absence of colostral passive immunity, 3 (1978) 31

Influence of the vaccination regime on the herd immune response for swine fever, 13 (1987) 143

Inhibition of virus replication in the tonsils of pigs previously vaccinated with a Chinese strain vaccine and challenged oronasally with a virulent strain of classical swine fever virus, 14 (1987) 105

The protective value of vaccine-induced neutralising antibody titres in swine fever, 16 (1988) 123

Vaccination—transmissible gastroenteritis virus

Lack of protection in vivo with neutralizing monoclonal antibodies to transmissible gastroenteritis virus, 18 (1988) 197

Vaccination—Wesselsbron virus

Wesselsbron virus infection in West African Dwarf Sheep: effect of pre-infection serum flavivirus antibodies on severity of disease, 6 (1981) 287

Vaccines—African swine fever virus

The virus of African swine fever: perspectives for a vaccine, 23 (1990) 129

Vaccines—bovine ephemeral fever virus

An experimental inactivated virus vaccine against bovine ephemeral fever. 1. Studies of the virus, 4 (1979) 183

Vaccines—*Brucella abortus*

Conservation of antigenicity in a 31-kDa *Brucella* protein, 18 (1988) 313

Vaccines—foot-and-mouth disease virus

Comparison of laboratory techniques for the evaluation of the antigenic potency of foot-and-mouth disease virus cultures and vaccines, 1 (1976) 71

Vaccines—fowlpox virus

A fowlpox virus vaccine vector with insertion sites in the terminal repeats: demonstration of its efficacy using the fusion gene of Newcastle disease virus, 23 (1990) 305

Vaccines—general

Viruses as vectors, 23 (1990) 55

Vaccines—infectious bursal disease virus

Isolation and characterization of attenuated plaque variants of infectious bursal disease virus, 22 (1990) 171

Vaccines—rinderpest virus

Comparison of the effect of various chemical stabilizers and lyophilization cycles on the thermostability of a Vero cell-adapted rinderpest vaccine, 21 (1989) 195

Vaccines—viral haemorrhagic septicaemia virus

Molecular cloning of the mRNA coding for the G protein of the viral haemorrhagic septicaemia (VHS) of salmonids, 23 (1990) 221

Vectors

Use of the indirect fluorescent antibody technique for the detection of Bluetongue virus antigen in tissue smears from *Culicoides variipennis* (Diptera, Ceratopogonidae), 5 (1980) 13

Isolation of Tibrogargan virus, a new Australian rhabdovirus, from *Culicoides brevitarsis*, 5 (1980) 301

Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan, 15 (1987) 243

The vector potential of British *Culicoides* species for bluetongue virus, 17 (1988) 1

A perspective on equine infectious anemia with an emphasis on vector transmission and genetic analysis, 17 (1988) 251

Isolation and preliminary characterization of an orbivirus of the Palyam serogroup from biting midge *Culicoides oxystoma* in Japan, 19 (1989) 1

Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to Tibrogargan virus of Australia, 19 (1989) 141

A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks, 19 (1989) 151

Cullicoides: biological vectors of Akabane virus, 21 (1989) 125

Viruses as vectors, 23 (1990) 55

Vesicular stomatitis virus

An enzyme-linked immunosorbent assay for the detection of vesicular stomatitis virus

antigen, 18 (1988) 243

Viral haemorrhagic septicaemia virus

Biological properties of viral haemorrhagic septicaemia virus: adsorption and replication, 1 (1976) 421

Molecular cloning of the mRNA coding for the G protein of the viral haemorrhagic septicaemia (VHS) of salmonids, 23 (1990) 221

Virology—general

The European Community and developments in veterinary virological research, 23 (1990) 3

Veterinary research and education in Europe: a university viewpoint, 23 (1990) 6

Why a European society for veterinary virology?, 23 (1990) 8

Virulence—*Actinobacillus pleuropneumoniae*

Grouping of *Actinobacillus pleuropneumoniae* strains of serotypes 1 through 12 on the basis of their virulence in mice, 25 (1990) 229

Virulence—Aujeszky's disease virus

In vitro markers to differentiate an avirulent from a virulent strain of Aujeszky's disease virus, 3 (1978) 65

Relative rates of Aujeszky's disease virus attenuation, as assessed in mice, 15 (1987) 249

Virulence—*Bacteroides nodosus*

Motility in relation to virulence of *Bacteroides nodosus*, 10 (1984/1985) 107

Comparative antigenic analysis of extracellular proteins of *Bacteroides nodosus* isolated from virulent and benign ovine footrot, 12 (1986) 135

Measurement of protease thermostability, twitching motility and colony size of *Bacteroides nodosus*, 22 (1990) 353

Virulence—bluetongue virus

Effects of proteolytic enzymes on the infectivity, haemagglutinating activity and protein composition of bluetongue virus type 20, 22 (1990) 137

Virulence—*Bordetella bronchiseptica*

Virulence and lienotoxicity of *Bordetella bronchiseptica* in mice, 25 (1990) 199

Virulence—bovine viral diarrhoea virus

Effect of host cell on the in vitro characteristics expressed by two bovine viral diarrhea virus strains, 21 (1989) 319

Virulence—*Chlamydia psittaci*

Comparison of the virulence in mice of some ovine isolates of *Chlamydia psittaci*, 12 (1986) 213

Relationship between virulence of *Chlamydia psittaci* strains and establishment of persistent infection of McCoy cells, 19 (1989) 65

Virulence—equine herpesvirus

Immunogenicity of equine herpesvirus type 1 (EHV1) and equine rhinovirus type 1 (ERhV1) following inactivation by betapropiolactone (BPL) and ultraviolet (UV) light, 7 (1982) 535

Virulence—*Erysipelothrix rhusiopathiae*

Correlation between adherence of *Erysipelothrix rhusiopathiae* strains of serovar 1a to tissue culture cells originated from porcine kidney and their pathogenicity in mice and swine, 13 (1987) 57

Virulence—*Escherichia coli*

An examination of *Escherichia coli* strains isolated from cases of bovine mastitis for possible virulence determinants, 8 (1983) 141

Virulence factors in *Escherichia coli* isolated from piglets with neonatal and postweaning diarrhea in Japan, 13 (1987) 291

The virulence characteristics of strains of *Escherichia coli* isolated from cases of bovine mastitis in England and Wales, 20 (1989) 35

Virulence—feline panleukemia virus

Feline panleucopenia—in vivo infectivity studies, 16 (1988) 137

Virulence—infectious bovine rhinotracheitis virus

A comparison of the virulence of three strains of infectious bovine rhinotracheitis virus, 8 (1983) 129

Virulence—infectious laryngotracheitis virus

Differentiation between virulent and avirulent strains of infectious laryngotracheitis virus by DNA:DNA hybridization using a cloned DNA marker, 11 (1986) 319

Virulence—*Mycoplasma gallisepticum*

Infection of the chicken with a virulent or avirulent strain of *Mycoplasma gallisepticum* alone and together with Newcastle disease virus or *E. coli* or both, 4 (1979) 35

Virulence—*Mycoplasma* spp.

Comparison of virulence of ovine respiratory mycoplasmas in the mouse mammary gland, 9 (1984) 367

Virulence—porcine adenovirus

Immunodiffusion and neutralization studies on porcine adenoviruses, 5 (1980) 101

Virulence—*Pseudomonas aeruginosa*

Assessment of elastase as a *Pseudomonas aeruginosa* virulence factor in experimental lung infection in mink, 13 (1987) 281

Virulence—*Salmonella* spp.

Tagging and elimination of plasmids in *Salmonella* of avian origin, 18 (1988) 73

Virulence—transmissible gastroenteritis virus

Multiplication of low and high cell culture passaged strains of transmissible gastroenteritis virus in organs of newborn piglets, 3 (1978/1979) 169

Virulence—*Yersinia* spp.

Occurrence of virulence markers in species of *Yersinia* isolated from animals in Nigeria, 12 (1986) 289

Virus structure

Study on the morphology of bovine leukemia virus and localization of the viral antigens, 1 (1976) 193

Foot-and-mouth disease virus: immunogenicity and structure of fragments derived from capsid protein VP_3, and of virus containing cleaved VP_3, 7 (1982) 85

Structural proteins of bovine parainfluenza-3 virus, 13 (1987) 205

Structural studies of virus particles, 23 (1990) 11

The structure of foot-and-mouth disease virus: implications for its physical and biological properties, 23 (1990) 21

Pestiviruses: a review, 23 (1990) 35

Vulvovaginitis

The DNA of an IPV strain of bovid herpesvirus 1 in sacral ganglia during latency after intravaginal infection, 9 (1984) 53

Wallaby

Bacteroides ruminicola as a possible cause of "lumpy-jaw" in Bennett's wallabies, 2 (1977) 179

Jaw disease in macropod marsupials: bacterial flora isolated from lesions and from the mouths of affected animals, 8 (1983) 373

Wesselsbron virus

Wesselsbron virus infection in West African Dwarf Sheep: effect of pre-infection serum flavivirus antibodies on severity of disease, 6 (1981) 287

Whey

Bacterial growth in mastitic whey in relation to bacterial association with mastitis, 21 (1989) 155

Wildebeest

Shedding of malignant catarrhal fever virus by wildebeest calves, 6 (1981) 281

Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus), 19 (1989) 205

***Wolinella* spp.**

The obligate and facultatively anaerobic bacterial flora of the normal feline gingival margin, 22 (1990) 267

Yersinia enterocolitica

Studies on the use of *Yersinia enterocolitica* 09 antigens in rapid quantitative plate tests for the differentiation of Brucella and Yersinia infections in cattle and the diagnosis of bovine brucellosis, 5 (1980) 323

Ecological studies of *Yersinia enterocolitica*. I. Dissemination of *Y. enterocolitica* in pigs, 8 (1983) 469

Significance of milk as a possible source of infection for human yersiniosis. I. Incidence of *Yersinia* organisms in raw milk in Shimane Prefecture, Japan, 9 (1984) 139

Ecological studies of *Yersinia enterocolitica*. II. Experimental infection with *Y. enterocolitica* in pigs, 9 (1984) 375

Ecological studies of *Yersinia enterocolitica*. III. Cross-protection against fecal excretion between *Y. enterocolitica serovars* 3 and 5.27 in pigs, 9 (1984) 383

Yersinia ruckeri

O-serotyping of *Yersinia ruckeri* with special emphasis on European isolates, 22 (1990) 299

***Yersinia* spp.**

Suppression of heat-stable enterotoxin production by *Yersinia* spp. in milk, 11 (1986) 163

Occurrence of virulence markers in species of *Yersinia* isolated from animals in Nigeria, 12 (1986) 289

The sensitivity to antimicrobial agents of species of *Yersinia* isolated from cattle and pigs in Nigeria, 12 (1986) 383

Zoonoses

Propagation of human rotavirus in young dogs, 3 (1978) 55

Enterotoxin production by strains of *Staphylococcus aureus* isolated from animals and man in Nigeria, 5 (1980) 143

Human influenza virus infection in mink: serological evidence of infection in summer and autumn, 8 (1983) 251

Significance of milk as a possible source of infection for human yersiniosis. I. Incidence of *Yersinia* organisms in raw milk in Shimane Prefecture, Japan, 9 (1984) 139

Reliability of thermonuclease production for the identification of human and animal *Staphylococcus aureus*, 9 (1984) 271

Ecological studies of *Yersinia enterocolitica*. II. Experimental infection with *Y. enterocolitica* in pigs, 9 (1984) 375

Ecological studies of *Yersinia enterocolitica*. III. Cross-protection against fecal excretion between *Y. enterocolitica serovars* 3 and 5.27 in pigs, 9 (1984) 383

Isolation of *Legionella pneumophila* from calves and the prevalence of antibodies in cattle, sheep, horses, antelopes, buffaloes and rabbits, 13 (1987) 313

Zymograms

Proteolytic zymograms of *Staphylococcus hyicus* subsp. *hyicus* isolated from pigs, chickens and cows, 14 (1987) 47
